No 19, dated India Office, London, the 31st December 1878

From—The Secretary of State for India,

To—His Excellency the Right Honorable the Governor-General of India in Council

MY LORD,—I forward herewith, for the information of your Excellency in Council, and for such circulation as you may deem necessary, copy of a letter* received from the Secretary to the Gilchrist Trustees, which transmitted the papers for the scholarship examinations to be held next month at Calcutta, and at the same time announces certain changes decided upon by the Trustees with respect to the languages to be brought up by candidates, and the duration of the tenure of the scholarships, which changes are to commence about a twelve-month hence

* 4th December 1878 with printed enclosure

2 The papers for the scholarship examinations of next month were forwarded to your Government by the mail of the 6th instant *via* Brindisi

Dated London the 4th December 1878

From—WILLIAM B CARPENTER, Esq,

To—SIR LOUIS MALLET, C B &c, &c, &c

I HAVE the honor of forwarding to you on the part of the Gilchrist Trustees, the papers for the scholarship examinations to be held next month in the three Presidential Capitals of India

(Sent *viâ* Brindisi, 6th December 1878)

At the same time, I am to inform you that as the Senate of the University of London have now admitted Sanskrit and Arabic as alternative subjects with Greek and German for their matriculation examination, the Trustees have decided that this shall henceforth be the examination by which the *Indian* scholarships shall be awarded, as it has been from the beginning in the case of the *Colonial* scholarships

I shall accordingly cause to be forwarded to you early in December 1879 the papers for the *University matriculation examination*, of the regulations for which I herewith enclose three copies It is in almost every respect identical with that hitherto conducted, except that *two* languages (*one* of which may be either Sanskrit *or* Arabic) must be brought up in *addition to Latin* I believe that candidates will have no difficulty in obtaining instruction in French, though it is not, I believe, taught in the Presidency Colleges

As those who pass this examination will be prepared, if they obtain the scholarship and come to England, at once to enter upon the course of study for a degree in one of the Faculties of the University, instead of requiring twelve or eighteen months for qualifying themselves to pass the matriculation examination, the Trustees have determined to shorten the tenure of the Indian scholarships from *five* to *four* years (they will still be held for a year longer than the Colonial scholarships, which are limited to three years), and the Trustees will be prepared to give favourable consideration to the case of any Indian scholar who, having taken his Bachelor's Degree with honors, is desirous of obtaining an additional year for the purpose of proceeding to the Degree of Master or Doctor They have already granted this privilege in two cases

I have to request that you will make these changes known in the three Presidencies

RESOLUTION

IN 1867 the Secretary of State communicated to the Government of India the scheme of the Gilchrist Educational Trustees for awarding two scholarships, each of the value of £100 a year and tenable for five years to candidates born in India who should be selected by competitive examination. The Trustees reserved to themselves the power of altering the conditions of the scholarships, or of withdrawing them altogether provided that no change should affect the interests of existing scholarship holders, or should be introduced without twelve months' notice.

2 The scheme as originally promulgated has since been modified in two points

(i) The competition, originally confined to persons of whose parents one at least belonged to one of the Native races, was extended so as to admit "all persons born in India, except those of pure European descent" *

(ii) Shortly after the promulgation of the scheme in India, the Secretary of State, in accordance with a request from the Trustees, agreed to grant the sum of £100 for passage to each of the successful candidates proceeding to England, and to allow the same amount for a return passage to India to such of them as might forfeit their scholarships by failing to pass the prescribed University examinations, or from any other cause

* Secretary of State's despatch to the Government of Bombay No 8, dated 16th December 1867

It was subsequently represented to the Trustees that under this arrangement a concession was made to unsuccessful scholars which was not, as a rule, granted to successful scholars, and it was suggested to them that as the passages of all scholars to England and the return passages of unsuccessful scholars were provided from the Indian revenues, it might be proper that successful scholars should receive their return passage to India from the funds of the Trust. On this the Trustees consented to assign a sum not exceeding £50 for the return passage of each successful scholar whose passage should not have been otherwise provided for, and the Secretary of State decided to reduce the allowance made to unsuccessful scholars for their return passage from £100 to £50 †

† Secretary of State's despatch to the Government of India, No 1 dated 18th January 1877

3 The Secretary of State now forwards‡ a letter from the Gilchrist Educational Trustees announcing important changes in—

‡ Secretary of State's despatch No 19, dated 31st December 1878

(i) the subjects in which candidates are examined, and
(ii) the term for which the scholarships are tenable

Hitherto the subjects in which candidates have been examined have been Latin, the English Language and History, Arithmetic and Algebra, Geometry, Natural Philosophy, and Chemistry In every respect, except as regards languages, the course for the Gilchrist Scholarships has been substantially the same, in point of character and difficulty, as the course laid down for matriculation at the London University But as certain additional languages are required by the latter course, successful candidates on their arrival in England, have found themselves compelled to study for twelve or eighteen months before passing the matriculation examination

4 The Senate of the London University have recently admitted Sanskrit or Arabic as alternative subjects with Greek, French, and German for their matriculation examination, and the matriculation course now stands as follows —

Candidates shall not be approved by the Examiners unless they have shewn a competent knowledge in each of the following subjects according to the details specified under the several heads —

(2) Any two* of the following languages Greek, French, German, and either Sanskrit or Arabic,

5 In consequence of the introduction into the language test of Sanskrit and Arabic, the Gilchrist Educational Trustees have decided that the examination course of the London University shall henceforth be the standard for the *Indian* Gilchrist Scholarships as it has been from the first for the corresponding *Colonial* Scholarships And in view of the fact that candidates who gain scholarships by this examination will be qualified on their arrival in England at once to enter upon the course of study for a degree in one of the Faculties of the University the Trustees have further determined to reduce the tenure of the Indian Scholarships from five to four years, as set forth in the following extract from the Regulations of the University of London —

III INDIAN SCHOLARSHIPS Two Scholarships each of the value of one hundred pounds per annum, and tenable for four years, will be awarded to the two candidates who pass highest in the examination carried on at the three principal capitals and corresponding with the matriculation examination provided that such candidates pass either in the Honours or in the First Division and are desirous of prosecuting their studies either at the University of Edinburgh or at University College, London, with a view to graduation in one of the four Faculties of the University of London

IV With this Statute the Indian Scholarships will still be held for one year longer than the Colonial Scholarships and the Trustees will be prepared to give favourable consideration to the case of any Indian scholar who, having taken his Bachelor's Degree with

Honors, is desirous of obtaining an additional year's tenure of his scholarship for the purpose of proceeding to the degree of Master or Doctor This privilege has already been granted in two cases

6 The changes now sanctioned will take effect at the examination to be held in the three Presidency towns during the second week of January 1880 Candidates who present themselves at that examination will be examined in the full matriculation course of the London University, and the winners of the scholarships will hold them for four years only, unless they are admitted to the special privilege of retaining their scholarships in order to proceed to a further degree It will also be observed that Acoustics, which has hitherto formed a part of the examination for the Gilchrist Scholarships, is not included in the matriculation course of the London University

ORDER.—Ordered that a copy of this Resolution and of the Secretary of State's despatch to the Government of India, No 19 of 1878 dated 31st December, and of its enclosure, be forwarded to local Governments and Administrations for information and for republication in the local gazettes

shall be punished with a fine not exceeding five hundred rupees

12 No charge shall be brought against any person for the recovery of any penalty under this Act before such day as the Lieutenant Governor shall fix by notification in the *Calcutta Gazette*, and no charge at all shall be brought without the authority of an Inspector appointed under this Act, or after the expiration of six months from the date of the commission of the offence

2 The principal objections taken to this Bill in its second form are, first, that, as a whole, it is heterogeneous, and, secondly, that certain parts of it are neither necessary nor expedient It is said, for instance, that, though the bulk of the Bill deals with transfer of property *inter vivos* by act of parties, it also treats, in sections 82, 83, of conditions in Wills, and, in section 129, of Succession to a deceased person It is said, again, that the chapters dealing respectively with the rights and liabilities of owners of limited interests and with property held by several persons belong rather to the subject of the enjoyment, than to that of the transfer, of property It is urged that settlements (in the conveyancer's sense of the word) are hardly ever made in India, that what are technically called Powers are almost unknown, and that the chapters respectively dealing with those subjects are certainly not necessary and can hardly be said to be expedient We feel the force of these objections In fact, we have always felt them But we were not responsible for the first draft of the Bill, whatever were its excellences or defects. The matters thus objected to, together with others, such as Registration and Trusts, still more foreign to the proper subject of the Bill, are all dealt with by the draft prepared by the late Indian Law Commission, which was sent out in 1870 by the then Secretary of State with instructions to introduce a Bill founded upon it, revised by Sir A Hobhouse and sent home by the Government of India in January, 1877, *i e*, nearly six months before the Bill was introduced and referred to a Select Committee The great deference due to the Law Commission and to Sir A Hobhouse has hitherto prevented us from dealing freely with the Bill. Until the opinions of the Local Governments and the results of local experience had been obtained, for us to have altered it would have been to set our individual views against those of the able and learned men who were answerable for the Bill as

introduced But now that the opinions and results above referred to have been obtained, we see that, if the Bill is to go on at all, it must be strictly confined to the subject of transfer of property by act of parties, that is to say, by contract or gift

3 We have therefore omitted chapters VII to XII both inclusive

4 We cannot maintain that they are in accordance with one of the canons laid down in our last report, namely, that no additions should be made to the existing law "which are not either necessary or clearly expedient" The chapters dealing respectively with settlements, the rights and liabilities of owners of limited interests, and property held by several persons, are, moreover, very incomplete, and, as Natives are excluded from chapter IX, it would apply to a very limited class of persons Chapter XI (of Powers) would also be of little use We believe that among Natives powers are almost unknown So far as we are aware, the only reported cases in which anything like a power was given by a Native are in 2 Calc 474, and N-W P (1869) Part II, p 6, in each of which cases a Hindú bequeathed land to his wife and expressly empowered her to alienate it, and in 5 Beng 181, where a Hindú testator empowered his sister to appoint a trustee of a religious endowment Moreover, powers may be created by will and are, as often as not, exercisable by will The subject therefore does not properly fall within a measure treating of the *transfer* of property, that is, as lawyers generally understand the expression, the conveyance of property from one living person to another

5 As the Bill is, so far as it deals with immoveable property and debts, only a partial measure, we have made the preamble run thus —"Whereas it is expedient to define and amend certain parts of the law relating to the transfer of property by act of parties" Compare the preamble to the Indian Contract Act, IX of 1872

CHAPTER I —*Preliminary*

6 In section 2, we have expressly saved all transfers by operation of law (*e g*, in case of insolvency, forfeiture, sale in execution of a decree), with which the Bill is not intended to deal

7 In section 3 we have omitted, as unnecessary, the definitions of "grantor," "grantee," and "grant," and, for the last paragraph, we have said "Chapters III, IV, V and VI of this Act shall be taken as part of the Indian Contract Act, 1872"

CHAPTER II —*Of Assurances of Immoveable Property*

8 This chapter should we think be entitled "Of Transfers of Immoveable Property," as it relates to all transfers of such property, whether or not an assurance is employed We have omitted section 5 and the schedule to which it relates they do not fitly form part of a Bill dealing with substantive law Moreover, English experience shews that statutory forms of conveyances are rarely used, and they are dangerous, as tempting unskilled persons to try and be their own conveyancers

9 Section 6 applies to transfers of immoveable property made by assurance, but it obviously ought to apply also to oral transfers of such property We have therefore re-drawn it

10 In section 7, we have provided for the case of a Sebait, which has twice come before the Judicial Committee (See 14 Beng 450, and 1 L R 2 Calc 341)

11 As rents and profits of land are 'immoveable property,' we have, after this section, inserted section 1 of Act XI of 1855 —

"No person shall be chargeable with any rents or profits of any immoveable property which he has in good faith paid or delivered to any person of whom he in good faith held the same, notwithstanding it may afterwards appear that the person to whom such payment or delivery was made had no right to receive such rents or profits"

This section now applies only to cases to which the English law is applicable, but there seems no reason why so equitable and useful a rule should not be extended to every one in India

12 Section 8 of Bill No III applies not only to cases where land has passed *inter vivos* by act of parties, but also to cases in which it has been transferred by operation of law It therefore seems beyond the scope of the Bill

13 The Bill is silent as to the doctrine of *lis pendens*, which has in about a dozen reported cases been applied to Native purchasers and mortgagees (see 11 Bom 24, 29, 30, 139, 8 Beng 471, 1 O'Kin 303, 309, 10 W R 469, Sev 808, 951) We have inserted the following —

'10 During the active prosecution in any Court having authority in British India or established beyond the limits of British India by the Governor General in Council, of a suit in which the right to any immoveable property is directly and specifically in question, the property cannot be transferred by any party to the suit so as to affect the rights of any other party thereto under any decree or order made therein"

14 Section 9 of Bill No III (as to the effect of payment by one person, of consideration for which a transfer is made to another) properly belongs to the Trusts Bill and should, we think, be omitted from the present measure

CHAPTER III —*Sales of Immoveable Property*

15 In accordance with a suggestion of Mr Justice Cunningham we have prefixed to this chapter a section founded on section 78 of the Contract Act, but we do not think with him that the section should provide for part delivery, an expression which, in the sense in which it is used in the Contract Act, section 92, would be inappropriate as applied to land, nor do we consider that in stating the time at which delivery takes place, the effect of executing and delivering the assurance should be ignored

The section referred to is as follows —

Sale how effected. "Sale of immoveable property is effected by offer and acceptance of certain immoveable property for a price, or of a price for certain immoveable property,

"together with payment of the price and delivery of the property, or with tender, part-payment or earnest, or with an agreement, express or implied, that the payment, or delivery, or both, shall be postponed

"Where there is a contract for the sale of immoveable property, the ownership of the property passes to the buyer when the whole or part of the price, or when the earnest, is paid, or when the property is delivered

"If the parties agree, expressly or by implication, that the payment, or delivery, or both, shall be postponed, the ownership passes as soon as the proposal for sale is accepted

"Delivery of immoveable property takes place—

"(*a*) if the transfer is made by assurance—when the assurance is executed and delivered by the seller, and (if its registration is required by law) registered

"(*b*) if the transfer is not made by assurance, in the case of a reversion or other intangible thing—when the parties consent to its delivery, and in the case of other immoveable property—when the buyer becomes capable of exercising physical control over it and determines to exercise such control on his own behalf or on behalf of the person whom he represents"

This will have the effect of settling a moot point of Hindú law, namely, whether change of possession is necessary to complete a sale of land, whether, in other words, the vendor must, at the time of sale, be in possession of the property sold (I L R 1 Calc 302 I L R 1 Bomb 502 N W P 1871, p 2 *contra* 7 Bomb A C J 4 10 Bomb 491) This question is answered in the negative by the Calcutta High Court and Mr J D Mayne, a considerable authority on Hindu law

16 We have omitted clauses (*d*) and (*e*) of section 11 (now 12) The former is, as Mr Jacob points out, provided for by the Contract Act, section 39, the latter by section 10 of the same Act On the other hand, we have restored clauses (*e*) and (*f*) of Bill No I, modified as follows —

"Till the ownership of the property passes to the buyer, the seller is entitled to the rents and profits thereof

"When the ownership of the property has passed to the buyer, he must bear any loss arising from the destruction, injury or deterioration of the property not caused by the seller, and he is entitled to the benefit of any improvement in, or increase in value of, the property and to the rents and profits thereof"

The latter clause corresponds with the provision of the Contract Act, section 80, as to goods.

17 We have recast and abridged section 10 (now 13) as follows —

Disclosures required from seller and buyer "The following omissions are fraudulent —

"(*a*) an omission of the seller of immoveable property to disclose to the buyer any defect therein of which the seller is, and the buyer is not, aware, and which the buyer could not with ordinary care discover

"(*b*) an omission of the buyer of immoveable property to disclose to the seller any fact as to the nature or extent of the seller's interest therein, of which the buyer is, and the seller is not, aware, and which increases the value of such interest"

This will attract section 17, clause (5), of the Contract Act, which declares that "fraud" includes "any such omission as the law specially declares to be fraudulent"

18 As the Bill is now strictly limited to transfers by act of parties, we have omitted section 13, as to the procedure where the buyer becomes insolvent before completion For the same reason we have also omitted section 75, as to the procedure where, during the continuance of a lease, the lessee becomes insolvent

19 Section 17 (now 18), as to joint purchases We have added, as Mr Field suggests "In the absence of evidence as to the shares so advanced, such persons shall be presumed to be equally interested in the property"

CHAPTER IV —*Of Exchanges*

20 As this chapter deals with moveable as well as immoveable property, we have placed it after the chapter on leases and we have omitted the first paragraph of section 22 as the matter seems sufficiently provided for by Act IX of 1872, sections 64, 65, and Act I of 1867, sections 25, 37.

CHAPTER V —*Of Mortgages of Immoveable Property*

21 Section 27.—We fear that the abolition of equitable mortgages here proposed by the Law Commissioners would inconvenience the mercantile community We have thought it better to say that a mortgage by deposit of title-deeds shall be deemed to create a charge on the property comprised therein and to insert the necessary clause in section 68 (now 63)

22 We have provided, in accordance with a suggestion of Mr Field, that in the case of an usufructuary mortgage, the mortgagor may recover possession of the property, (1) where the mortgagee is authorized to pay himself from the rents and profits of the property the principal and interest of the mortgage-money—when such principal and interest are so paid, (2) where the mortgagee is authorized to pay himself from such rents and profits the

interest of the mortgage-money—when the term (if any) of the mortgage expires and the mortgagor pays or tenders to the mortgagee, or deposits in such Court as last aforesaid, the principal of the mortgage-money"

23 Section 29 (now 24) —We have here declared the duty of a mortgagor to take all legal means to protect his rights in the mortgaged property (Macph 112)

24 Section 31 (now 27) —This provided only for voluntary waste We have now provided that the mortgagor is not liable for permissive waste

25 Section 42 (now 39), clause (c) —We have added, in order to meet the case of patni tenures and saleable under-tenures, "and any arrears of rent in default of payment of which the property may be summarily sold"

We have provided that a mortgagee in possession ought to do such repairs as he can pay for out of the rents received after his interest is paid (see 9 W R 488)

We have omitted clause (e) The right which it gives is, as Mr Field says, part of the mortgagee's right to take possession, which, as a general rule, finds no place in the Bill

Where sufficient tender is made, the mortgagee in possession is thenceforth accountable for all his receipts from the mortgaged property (9 N-W P 1 Macph 159—160) We have provided for this

26 Section 60 (now 57) —When a mortgagor obtains a decree in a redemption-suit and fails to pay the amount due, we think the mortgagee should be entitled either to a foreclosure or a sale We have altered this section accordingly

27 Section 61 (now 58) —We have omitted the second paragraph and the schedule to which it refers It is hardly the function of a Bill codifying substantive law to give forms of decrees They should, if necessary, be added to schedule IV of the Code of Civil Procedure

CHAPTER VI —*Of Leases*

28 Section 70 (now 66) —We have substituted a section analogous to that above proposed as a substitute for section 10

29 Section 71 (now 65) —We have struck out clauses (c) and (g). The former is superfluous, the latter is provided for by the Contract Act, sections 64 and 73

Clause (f) now (g) —With reference to Couch, C J's, decision in *Koegler* v *Yule*, 5 Beng 401, 416, we think this clause should run thus "The lessee may use the property leased and its products (if any) as a reasonable owner would use them, but he must not use the property for a purpose other than that for which it was leased, or fell timber, open mines or quarries, or commit any other act which is destructive or permanently injurious thereto" We have added "The prohibition in this clause does not apply to mines which were open when the lease was granted"—See 8 Chan Div 526

Clause (q) now (o) —We have inserted words in the proviso to show that the lessor's transferee is not entitled to arrears of rent due before the transfer

Clause (r) now (p) —We have made (in accordance with a suggestion of the Government of the North-Western Provinces) the second paragraph to run thus "Nothing in this clause shall be deemed to authorize a tenant having a right of occupancy, the farmer of an estate in respect of which default has been made in paying revenue, and the lessee of an estate under the management of a Court of Wards, to assign his interest as such tenant, farmer or lessee"

30 Section 76 (now 70) —We have completed the list of events on which a lease determines

31 We have redrawn the clause as to waiver of forfeiture and notice. It is now numbered 71, 72

32 We have inserted a section (74) as to the effect of surrender and forfeiture of a lease, on sub lessees

33 We have made some other comparatively unimportant omissions, additions and alterations in wording and arrangement We have added on the margins references to the reported decisions of the Indian Courts and the Judicial Committee, which justify the rules contained in the Bill It will be seen that but few of these rules are devoid of this valuable support The assertion that the Bill would introduce a mass of new law into India must therefore be due to ignorance of the extent to which English law (under the name of justice, equity and good conscience) is actually administered to the Natives by the Anglo-Indian Courts The object of the Bill, like that of all our Codes, is to strip our own law of all that is local and historical, and to mould the residue into a shape in which it would be suitable for an Indian population and could be easily administered by non-professional Judges But the Bill will introduce hardly any new substantive law, and it will not (except in the case of the procedure relating to mortgages) displace any existing enactment The rules, for instance, as to the relation of landlord and tenant contained in the local Acts, X of 1859, XVIII of 1873, XIX of 1868, XXVIII of 1868, Bengal Act VIII of 1869, and Madras Act VIII of 1865, will all remain untouched

34 To the body of local usages and contractual incidents which in India, as in other countries, exists as to the transfer of land the tenderest care is shewn by the Bill Not only is local usage expressly saved in sections 62, 65 and 68, but the effect of section 1, clause (a), will be to maintain intact the statutory force which the legislature has given to local usage in those two *pays de coutumes* the Punjab and Oudh, and throughout India all the many incidents of a mortgage or a lease, which are not inconsistent with the provisions of the Bill, will remain wholly unaffected

35 The Bill and preliminary report of the Select Committee have been published in English in the Presidency-towns, the Panjáb, the Central Provinces and British Burma,

From the North-Western Provinces no report of publication has been received Publication of the Bill and Report in the vernacular has been reported only by the Government of Bengal We recommend that the Bill as now altered be published in the *Gazette of India* and sent to the various Local Governments for opinion And we think that no further steps should be taken upon the Bill until it has been reported on by the new Indian Law Commission

WHITLEY STOKES
F R COCKERELL

CALCUTTA,
The 19th February, 1879

I concur in all the omissions and amendments made by the Committee and in their final recommendation, but I believe the Bill to be capable of further simplification and regret to notice the almost entire absence of illustrations

T H THORNTON

I have not had time to consider either the provisions of the Bill or the changes now made thoroughly, but I agree that the chapters on Powers, Settlements, &c, should be omitted, and think these omissions necessitate republication with a view to elicit fresh criticism to be laid before the new Commission

I would modify the new section 11 by requiring a written instrument in all cases where the value of the property sold is Rs 100 or upwards This will involve registration and get rid of the inconvenience and anomaly which would arise from oral sales of valuable land with deferred possession and no registration Subject to the above remarks, I approve of the additions now made to the Bill

G H P EVANS

I concur in all the omissions and agree that there should be a further publication

G C PAUL

I am opposed to the republication of this Bill at the present time I believe that there is a great deal still left in the Bill which it will be desirable to omit, as relating to matters on which legislation is not called for, and I think that there should be no further publication until the Law Commission have reported on the measure

A J ARBUTHNOT

I am inclined to think that there can be no harm in republishing the Bill in its present form (though I must say that I believe it admits of further improvement), inasmuch as the republication will elicit public criticisms which may be of some use to the Law Commission

OF TRANSFERS OF IMMOVEABLE PROPERTY

---

CHAPTER III

OF SALES OF IMMOVEABLE PROPERTY

Sale how effected

11 Sale of immoveable property is effected by offer and acceptance of certain immoveable property for a price, or of a price for certain immoveable property,

together with payment of the price and delivery of the property, or with tender, part payment or earnest, or with an agreement, express or implied, that the payment, or delivery, or both, shall be postponed

Where there is a contract for the sale of immoveable property, the ownership of the property passes to the buyer when the whole or part of the price, or when the earnest, is paid, or when the property is delivered

If the parties agree, expressly or by implication, that the payment, or delivery, or both, shall be postponed, the ownership passes as soon as the proposal for sale is accepted

Delivery of immoveable property takes place—

(*a*) if the transfer is made by assurance—when the assurance is executed and delivered by the seller, and (if its registration is required by law) registered

(*b*) if the transfer is not made by assurance, in the case of a reversion or other intangible thing—when the parties consent to the delivery, and in the case of other immoveable property—when the buyer becomes capable of exercising physical control over it and determines to exercise such control on his own behalf or on behalf of the person whom he represents

Rights and liabilities of buyer and seller.

12 In the absence of a contract to the contrary, the buyer and the seller of immoveable property respectively have the rights, and are subject to the liabilities, mentioned in the ten rules next following, or such of them as are applicable to the property sold

(*a*) The seller must produce to the buyer, for examination, all documents of title relating to the property which are in his possession or power, and must inform the buyer of all facts not apparent thereon of which the seller is aware and which affect the seller's power to fulfil his contract, and must answer to the best of his information all relevant questions put to him by the buyer in respect to the property or the title thereto

(*b*) Till the ownership of the property passes to the buyer, the seller is entitled to the rents and profits thereof

(*c*) When the ownership of the property has passed to the buyer, he must bear any loss arising from the destruction, injury or decrease in value of the property not caused by the seller, and he is entitled to the benefit of any improvement in, or increase in value of, the property, and to the rents and profits thereof

(*d*) When the buyer has been let into possession of the property before payment of the whole of the purchase-money, the seller has a charge upon the property for the amount of the purchase-money, or any part thereof, remaining unpaid, and for interest on such amount or part, but as soon as the assurance, if any, is registered, such charge shall cease except as against the buyer

(*e*) Unless the buyer has improperly declined to accept delivery of the property, he has, against the seller, a charge on the property, to the extent of the seller's interest therein, for the amount of any purchase-money properly paid by the buyer in anticipation of the delivery, and for interest on the amount of such payment, and, when the buyer properly declines to accept the delivery, also for the earnest (if any) and for his costs (if any) of a suit by himself or the seller to compel specific performance of the contract or to obtain a decree for its rescission

(*f*) When the buyer has been let into beneficial possession of the property before payment of the price, and the price is not paid owing to defects in the seller's title, the buyer is not liable to pay for such possession

(*g*) The seller must discharge all incumbrances on the property existing at the date of the contract The buyer may retain, out of the unpaid purchase-money, the amount of such incumbrances, and shall pay the amount so retained to the parties entitled thereto

(*h*) On payment or tender of the amount due in respect of the price, the seller is bound to execute a proper assurance of the property when the buyer tenders it to him for execution at a proper time and place.

(*i*) On delivery of the property, the buyer is entitled to all documents of title relating thereto which are in the seller's possession or power

Provided that (1) where the seller retains any part of the property comprised in such documents, he is entitled to retain them all, and (2) where the whole of such property is sold to different buyers, the buyer of the lot of greatest value is entitled to such documents But in case (1) the seller, and in case (2) the buyer of the lot of greatest value, is bound, upon every reasonable request by the buyer, or by any of the other buyers, as the case may be, or by any person claiming under him, and at the cost of the person making the request, to produce the said documents and furnish such true copies thereof as he may require, and, in the meantime, the seller or the buyer, as the case may be, of the lot of greatest value, must keep the said documents safe, uncancelled and undefaced, unless prevented from so doing by fire or other inevitable accident

Bill, s 41 (1) altered 1 W P 1867, P 199
See 7 W R 196 6 W R 153; 25 W. R 46

(*g*) Unless the sale is made by a person in a fiduciary character, the seller shall be deemed to contract with the buyer,

first, that notwithstanding anything done by the seller or any person through whom he claims, the seller has power to transfer the property to the buyer, free from incumbrances,

secondly, that the seller and all persons claiming any interest in the same through or for him, or any person through whom he claims, will on demand execute and deliver to the buyer at his expense any further assurance of the same that may reasonably be required,

urther assurance, 5 W R P C 111

and, where the property is leasehold, *thirdly*, that the lease is valid and subsisting and that the rent reserved thereby, the conditions contained therein and the contracts binding on the lessee have been paid, performed and observed down to the delivery

Mortgage, mortgagor and mortgagee defined

21 When, for the purpose of securing money advanced or to be advanced by way of loan or an existing or future debt, or the performance of an engagement, one person transfers to another a right over specific immoveable property, the transfer is called a mortgage of immoveable property, the transferor is called a mortgagor, the transferee a mortgagee, the money of which payment is secured is called the mortgage-money, and the assurance by which the transfer is effected is called a mortgage-deed

For the purposes of this chapter, any person entitled as heir, legatee, assignee, lessee or otherwise than as a mortgagee to the interest of the transferor in the property subject to the mortgage, or any part of such interest, is a mortgagor, and any person entitled as heir, legatee, assignee or otherwise to the interest of the transferee under the mortgage, or any part thereof, is a mortgagee

Duration of certain leases in absence of written contract or local usage

68 In the absence of a contract in writing or local usage to the contrary, a lease of immoveable property for purposes of cultivation shall be a lease from year to year terminable on the part of either lessor or lessee, by six months' notice expiring with the end of a year of the tenancy, and a lease of immoveable property for any other purpose shall be a lease from month to month, terminable, on the part of either lessor or lessee, by fifteen days' notice expiring with the end of a month of the tenancy

(a) by efflux of the time limited thereby

(b) where such time is limited conditionally on the happening of some event—by the happening of such event

(c) where the lessor can only alienate for his own life the property leased—by the death of the lessor

(d) where the lessor holds the property leased for the term of the life of another person—by the death of such person

(e) on the expiration of a notice to determine the lease duly given in pursuance of a power therein contained

(f) in case the interests of the lessee and the lessor in the whole of the property leased become vested at the same time in one person in the same right

(g) by express surrender, that is to say, in case the lessee yields up his interest under the lease to the lessor, by mutual agreement between them

(h) by implied surrender, that is to say, in case the lessee accepts from the lessor a new lease of the property leased, to take effect during the continuance of the existing lease

(i) by forfeiture, that is to say, (1) in case the lessee breaks an express condition which provides that, on breach thereof, the lessor may re-enter, or the lease shall become void, or (2) in case the lessee renounces his character as such by setting up a title in a third person or by claiming title in himself, and in either case the lessor or his transferee does some act evidencing his intention to determine the lease

(5 W. R. 238, 271)

(j) on the expiration of a notice to quit or of intention to quit the property leased duly given by one party to the other

(Bill II, s 77, cl 1; 7 W R P B 10; Marshall 26)

Waiver of forfeiture

Provided that the lessor is aware that the forfeiture has been incurred

2 Bom. 78

Provided also that, where rent is accepted after the institution of a suit to eject the lessee on the ground of forfeiture, such acceptance is not a waiver

72 A notice given by the lessor under section seventy, clause (j), is waived, with the express or implied consent of the lessee, by acceptance of rent which has become due since the expiration of the notice, or by distress for such rent, or by duly giving to the lessee a second notice to quit, or by any other act on the part of the lessor shewing an intention to treat the lease as subsisting

Waiver of notice to quit.

73 Where a lease of immoveable property has determined by forfeiture for non-payment of rent and the lessor sues to eject the lessee, if, at the hearing of the suit, the lessee pays or tenders to the lessor the rent in arrear, together with interest thereon and his full costs of the suit, or gives such security as the Court thinks sufficient for making such payment within fifteen days, the Court may, in lieu of making a decree for ejectment, pass an order relieving the lessee against the forfeiture, and thereupon the lessee shall hold the property leased as if the forfeiture had not occurred

Relief against forfeiture for non payment of rent

Nothing in this section applies to suits under Act No X of 1859, or Bengal Act No VIII of 1869

(0 W R 384; 8 W R 281; 7 W P 1871, p 63)

74 The surrender, express or implied, of a lease of immoveable property does not prejudice an under-lease of the property or any part thereof previously granted by the lessee but, unless the surrender is made for the purpose of obtaining a new lease, the rent payable by, and the contracts binding on, the under-lessee shall be respectively payable to, and enforceable by, the lessor.

Effect of surrender and forfeiture on under leases

The forfeiture of such a lease annuls all such under-leases

(Bill II, s. 78; Mill, s. 67; Report, s 41; 1 Bom A C J 87; 2 Beng 268; 4 W P 1870, p 204; 7 W R 152; 6 W R. 185; 12 W R. 394, 548; 13 W R 271; 15 W R. 234.)

75 If a lessee or under-lessee of property remains in possession thereof after the determination of the lease, and the lessor or his legal representative accepts rent from the lessee or under-lessee, or otherwise assents to his continuing in possession, the lease is, in the absence of an agreement to the contrary, renewed from year to year or from month to month, according to the purpose for which the property is leased, as specified in section sixty-eight

Note by D B HORN, ESQ., *Assistant Secretary to the Government of Bengal, Public Works Department, Irrigation Branch, on the last Competitive Entrance Examination for admission to the Dehree Training School*

THE examination was held at Calcutta, Allahabad, Lahore, and Sanawar, on Monday the 2nd September and following days

The number of candidates was 94, of whom 7 did not present themselves The remaining 87 were distributed as follows —

Calcutta	53
Allahabad	29
Lahore	3
Sanawar	2
Total	87

Of the 87 who presented themselves, 26 failed in dictation and were therefore excluded from taking any further part in the examination The numbers left to be examined at each of the above centres were—

Calcutta	41
Allahabad	15
Lahore	3
Sanawar	2
Total	61

The 61 who were examined in all the subjects are arranged in order of merit in Statement A accompanying this report

The first 13 were selected, and have since joined the school with the exception of the 2 natives

The native lad Dass wrote the day before he should have left for Dehree saying that he had fever and could not go Since then two letters have been sent to him from this office asking why he had not joined, but no replies have been received His appointment has consequently been cancelled

The other (Banerjee) joined the school, but left two or three days after saying that the work was too hard, and being a Brahmin he had difficulty in arranging for getting his food Since then his father has applied for permission to send him back to Dehree He has been allowed to do so, but he has not yet reported his having gone The appointment has since been cancelled

Of the above 13 admissions, 4 were free, viz McDonald, Sheels, Bates, and Smith

Besides these, however, 4 more have joined the school agreeing to pay Rs 20 per month during the whole of their four years' apprenticeship

The following statement gives the names of the apprentices admitted, with the names of the schools at which they were educated, and the marks gained in each subject, arranged in order of merit The subjects of examination were, an easy piece of dictation, simple arithmetic, including vulgar and decimal fractions, the first 26 propositions in Euclid, and Algebra up to simple equations —

On looking over the marks gained in each subject by the first 13 boys, the average percentage is very satisfactory. The averages are as follow —

Dictation	89 per cent
Arithmetic	79 „
Euclid	74 „
Algebra	60 „

Of the 34 schools who sent up candidates for the appointments, 7 of the 13 vacancies were obtained by the following up-country schools —

Cawnpore Memorial	3
St Peter's, Agra	2
Lawrence Asylum, Sanawar	2
Total	7

Twelve Calcutta schools sent up candidates, but only three of the vacancies were obtained by them—

La Martinière	1
Free School	1
St. James'	1
Total	3

The other three vacancies were gained by candidates from country schools—

Baduria School	1
Utterpara School	1
Palaveram School (Madras Presidency)	1

Appended to this report are two Statements (B and C) showing the names of the schools which sent up candidates, and the percentages gained by each in the different subjects of examination

The statements speak for themselves, so I shall only state the names of the different schools which seem to have classes reading up to the standard required

(1)—In Calcutta the schools are—

La Martinière	St James'
St Joseph's	Free School
Doveton	Armenian Philanthropic Academy

(2)—Around Calcutta—

Baduria School	Serampore College
Utterpara School	

(3)—In Northern India—

Memorial School, Cawnpore	Lawrence Asylum, Sanawar
St Peter's, Agra	Lucknow Martinere

I have mentioned schools which have sent up candidates who gained over 300 marks, but the papers being exceedingly simple, and supposing the boys who appeared for examination to be among the senior boys in the schools, I consider the list of schools whose standard is up to what is required for the Dehree Entrance to be restricted to the following —

Cawnpore Memorial	Free School, Calcutta
St Peter's, Agra	Doveton, Calcutta
Lawrence Asylum, Sanawar	Utterpara School
Martinière, Calcutta	Baduria School
St James', Calcutta	Palaveram School

If I am right in my supposition that the candidates were among the senior boys in the schools they represent, I think the conclusion to be drawn from the results of the above examination is that, for boys of 16 years of age, the standard of education in our Indian schools is not a particularly high one

D B Horn,

Asst Secy to the Govt of Bengal,
P W Dept, Irrign Branch

December 1878

P S—Since the above was written another lad, named Burnie, has been admitted on payment of Rs 20 monthly No other boys have been sent up in place of the two whose appointments have been cancelled.

Memorandum by COLONEL F. T. HAIG, R.E, *Chief Engineer, Bengal, Irrigation Branch, on Mr. Horn's Note on the last competitive Entrance Examination for admission to the Dehree Training School.*

THE general result of Mr. Horn's analysis of the figures seems to be this.

First—Out of 87 boys who went up for examination, 26 failed to obtain a qualifying number of marks in dictation, that is to say, they appeared to be so utterly deficient in this subject that they were on this account alone considered unfit for admission to the school, and were therefore not allowed to proceed further in the examination. The numbers were as follows.—

Schools represented.	Places of education not mentioned.	Examined at.	Number that went up	Qualified in dictation	Failed.
22	1	Calcutta	53	41	12
9	2	Allahabad	29	15	14
1	1	Lahore	1	1	0
1	0	Sanawar	2	2	0
		Total	87	61	26

Of the 22 schools which sent up candidates for examination at Calcutta, five were district schools (as Assensole, Utterpara, Bhagulpore, &c), one a Madras school, one at Rangoon, and one at Nynee Tal, 14 out of the 22 were thus Calcutta schools The nine schools which sent candidates to Allahabad were as follow —

Cawnpore	2
Lucknow	1
Agra	1
Allahabad	1
Benares	1
Chunar	1
Sitapore	1
Shajahanpore	1

There was but one school represented at Lahore, Bishop Cotton's, and one at Sanawar, the Lawrence Asylum

In only one school out of the whole 33 * was the result of the dictation "very good" In six schools it was "good" In three "very fair," the rest shaded off from "pretty fair" to "bad."

* Lawrence Asylum

Only two out of the 14 Calcutta schools obtained "good," a distinction which was awarded to five boys† out of the whole number, 41.

† 4, St Joseph's School 1, Old Church Day school.

As regards handwriting, not a single school obtained "very good."

To four schools only was "good" awarded, and then to 13 boys out of a total of 87. One of these is a Calcutta school, and the number of boys four

Three schools out of the whole number are adjudged "very fair," five are "fair," seven are "rather bad," and three "bad."

I do not think these results can be considered satisfactory, or altogether creditable to the educational institutions of the country, for it must be remembered that the above descriptions—"good," "fair," "bad," &c, apply only to the boys who *passed* in dictation, and not to those also who were rejected

Secondly—Of the 61 boys who passed in dictation and went on to the examination in the remaining subjects, 29 obtained more than 300 marks out of a total of 550 Out of these 29, the first 13 were selected to fill the vacancies in the school. The first two of these obtained 455 marks each, and the last two 385 each, out of the total number. The average percentage of marks gained by the whole 13 in each subject was—

	Per cent
Dictation	89
Arithmetic	79
Euclid	74
Algebra	60

I think these results must be considered very fair

Out of the 13 boys selected—

		Out of a total number of candidates of
3	were from Calcutta schools	34
2	ditto Bengal district schools	5
1	ditto a Madras school	1
7	ditto North-Western Provinces, Punjab and Hill schools	20

The first three and sixth boys in the order of merit were from Upper India schools, the 5th from Madras

The first, third and sixth boys were from the Cawnpore Memorial School

Both the candidates from the Lawrence Asylum are among the number selected, The three Calcutta boys were in the 4th, 7th and 11th places On the whole, it would seem that, as far as these examinations may be held to afford a fair test of the comparative efficiency of the Bengal and Upper India schools, in educating up to the standard required for entrance to the Dehree School, the North-Western Provinces and Punjab schools take the first place, and the Calcutta schools, by a long way, the last

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h, 16h, and 22h., the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

METEOROLOGICAL OFFICE, INDIA,
The 3rd March 1879

HENRY F BLANFORD,
Meteorological Reporter to the Government of India.

Reports of Fluctuation of Traffic on the East Indian Railway from 1st to 25th January 1879

EAST INDIAN RAILWAY, TRAFFIC MANAGER'S OFFICE, JAMALPORE, THE 21ST FEBRUARY 1879

Remarks on Traffic of East Indian Railway from 1st to 25th January 1879

THE approximate figures for the period are as follow:—

	Coaching		Goods		Total
	No	Rs	Mds	Rs	Rs
1879	826 470	7 93 699	55 22,981	20 20 699	28 05 661
1878	454,058	6,51 486	54,48,574	20 87 735	27 39,191
Increase	72,412	1 31 573	74,317		64 470
Decrease				67 102	

The comparison is for 26 days of 1878 against 25 days of 1879, so that, if the *daily* average earnings is taken an increase is apparent in 1879 of about Rs 1,76 000, and this may be taken as very satisfactory, looking at the fact that in 1878 we were earning more than in 1877

The increases and decreases in staples are—

Increases

Coal, up	Government stores	Piece goods
Cotton	Jaggree	Salt

Decreases

Edible grains and pulses.	Iron	Saltpetre	Sugar
Indigo	Opium	Seeds	

Increases

	Mds	Rs
Coal, up	+41 074	—15 179
Down	—25 536	— 3 013
Increase	15 538	12,1 67

The increase in upwards coal is in despatches from the Kurhurballee fields to Ghazeeabad, Agra, and Benares, principally for foreign lines

The decrease in downwards coal is due to the difference of a day in the periods under review—

1879	1878
10,90 044 mds	11 15,580 mds
25 days,	26 days,

or an increase of 695 maunds per day

Cotton Mds 83,868 Rs 1,53,327

This staple has been in more active demand than usual during the period in Calcutta for the London market, and it is satisfactory to note that business has again been done in Indian cotton for the home markets

Government stores Mds 5 880 Rs 21 369

Continued despatches made from Howrah for the frontier requirements

Jaggree Mds 1 20 966 Rs 26 578

The demand in Bombay probably for Guzerat has been good during the period and supplies have been sent from the North West and Oudh

Piece goods	Mds	18 901	Rs 17 813
Salt	,,	56 694	,, 12 4 3

The principal traffic is from the Salt Lakes in Rajpootna *viâ* Agra and *viâ* Delhi, and a good deal of the Indus its way into Oudh and Rohilkund

Decreases

FOOD GRAINS

The following table shews the increases and decreases in each item coming under this head —

	Increases		*Decreases*	
	Tons	Rs	Tons	Rs
Barley			3,149	10 987
Rice			1,061	82 053
Wheat		4 537	9,660	
Other grains	15 994			3 135
Pulses			12 775	31 707
Total	15,994	4,537	20 645	1 30 701
Net decrease in weight	Tons 4,651	Net decrease in earnings		Rs 1,26,164

The decrease in barley is entirely from the Punjab *viâ* Gazeeabad Last year there was great scarcity of food grains in Rohilkund and Oudh and all descriptions were poured into those districts This year there was no demand, as the bumper *kharif* crops amply provided for local consumption and allowed of large exports as well

The decrease in rice also may partly be set down to above causes, as a good deal of rice was despatched from Bengal to the North-West last year, but the principal cause of the falling off appears to be the high prices ruling in Calcutta during January An improvement is now apparent

In wheat the exports to Europe are worse than last year, which was exceptionally a bad one. Up to the 5th February the exports to United Kingdom were—

1878 Tons 6 861 | 1879 Tons 1,137

Cawnpore shews an increase of about 1 000 tons over last year for Howrah, probably for local consumption, and this will account for the earnings being in excess At nearly all other stations there has been a falling off, and the traffic in this staple is practically at a standstill

In other grains there is a large increase in the weight carried, but a decrease in earnings This is caused by the lead over the main line being so short, but, if taken in connection with the Jubbulpore line, a large increase in receipts is apparent

In pulses nothing is doing at present In fact the remarks under the head of barley apply equally to this item; the traffic last year being principally from the S P and D to O and R. Railway, which does not require any help this year

Indigo	Mds 26,542	Rs 30,433

The falling off is in Tirhoot indigo the outturn not having been so large this year as last The figures for 1879, however, compare favourably with 1877, thus—

1879	Mds 16 178	Rs 23 071
1877	„ 14 481	„ 19,617
Increase, 1879	„ 1 697	„ 3 454
Iron	„ 6,505	„ 22,715

This is an ordinary fluctuation

Opium	„ 22,117	„ 25,664

This is a matter beyond our control

Saltpetre	„ 44,852	„ 12,367

Last year during this period there was a sudden demand for export; this year the exports are next to nothing, while the stocks in Calcutta are reported as being very large, consequently no supplies have been forwarded

Seeds	Mds. 42 358	Rs. 31,690

The difference of a day will diminish this decrease by one-half

Sugar	„ 30,339	„ 8,838

The falling off is principally from the Ghazepore district, where the crops failed to some extent last year, and the new season's crop is not yet in

Train mileage for the period has been—

	Coaching	Goods.	Total
1879	168,284	858,340	526 624
1878	174,290	894,319	568,609
Increase			
Decrease	6,006	35,979	41,985

Earnings per train mile—

	Coaching	Goods	Total
	Rs A P	Rs A P	Rs A P
1879	4 10 6	5 10 3	5 5 2
1878	3 11 10	5 4 8	4 13 1
Increase	0 14 8	0 5 7	0 8 1
Decrease			

It is satisfactory to note that, while the increase in receipts, taking the figures as they stand is nearly 2½ per cent and the numbers of passengers and weight carried is largely increased, the train mileage is *down* 7½ per cent.

Shunting mileage, decrease—742 hours

This is attributable to less work on the Howrah and Toondla districts

Jubbulpore line traffic—

	Coaching		Goods		Total.
	No	Rs	Mds.	Rs	Rs.
1879	32,980	1 13,773	11 28 792	2 07 215	4,10 988

Increase	4,279	38 571	5 13,913	1,36 283	1 64,854
Decrease					

The coaching increase is in extra troop trains and mêla passengers.

In goods the principal item is food grains for Bombay and Guzerat, but this traffic is now rapidly falling.

Train mileage for the period has been—

	Coaching	Goods	Total

Report of Fluctuation of Traffic on the Eastern Bengal Railway for the four weeks ending 25th January 1879

Eastern Bengal Railway Company, Traffic Superintendent's Office, Sealdah Terminus

Report on Goods Traffic for the four weeks ending 25th January 1879

Dated Calcutta, the 17th February 1879

From—W Innes Esq., Acting Traffic Superintendent,
To—The Agent, Eastern Bengal Railway, Sealdah

The total weight of goods carried over this railway during the above period was 4 72 065 maunds, which, as compared with the corresponding period last year shows a decrease of 2 77 547 maunds in grain including rice, jute turmeric, piece goods, foreign railway material, and sugar, over balancing increase in gunny of 17 [illegible] maunds seeds 14,074, miscellaneous 10 127 maunds, salt 7,173 maunds, hides 5,012, tea 4,791 maunds, tobacco 1 080, cotton 854 maunds, ale, wine, &c, 630 maunds

This serious decrease in traffic cannot be otherwise than expected owing to the present serious depression of trade.

Decreases

Grain, including rice Mds 1 78,006

This traffic necessarily will not bear comparison with the abnormal traffic of last year owing to the demand for famine afflicted districts, but as compared with the previous month, shows an increase of 28 194, and with the corresponding period of 1876, an increase of 22,592.

Jute Mds 1,17,150

Although, in spite of the small stocks held, the market prices are and have been very low for this fibre, there is little or no demand

Turmeric Mds 10,737

This decrease is owing to the lateness of the season this year as compared with last, and the traffic may therefore be expected to improve

Piece goods Mds 5,404

This decrease is owing to the general depression of trade and poverty of the people

Foreign Railway material Mds. 5,563

The construction of the Northern Bengal State Railway drawing near completion accounts for this decrease, which would have been larger only we have commenced to despatch material for the Darjeeling Tramway Company

Sugar Mds 1,636

This is mainly owing to the lateness of the crop this season

Increases

Gunny Mds 17 351

This is owing to British demand, preference apparently being given to this country article over the local manufactures

Seeds Mds 14,074

The season is just commencing and demand is good so that this traffic may be expected to improve

Miscellaneous Mds 10 127

This is satisfactory, although owing to its nature, the traffic may be held as capricious

Salt Mds 7,473

This is owing to the rise in prices caused by the increased demand from both Europe and the United States

Hides Mds 5,012

Last year Bengal hides were in small demand owing to the abnormal supply of a cheaper article from Madras, the mortality amongst cattle in the famine districts having created an extraordinary stock

Tea Mds 4,791

This increase is brought down by the Northern Bengal State Railway

Tobacco Mds 1,080

This small increase is satisfactory, but the traffic may now be expected to decrease, large quantities being in stock

I append the statement of increases and decreases

Proviso added to section 2

1 To section 2 of the said Act the following proviso shall be added —

Provided always that notwithstanding anything to the contrary in this or any other Act, any rent which may have been recorded as demandable from an under-tenant or ryot in accordance with rates confirmed under the provisions of section 8 of this Act, and in respect of which notice shall have been served or published as provided in section 4 of Bengal Act III of 1878, shall by every court having cognizance of rent suits be deemed to be fair and equitable, and, if such rent be higher than the rent previously paid by such under-tenant or ryot, to have been correctly enhanced, unless it be proved that such recorded rent is higher than the rent which would be demandable from such under-tenant or ryot according to the calculations mentioned in section 5 as substituted by this Act

New proviso in section 8

2 The following proviso shall be substituted for the first proviso in section 8 of the said Act —

"Provided that where in the course of any settlement proceedings conducted under Regulation VII of 1822, the general rates of rent to be adopted in such settlement shall have been confirmed by the revenue authorities from time to time empowered in this behalf by the local Government, and, in accordance with such rates, a higher rent shall have been recorded as demandable from any under-tenant or ryot than was previously paid by him, such rent shall be deemed to have been correctly enhanced until the contrary be proved"

New section substituted for section 5

3 The following section shall be substituted for section 5 of the said Act —

"In any notice served, or in any general notice published as provided in the last preceding section, it shall not be necessary to specify the area which was held, or the amount of rent which was paid by any under-tenant or ryot at any previous time, but it shall be sufficient to state that the rents recorded in the proceedings as demandable from the under-tenants or ryots named in such notice, or in the jummabundi appended thereto, on account of the land now held by them respectively, are calculated on rates which do not bear a higher proportion to the general rates which were taken as the basis of the last previous settlement of the estate than the average value of produce, prevailing at the time of the present settlement, bears to the value of similar produce which prevailed at such last settlement as recorded in the papers of such settlement, or otherwise ascertained, or (if the value of produce at the time of such previous settlement has not been recorded in the papers of such settlement or cannot be otherwise ascertained) than the average value of produce prevailing at the time of the present settlement bears to the average value of similar produce calculated on any period of three consecutive years since the date of the last previous settlement."

STATEMENT OF OBJECTS AND REASONS

BENGAL Act III of 1878 provides that enhanced rents recorded as demandable by a settlement officer in the course of proceedings under Regulation VII of 1822 shall be deemed to have been correctly enhanced until the contrary be proved But in order that this validity may attach to rents so recorded, it is necessary that a notice of enhancement be served on each ryot, or a jummabundi published under section 4, and section 5 requires that the grounds of the enhancement shall be specified in any such notice or jummabundi

Section 2 further requires that the grounds of enhancement must be one or more of those specified in Section 18, Bengal Act VIII of 1868 Where the ground of enhancement under that section is a rise in the value of produce, the decisions of the Civil Courts indicate that they will require a specific comparison to be made, on the one hand, between the rates on which the proposed enhanced rent is calculated, and the value of the produce at the time being, and, on the other, between the rates on which the rent previously paid was calculated, and the value of the produce at the time when the rent of the holding was last adjusted, or at some other period during the tenancy of the ryot *

* In the celebrated case of Thakooranee Dassee (III W R 29), decided on the 19th June 1865, Mr Justice Macpherson, while concurring with Mr Justice Trevor on the principle that the enhanced rent should bear to the present value of the produce the same proportion as the old rent bore to the value of produce at the time taken for comparison, wrote in his judgment—

'Let the zemindar go back to any year he chooses; let him go back to the last adjustment if he can, if not to any year which he thinks will suit his purpose'

Experience has shown that these conditions practically frustrate the object of the Act In most cases of resettlement of large estates the Collector is unable to obtain from the zemindars anything like complete papers, from which it can be shown in what year, or on what area (and therefore on what rates), the existing arrangement as to rent was made with each separate ryot, such arrangement having in most cases been made, and the holding itself created, at some time after the last general settlement of the estate, the records of which therefore contain no mention of it

It is against the interest both of the zemindar and of the ryot to furnish the information, and not only so, but in many cases, even in estates the property of Government, the information does not exist in such a systematic shape as to make it available In the absence of it, it is impossible for the settlement officer to set out the grounds of enhancement in the notices, or eventually to establish them in Court, if called on to do so, in the specific manner required

As the assessment of the land revenue demand on the zemindars must depend in great measure on the aggregate of the rents which are paid by the under-tenants and ryots, the effect of the difficulty above explained is to debar the settlement officer, on the expiration of the term for which an estate has been temporarily settled, from assessing on it such a demand of land revenue as fairly represents the share of the unearned increased value of the produce of the soil to which the State is fairly entitled as public revenue

The object of the Bill is to remove this difficulty, while securing the ryot against arbitrary and excessive enhancement

PART VI

Bill of the India Council.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 5th March, 1879, and was referred to a Select Committee —

No 1 of 1879

A Bill to amend the Presidency Banks Act, 1876

Preamble

WHEREAS it is expedient to amend the Presidency Banks Act, 1876, in manner hereinafter appearing, It is hereby enacted as follows —

Short title
Commencement

1 This Act may be called "The Presidency Banks Act, 1879," and it shall come into force on the first day of May, 1879

Amendment of Act XI of 1876, section 28

2 To the first clause of section 28 of the Presidency Banks Act, 1876, the following proviso shall be added, that is to say

"Provided that no person shall be chosen to be President or Vice-President twice in succession"

Amendment of section 34 of same Act

3 In the same Act, section 34, before the words "no Khazánchi," the words "without the previous sanction of the Board" shall be inserted.

Amendments of section 36

4 In the same Act, section 36, clause (*a*), sub-clause (1), after the words "municipal body," the words "or any body of Commissioners for making improvements in any port or of trustees of any port" shall be inserted

In the same section, the words "in the case of the Bank of Madras" shall be omitted in both the places in which they occur

In the same section, after clause (*m*), the following clause shall be inserted, that is to say, "(*m m*) the borrowing of money in India for the purposes of the Bank's business and the giving of security for money so borrowed by pledging assets or otherwise"

Amendment of section 37

5 In section 37 of the same Act, for clause (*d*), the following shall be substituted, that is to say,

"(*d*) Nor shall they (except upon the security mentioned in section 36, paragraph *a*, Nos 1 to 5 inclusive)

discount bills for any individual or partnership-firm for an amount exceeding in the whole at any one time such sum as may be prescribed by the bye-laws for the time being in force, or

lend or advance in any way to any individual or partnership firm an amount exceeding in the whole at any one time such sum as may be so prescribed"

Amendment of section 63

6 In section 63 of the same Act, clause (*a*), for the words "lent by discount of bills or otherwise to," the words "lent to or for which bills may be discounted for" shall be substituted.

STATEMENT OF OBJECTS AND REASONS

1 THE necessity for this Bill has arisen chiefly from a doubt which has been expressed as to whether the Presidency-banks have power under the Presidency Banks Act, 1876, to borrow money for the purposes of their business by pledging assets or otherwise The need of such a power is obvious

As observed in a memorial recently submitted to the Governor General in Council by the banks, "it is an ordinary incident of banking-business to obtain funds for temporary purposes by pledging assets If banks are prohibited from raising money by pledge of assets when occasion arises, they may, on a sudden requisition for cash, be obliged to make forced sales of property at a disadvantage, and this applies with great force to the Presidency-banks of India whose action in forcing Government or other securities on the market might cause a public panic"

The power required will be conferred by a new clause which the Bill (in the last clause of section 4) proposes to add to section 36 of the Act, but it is limited to borrowing in India, because so long as the Government balances are in the custody of the Presidency-banks, it is not considered expedient that the banks should engage in foreign exchanges or have the power of creating a foreign agency in England, which would be the necessary results of conceding a power to borrow out of India

2 The other sections of the Bill provide for certain minor amendments of the Act which it has been thought desirable to take this opportunity of making

Section 2 provides that no person shall be, in two successive years, chosen as President or Vice-President of a Presidency-bank

3 Section 3, which admits of a khazánchi, cashier or shroff at the principal office of a bank engaging in business with the previous sanction of the Board, has been introduced at the instance of the Bank of Bengal, who represent that the absolute prohibition contained in the present law makes it difficult to secure the services of a suitable person, and that the necessity for any such absolute prohibition has ceased to exist, now that the khazánchi has no longer any concern with the discount business in Native Bills, and is, in fact, a mere cashier

4 Lastly, clauses have been added to clear up an ambiguity which, in the opinion of Counsel, attaches to section 37, clause (*d*), and section 63, clause (*a*), of the Act to include in the securities on which loans may be made, and in which the banks may invest, debentures and other securities issued by the Port Trusts under Acts of the Indian legislatures, and to concede to the Banks of Bengal and Bombay the power already possessed by the Bank of Madras of drawing and dealing in negotiable instruments, and issuing bank-post-bills and letters of credit payable in Ceylon

The mean pressure, temperature, &c, are deduced from observations made at 6h, 10h, 16h, and 22h, the maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory) The barometer is about 3 feet higher at Alipore, and other things being equal, reads therefore .003 lower The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1° or 1½° lower, and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0.6° higher than the Kew standard thermometer, which is the standard of reference at the present Observatory

STEAM BOILERS AND PRIME-MOVERS

THE HON'BLE MR O'KINEALY moved that the report of the Select Committee on the Bill to provide for the periodical inspection of steam boilers and prime movers attached thereto in the Town and Suburbs of Calcutta and in Howrah be taken into consideration in order to the settlement of the clauses of the Bill, and

that the clauses of the Bill be considered for settlement in the form recommended by the Select Committee. His Honor the President would remember that the Bill, as it originally stood, was in charge of their colleague Mr Cockerell, who, on his departure to Europe, placed the Bill in MR O'KINEALY's hands The principle which he understood guided Mr Cockerell in dealing with the Bill was to limit Government interference to an extent that would be necessary to the proper inspection of boilers and prime-movers attached thereto He trusted the Council would see that the Select Committee had dealt with the matter in the same spirit Under Section 4 the Lieutenant-Governor had power to make rules and to change them from time to time to suit circumstances. Under Section 9 any person dissatisfied with the orders passed in connection with any boiler or prime mover might appeal from such order The appeal might either be on matters of detail or of considerable importance The Committee had therefore provided that the appellant be authorized to elect the tribunal that should hear his appeal. In small matters the appeal might be laid before an expert appointed by the Government, in matters of importance, the question would be tried by a trained Judge assisted by two experts So that in every way facility was given for the fair determination of the matters to be decided One provision in the amended Bill seemed somewhat novel If the Inspector made an unjust order, and the order was set aside on appeal, the Government must pay the cost of the appeal On the other hand, if a person preferred an appeal from an order without just cause, and the appeal was dismissed, the appellant must bear the cost The members of the Committee considered it fair and just that such a clause should be framed to prevent the passing of ill considered and hasty orders on the one part and needless appeals on the other

The motion was agreed to, and on the motion of MR O'KINEALY the Bill was passed

ENHANCEMENT OF RENT BY SETTLEMENT OFFICERS

THE HON'BLE MR DAMPIER said Act III of 1878 was so lately passed by this Council that its legal history would probably be fresh in the minds of hon'ble members They would remember that up to twenty years ago the determination of the share of the public in the produce of the land, that is, the State's demand of land revenue, and the determination of the share of the produce which should be paid by the cultivator, that is, rent, went hand in hand The settlement officer, before assessing the amount of revenue to be demanded, ascertained and recorded what would be the fair rental of the estate, and what might fairly be demanded from the ryot, and the Settlement Regulation of 1822 recognised these rents as determined by the settlement and required the civil courts to respect them Under this arrangement the practice went on smoothly enough, and some persons would say that all parties were contented and happy Twenty years ago Act X of 1859 was passed. Nothing was further, he believed, from the intention of the framers of that Act than to interfere in any way with the right of the executive Government to determine the share of the produce or land revenue demand which it should take But while passing clauses for the protection of the ryot, the Legislature had down that the ryot's rent should not be enhanced except by a certain procedure and upon certain specific grounds Hon'ble members were aware that Act X of 1859 was answerable for a good many things which were never contemplated An officer the other day, while conducting a survey in Durbhunga, was having a conversation with the ryots, who were giving him the history of what had passed of late years They said that everything was going on quietly But about ten years ago disturbances took place in which a manager's bungalow was burnt down, and so on, and this they described as "Act das uthá" Now the officer to whom they were speaking knew that Act X had been in force many years before the occurrences to which they referred, so he asked them what they meant by 'Act das utha' His interlocutor explained that "Act das bulwa hai'—"Act X means a general row." Another bystander, however, condescendingly corrected the first speaker by explaining "Act das yih hai kih hum malguzári nahin denge!" Act X is this, that "I won't pay my rent!"

The ryots generally had now discovered that this phase of Act X applied to settlements of land revenue. They had gradually found out, or it had been found out for them, that the effect of these protective clauses of Act X of 1859 was to deprive of all validity the rents which had been recorded as demandable by settlement officers Having found out that, they proceeded to act on the principle, and refused to pay where a higher rent than they had previously paid was recorded by the settlement officer as being fairly demandable from them Then this followed, the zemindars whose estates were under re-settlement said—"You ask us to pay a higher amount of revenue because the value of the land and the produce has increased But how are we to pay increased revenue unless we can get the ryots to pay us in proportion, and they won't do that unless we go through the dilatory process of the courts We get no help from the settlement officer's finding, and without it it takes us two or three years to establish enhanced rents, if we succeed even then you cannot expect us, under these circumstances, to enter into engagements to pay higher revenue for our estates" Then they threw the management of their estates on the hands of the revenue officers, standing aloof themselves, and receiving only a stipulated cash payment as proprietary allowance Here was a deadlock approaching Recognizing that, this Council last year passed Act III of 1878, the object of which was to throw, as it were, the dead weight on the side of the settlement officer's finding as to the proper rents to be paid. No finality was given to their finding, but it was to be presumed that the rent fixed by a settlement officer was fair and equitable, the onus being thrown on the ryot, who was bound to institute a suit to contest the finding within two months if at all Mr Dampier was now speaking entirely in the public interests, and not in those of any one class of the public This Act III of 1878 was passed entirely in the interests of the public revenues, which were being endangered Since the Act was passed some very large settlements had been brought to a conclusion, the rates had been confirmed, and it only remained to get the ryots to agree to the enhanced rents The general ground for enhancement was the very great general rise in the value of produce When the settlement officer began to take advantage of the provisions of Act III of 1878, and to write out notices of enhancement, he found that according to the conditions imposed upon him by the Act, he was pulled up short He found that in order to draw up such notices of enhancement as would be admitted as valid by the civil courts, he must do what was practically impossible, namely, analyse the holding and rent of each individual ryot and its origin, and in his enhancement notice say—"The rent you are now paying was fixed in such a year, at that time it represented such a proportion of the value of the produce of the land (say one fourth), now the value of the produce has since then doubled, and I call upon you to pay double your present rent, which will bear the same proportion to the present value of produce as your rent when last fixed bore to the then prevailing value of produce" Well, where was the settlement officer to find these facts? The zemindar, at that particular moment, was against him Until the ryot's rents were established, the demand of Government revenue could not fairly be raised upon him And it was obviously the ryot's interest not to give any information at all And even if the zemindar were inclined to act on the best faith, he was not in a position to furnish the required information The zemindars generally did not keep their papers so systematically as to enable the Collector to pick out from them the required specific information regarding each ryot's holding Here was another deadlock Every expedient had been tried to get over it without legislation, but they had failed, and nothing remained but for Mr. Dampier, as representing the Revenue Department, to ask the permission of the Council to introduce this measure

Amongst other things, Act III of 1878 limited the grounds upon which settlement officers may record enhanced rents, to those specified in Act X of 1859 The provisions of Act III of 1878 having thus been found absolutely unworkable, and the public revenues seriously endangered thereby, a remedy had been devised in the present proposal The settlement officer had in his hands in most cases the record of the last settlement, and found recorded in them what proportion of the value of produce then prevailing was taken

as the basis of the rates on which the rents were calculated It was therefore proposed, while adhering to the general idea of a rise in rents proportionate to the rise in value of produce (which had sprung out of the Rent Law of 1859), that the proportion which would be taken as the basis of comparison should be the general proportion between the rates of rent as fixed at the preceding settlement, and the value of produce then prevailing, instead of applying the comparison separately to the rent of each individual ryot Under the proposed Bill it would not be necessary to specify that each individual ryot's rent was fixed in such a year, at such an amount, which then bore such a proportion to the value of the produce

The Bill also provided that it should not be necessary to specify the previous area of the holding in an enhancement notice It might be said, if you have the settlement papers, why not specify the area as it was at the last settlement and compare it with that now held? In fact holdings as they were now, were in 9 out of 10 cases actually unidentifiable with those which existed about 30 or 40 years ago at the time of the last settlement The holdings of the last settlement had been divided by inheritance, added to by purchase, diminished by sale, and changed in every possible way, so that a holding as it was now held by one individual man, although he might be the son of a father who was recorded as the ryot at the last settlement, was not the same as the holding at that time Nevertheless the last changes might have taken place more than 12 years ago, and so the ryot might have acquired an occupancy right in what he now actually held These were the reasons on which the Government was obliged to ask the Council to pass a measure which would allow a settlement officer to enhance rents on calculations founded on the general rates adopted at the previous settlement, and not in proportion to the particular rent which was fixed for any particular holding at the last settlement

With these remarks he begged to move for leave to bring in a Bill to amend Bengal Act III of 1878 (an Act to define and limit the powers of settlement officers with respect to enhancement of rent)

The Hon'ble Kristodas Pal said he generally concurred with the remarks of the hon'ble mover of the Bill He fully recognised the difficulty which under the existing law existed in the way of the settlement of rents, whether as regards Government estates or private estates But there were one or two points in connection with the Bill which he wished to bring to the notice of the Council He observed that under section 1 of the Bill the rules of enhancement, as laid down in Act X of 1859, would be practically abrogated He fully admitted that those rules as interpreted by the High Court had now become to all intents and purposes unworkable, and that consequently the enhancement of rent under the guidance of those rules had come to a deadlock But if the Council thought it necessary to abrogate those rules, he was of opinion that it ought to be done openly and not in a covert way for while this Bill retained section 2 of Act III of 1878, it introduced a proviso which practically superseded that section He for one would fully and absolutely recognise the principle laid down in the Bill without reference to the specific ground contained in section 17 of Act X of 1859 Then, with regard to the principle on which rent was to be enhanced or settled under the Bill, he observed that the mover had adopted the principle of proportion of the gross value of produce He for one considered that a fair and equitable principle He thought it was a step in advance towards the solution of the great Rent problem, but he would take the liberty to suggest that in no case should the increase of rent be more than double the existing rent Proceeding upon the principle laid down in the section, the rent might in any case be trebled or quadrupled But he did not think it would be fair to enhance rent to more than double the current rent It might be said, as indeed it was pointed out by the hon'ble mover in his opening remarks, that a settlement having been made 30 or 40 years ago, the ryots had been gradually encroaching on other lands not belonging to them, and thus possessed more lands than they were lawfully entitled to, and consequently the old rent bore no fair relation to their liability In that case Baboo Kristodas Pal would suggest, for the consideration of the hon'ble mover, the propriety of defining a share of the produce as the measure of the rent payable by the ryot, whether it be one-third or one-fourth, just as the hon'ble council might consider fair and equitable.

Once this share was declared, the gross value of the produce might be calculated and made the basis for the settlement of rent But whatever course might be followed, Baboo Kristodas Pal thought that in no case should the enhanced rent be more than double the existing rent, or more than one third or one-fourth of the gross value of produce And, lastly, once the rent was settled, the ryot should be allowed rest or immunity from the pains and troubles of an enhancement suit for a reasonable period The settlement, in his opinion, should be allowed currency for ten years, and the ryot protected from molestation or interference for enhancement of his rent during that period

The motion was put and agreed to

The Hon'ble Mr Dampier applied to the President to suspend the rules for the conduct of business to enable him to move that the Bill be read in Council

His Honor the President observed that generally he objected to suspend the rules of the Council, but he thought that in this case it was desirable that they should try and get the Bill forward one stage There appeared to be no objection to the principle of the Bill, and objections to the detail he thought would better be considered in Committee He therefore suspended the rules

The Hon'ble Mr Dampier then moved that the Bill be read in Council, and in doing so he would proceed to remark on the form of the Bill It had been suggested that the Act which this Bill proposed to amend was such a short one, and the amendments in proportion were so long, that it would be better to repeal the Act at once and re-enact it in an amended form He quite agreed to that himself, but he deliberately did not frame the Bill in that shape because, in the form in which he had drawn it, the points of change were more prominently brought to notice But he did think, if the Select Committee agreed, that it would be better to pass this measure as an entirely new Act

With reference to the remarks of the hon'ble member opposite (Baboo Kristodas Pal), who said that the Bill abrogated section 2 of Act III of 1878, Mr Dampier would not say "abrogated," because it left those grounds of enhancement in full force which were contained in Act X of 1859 But the Bill undisguisedly laid down a new ground of enhancement which would be held to be sufficient for the purposes of settlement officers It made a fourth ground as it were of enhancement, and in doing so the Government had tried to follow the spirit of the Rent Law and of the decisions passed on it The idea of the proportion between the rent and the produce of the land to be retained in enhancing rents was altogether the child of Act X of 1859 It was not proposed to let the settlement officer do as he liked Then the hon'ble gentleman said that under the Bill a ryot might be called upon to pay four times the rent he was previously paying As a matter of principle, Mr Dampier thought that this objection could not be supported If the ryot now had the use of land of which the value was fourfold the value of the land which he held at the last settlement, why should he not pay four times the former amount for the use of it? But in reducing principles to action allowance must be made for friction Say the rents of ryots on an estate were fixed 30 or 40 years ago Perhaps they pressed a little hardly when they were fixed, but gradually, as the value of produce rose, the pressure had been getting lighter and lighter With that the ryot's habits of life, his wants, and his social status had been gradually rising, and it would be a hardship suddenly to reduce him to his old status Any ordinary settlement officer would give full weight to that and many similar considerations before raising the ryots' rents to the full extent of the rise in the value of produce whether a Civil Court Judge might properly exercise any such mitigating discretion when called on to apply the legal rule of proportion against the ryot was more doubtful

Then as to paying one-fourth or one-third of the value of the produce, and enacting that the amount of rent should in no case exceed that proportion Speaking for himself individually, as he had no opportunity of learning what His Honor's views on this point might be, he should have no objection to some such specified limit being introduced in the Bill

As to the next suggestion, that the ryot's rent once fixed should not be liable to enhancement until after the expiration of ten years, or some other fixed period, every one to whom he had ever spoken on the subject agreed to the expediency of adopting such a rule

The Hon'ble Syed Ameer Ali said that it seemed to him that this Bill changed the entire spirit of Act III of 1878, which was passed only a year ago. He was therefore inclined to agree with the hon'ble member on his left (Baboo Kristodas Pal) in thinking that it would be better to rescind the Act altogether, and pass the Bill as a substantive measure With reference to the Bill itself, he was not prepared to offer any objection to its principles, but he was of opinion that section 3 would certainly press heavily upon the ryots The ryots, as a general rule, were poor and ignorant, and not always in a position to express their views and feelings respecting any legislation affecting them as a body, and therefore it was especially necessary that any objection from their point of view should be submitted to the Council Now, section 3 of this Bill declared that the enhancement of the rent should be in proportion to the increase in the value of produce, as it seemed to him, not with reference to any particular holding, but generally in and about the adjacent lands If he remembered rightly the provisions of section 17 of Act X of 1859, and section 18 of the Bengal Act VIII of 1869, the enhancement could be claimed if the value of the produce, or the productive powers of the land held by the ryots, had increased It might so happen that in a particular case the land with reference to which enhancement was attempted to be made might have deteriorated since the time of the last settlement, whilst the productive capacity of the adjacent lands might have increased In that case the settlement officer, proceeding on the basis of a general increase in the value of produce, would enhance the rates of the particular holding in question, and the unfortunate ryot would be thereby materially prejudiced He thought, therefore, that some restrictions ought to be imposed on the discretion of the settlement officers regarding the standard which should be taken for the enhancement of rent with reference to the value of produce The increase in the value of produce should be with reference to the particular holding in respect of which enhancement was claimed He hoped this principle might be borne in mind in Select Committee

The Hon'ble Mohini Mohun Roy said it appeared to him that under the existing law, as contained in Bengal Act VIII of 1869, it was not necessary, in cases of enhancement on the ground that the value of the produce had increased, to show that the value of the produce of a particular holding had increased It was quite sufficient to prove that the value of a particular article of produce had increased in the locality. So far as the principle was concerned, he did not think the provisions introduced in this Bill in amendment of section 5 of Act III of 1878 did in effect alter the law of enhancement as contained in Act X of 1859 or Act VIII (B C) of 1869 There was another reason for which he thought he ought to lend his support to the Bill Before the passing of Act X of 1859 there was a provision in the Regulation VII of 1822 that the proceedings of the settlement officer should be final and binding on all parties, and some time after Act X of 1859 was passed that was considered to be the law It was not till 1869 or 1870 that the question was first raised that Act X of 1859 having introduced a provision that in all cases of enhancement of rent it was necessary to serve notice of enhancement before enhancement could be demanded, the rates fixed by settlement officers in the settlement of Government estates could not be final And he thought that in this matter the question of the enhancement of rents of ryots in Government estates should be placed on a more practical basis than what had been laid down in Act X of 1859 and Act VIII (B C) of 1869

The Hon'ble Mr Dampier said in reply that the hon'ble member opposite (Syed Ameer Ali) considered that the value of produce should be compared with the value of the produce of the actual holding That was really objecting to the whole principle of the Bill The principal reason for the introduction of this Bill was that it could not be found what the holding was at the time of the last settlement, that there was no means of tracing the land of each ryot, but if it were possible to compare holding with holding, that comparison would of course be taken into consideration

The motion was then agreed to, and the Bill referred to a Select Committee consisting of the Hon'ble Mr Mackenzie, the Hon'ble Mr O'Kinealy, the Hon'ble Mr Syed Ameer Ali, the Hon'ble Kristodas Pal, the Hon'ble Mohini Mohan Roy, and the Mover, with instructions to report in three weeks.

DRAINAGE IN BENGAL

THE HON'BLE MR DAMPIER moved for leave to bring in a Bill to facilitate drainage in Bengal on the model of Bengal Act V of 1871, "the Hooghly and Burdwan Drainage Act" That Act was well known to officials and landholders in this neighbourhood, and the object of the Bill was to take advantage of the experience which they had had in the working of the Act in Hooghly and Burdwan, and to have a measure applicable to any part of Bengal for the carrying out of any drainage scheme which might be considered necessary by the Lieutenant Governor, to be worked out by the engineering officers of the Government, with the consent of not less than one-half of the proprietors whose lands would be reclaimed and improved, and who would eventually have to pay the cost of the work

The motion was put and agreed to

MANAGEMENT OF INLAND STEAM VESSELS

The HON'BLE MR INGLIS begged to move for leave to bring in a Bill to provide for the proper management of certain inland steam vessels Although the Bill stood in his name, he ought to explain that Government accepted the responsibility of introducing the measure, and that he took charge of it at the request of His Honor the President He understood that the need for such a Bill partly arose out of the intention to make pilotage on the Hooghly compulsory Until lately, the public were under the impression that all vessels navigating the Hooghly were bound to employ a pilot The High Court, however, in a recent case, decided that this view was incorrect It was the intention of Government to remove all doubt on the subject by extending the provisions of section 38 of the Indian Ports Act, 1875, making pilotage compulsory on the river Hooghly below Calcutta, and therefore a special enactment, such as he now moved for leave to bring in, was needed to meet the case of inland steamers It was proposed that commanders of such steamers, if duly certificated, should be held to be pilots for the purposes of section 38 of the Indian Ports Act, in respect of their own vessels The alternative to this would be for Government to provide for such vessels a special establishment of pilots at Channel Creek, where inland steamers enter and leave the Hooghly Apart, however, from the question of expense, which was a sufficient obstacle in itself to the adoption of such a plan, inland steamers being by law subject to the Carriers Act, their commanders and owners, with due regard to the interests of the public, should be relieved of responsibility in the same way that commanders of sea-going vessels were when a pilot was on board Fears had been expressed that the examination of commanders of inland steamers, with a view to the granting of certificates, might be so strict as to prevent some of them, who had much practical experience, from passing This fear he believed to be quite groundless, but in any case, he was assured that length of service and character would be taken into account in granting certificates, quite as much as a man's ability to answer any questions that might be put The Bill would provide for the trial and punishment of certificated commanders when guilty of incompetency or misconduct, and in view of the fact that no law short of the Penal Code could at present reach them, this seemed to be necessary It was proposed to put commanders of inland steamers on the same footing in this respect as commanders of sea-going steamers, so that both would be subject to the jurisdiction of the Marine Court empowered under the Indian Merchant Shipping Act, 1875, to enquire into charges of incompetency or misconduct This would not, he believed, be objected to by the parties affected

He should think, indeed, that owners of inland steamers, as well as commanders, would, in the end, derive benefit from the measure The Council would doubtless be glad to receive any suggestions regarding the Bill from those who had a special knowledge of the subject Government, he was sure, wished to frame a measure that would work satisfactorily, and he had little doubt that if leave were given to bring in this Bill, the Council would be able so to frame it

The motion was put and agreed to

COURT OF WARDS

The Hon'ble Mr Buckland said he had not had time to give notice of the motion he was about to make, the object of which was to move that the Bill to amend the law relating to the Court of Wards, as revised by the Select Committee, be referred back to the Committee for further consideration and report The fact was that the amended Bill was published in last week's Gazette with the view of giving information as quickly as possible to the officers in the mofussil of the proposed changes in the law At that time his hon'ble colleague Mr Dampier was on duty out of Calcutta, and since his return to Calcutta he had expressed a wish to give the Committee the benefit of his practical experience in the administration of the Wards' Department in the further consideration and amendment of the Bill, and the Select Committee were equally desirous of having his valuable experience Mr Buckland therefore moved that the Bill be referred back to the Select Committee, and that the Hon'ble Mr Dampier's name be added to the Committee

The motion was agreed to

The Council was adjourned to Saturday, the 15th instant

The mean pressure, temperature &c, are deduced from observations made at 6h, 10h, 16h, and 22h, the maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground

Reports of Fluctuation of Traffic on the East Indian Railway for four weeks ending 22nd February 1879

EAST INDIAN RAILWAY, TRAFFIC MANAGER'S OFFICE, JAMALPORE, THE 18TH MARCH 1879

Remarks on Traffic of East Indian Railway for four weeks ending 22nd February 1879

THE approximate figures for the period are as follow:—

	Coaching		Goods		Total
	No	Rs.	Mds	Rs	Rs
1879	631 567	8 07 189	67 91 958	32 77 826	31 44,815
1878	611 454	8,57 018	66,25 424	31 98 739	30 55,757
Increase	20 113	10 171	1 66,534	48 887	88 758
Decrease					

The coaching traffic has been improved by the movement of pilgrims throughout the month of February Very large numbers have travelled to and from Baidyanath—Bankipore for Gya and Benares

In merchandise there is a slight increase of 2 51 per cent in weight lifted and 2 per cent in earnings

With the exception of grain seeds and downwards coal, there has been an increase in the generality of staples carried

The principal items which call for remarks are—

Increases

Coal, up	Government stores	Piece goods,
Cotton	Jaggree	Foreign Railway materials.

Decreases

Coal, down	Hides	Seeds
Edible grains and pulses	Opium	

Increases

Coal, up — Mds 1 97 152 — Rs 68,791

Increased demand from foreign lines to replenish stocks has caused this improvement.

Large despatches have been made from the Kurhurballee collieries to Benares, Garceabad, and Jubbulpore

Cotton — Mds 1,25,431 — Rs 2,16,536

Enquiry for this staple continued during February, and it will be seen that the amount of freight earned is large

Government stores — Mds 10 746 — Rs 27 954

This includes both Ordnance and Commissariat stores, which continue to be despatched for the troops on the frontier

Jaggree — Mds 1 03,722 — Rs 1 843

The increase in weight as compared with the small increased earnings is accounted for by the short lead over the main line this year, the bulk of this traffic has gone in the direction of Bombay

Piece goods — Mds 86 304 — Rs 36,257

The up country markets have been more active during the month, and despatches have continued from Howrah principally to Patna, Cawnpore and Delhi

Foreign Railway materials — Mds 1 05,864 — Rs 46,057

This increase has arisen from the carriage of material from Howrah to the Nalhati and Gya State Railways

Decreases

Coal, down — Mds 69,295 — Rs 8,983

This represents 2,500 tons or about five train loads during the month, and is only a decrease of 4½ per cent. on the weight carried in some period of 1878

Edible grains and pulses—

In tons the increases and decreases are as follow —

	Increase		*Decrease*	
	Tons.	Rs	Tons	Rs
Barley			5,761	20,275
Oats			300	3 409
Rice			13,310	1 63,007
Wheat			2 800	10 285
Pulses			24,125	1,07,873
Other grains	40 000	1 29 366		
Increase	40,000	1,29 366		
Decrease			46 316	3 21 849

The net decrease being tons 6,316 (Rs. 1,95,483); but this is more than counterbalanced by the increase in cotton traffic, amounting to Rs 2,16,536

In "other grains" the improvement has arisen from the large quantity of edible grain carried this month towards Rajpootana and the Punjab, where scarcity was expected This would have been considerably increased but for the inability of the Rajpootana State Railway to cope with the traffic which we were offering for Rajpootana early in February The through booking of edible grain and all special class goods either *viâ* Delhi or *viâ* Agra is still prohibited, and this action on the part of the Rajpootana State Railway authorities has had a most depressing influence on the principal marts in the north west and as a natural consequence on our receipts

Hides	Mds.	26 245	Rs 23,539
Opium	,,	54,731	,, 63,927
Seeds	,,	1,29,884	,, 75,485

The seed traffic has fallen off considerably owing to the crops last year having partially failed and the new crop not having yet come in Cawnpore and Patna are the principal stations where this traffic has declined

The train mileage for the period has been—

	Coaching	Goods	Total
1879 ..	191,615	428,309	619,924
1878	186,630	447,795	634,415
Increase — .	4,985	..	..
Decrease		19,486	14,491

Increase			5 51 [illegible] 9	1 22 383	1 14,538
Decrease	2,168	7 944			

In coaching the decrease is owing to fewer troop trains running this year as compared with last.

The increase in merchandize is in edible grains to Bombay

The train mileage for the period has been—

	Coaching	Goods	Total
1879	21 500	77 069	99 569
1878	21 6 3	42 030	63 633

Read the following papers —

(2) A letter from the Government of Fort Saint George, submitting a proposal made by the Accountant General, Madras, that some date be fixed, by notification or otherwise, after which "uncurrent copper coin of the old mintage shall not be received by the Government" The Government of Madras considers that sufficient notice should be given to the public, and the coins duly called in before they are declared illegal

(5) A letter from the Comptroller General, No 2382, dated 15th March, asking for copy of the orders justifying the circular by the Accountant General, Madras, recited in para (4)

(6) (*a*) A letter from the Accountant General, Madras (enclosing one from the Secretary and Treasurer of the Bank of Madras) reporting that copper coins, bearing on one side the device of a pair of scales and certain four pie pieces, are not readily received by the public, and repeating his suggestion recited in para (2), that copper coin which is not legal tender under the Indian Coinage Act, 1870, should cease to be received in the public treasuries

(*b*) A further letter from the same officer, calling attention to the foregoing letter, and pointing out that the Comptroller General, in clause 4 of his circular No 21 of the 6th March 1878, has already forbidden the receipt at public treasuries of any copper coin which is not legal tender under the Indian Coinage Act, 1870

(*c*) A further letter from the same officer calling attention to his letters hereinbefore recited, and submitting, as a specimen, a report from the Treasury Officer of Madura, to the effect that there is uncurrent copper coin (chiefly it would appear, the aforesaid scale coins) to the value of Rs 800 4-0 in his treasury which the public refuse to receive

(11) A demi official letter to the Mint Master, Bombay, No 47, dated 1st October, and his reply, showing the loss incurred by withdrawing copper coins

Read again—

(12) Letter to the Comptroller General, No 2295, dated 16th August 1878, authorizing the receipt for full value from Mysore of Rs 9,343 worth of copper coins of British coinage prior to 1835

Read—

(13) Letter from the Accountant-General, Madras, No 172N, dated 20th September, inviting attention to his letters recited in para (6), and observing that, pending orders upon those letters, he will not move the said copper coin from Mysore

RESOLUTION.—The Governor-General in Council is not prepared to call in any copper coin, the produce of British Mints, however old its date. Such a copper coin may not unreasonably be regarded as a metallic token equivalent to a promise on the part of the

British Government to accept the coin at the value placed on it when it was originally issued.

2 Any copper coin which can be recognised as the produce of a British Mint should therefore, be received freely as legal tender against the Government, or by the Presidency Banks in payment of Government dues—

(1) if it bears the designation of any existing legal-tender copper coin, or multiple, or sub-division thereof—then at its nominal value,

(2) if it bears some obsolete designation, such as "cash," "dabs," or "faluses" —then at the rate of a-quarter-of-an-anna for every hundred grains troy of its weight

3 But His Excellency in Council is pleased to resolve, in supersession of all previous orders to the contrary, that, for the present, as an experimental measure, no copper coin coined before Act XXI of 1835 came into force shall be re-issued either by the Presidency Banks or from any Government treasury The Comptroller-General should keep himself informed of the operation of these orders, and report if the quantity of copper coin withdrawn under them becomes inconveniently great Meanwhile all such coins which come into the *ex-officio* possession of any Government officer or of the Presidency Banks, should be returned into store at the nearest depôt, or sub-depôt, established under Resolution No. 884, dated 14th June 1878

4 The Comptroller-General will issue such orders as he may think fit for the effectual destruction of all such copper coins received at such depôts and sub-depôts, determining, in consultation with the Mint Masters, whether their destruction can be safely entrusted to the local officers, or whether the coin must be carried to the nearest Mint and there destroyed. In either case, the metal should be sold as old copper

5 The Comptroller-General will also report, for the approval of the Government of India, the measures which he proposes to adopt for passing through the public accounts the cost of withdrawing such obsolete coins

6 The Comptroller-General will also report annually the amount and particulars of copper coin of the coinages before 1835 withdrawn under these orders

7 For the convenience of the Banks and Treasury Officers in giving effect to these orders, it is observed that only the following copper coins will henceforth be re-issued from any Presidency Bank or Government office —

(1) Double-pice or Half an-anna
(2) Pice or A-quarter-of-an-anna
(3) Half-pice or One-eighth-of-an-anna
(4) Pie or One-twelfth-of-an-anna

The coins to be thus re-issued are of two descriptions

1*st*—The device upon the obverse of those coined under Acts passed before Act XIII of 1862 is the armorial bearings of the East India Company with a year of the Christian era Upon the reverse is a laurel wreath surrounding the designation of the coin in English and (except the older half-pice, which only bear the date 1853) Persian, and the words "East India Company" in English

2*nd*.—The device upon the obverse of those coined under Act XIII of 1862 and later Acts is the effigy, name, and title of the reigning sovereign Upon the reverse is a laurel wreath surrounding the designation of the coin in English over the word "India" and a year of the Christian era.

ORDERED, that this Resolution be distributed for information and guidance as follows.—

1 —To the several Departments of the Government of India
2 —To the several Local Governments and Administrations
3.—To the Comptroller-General and to the several Accountants-General and Deputy Accountants-General in independent charge
4 —To the several Chiefs of Departments administered by the Government of India in the Financial Department
5.—To the Presidency Banks

Assistant Secretary to the Government of India.

A MACKENZIE,
Secy to the Govt of Bengal

[First Publication.]

The 24th March 1879 —The following Rules proposed for the lease of Waste Lands in the Sundarbans are published for general information They will take effect from the 1st of May 1879, but will be subject to modification up to that date —

DRAFT RULES FOR THE LEASE OF WASTE LANDS IN THE SUNDARBANS OF THE 24-PERGUNNAHS, JESSORE, AND BACKERGUNGE.

I —Lands available for Lease.

Definition of waste lands

1 The "waste lands" to which these rules apply include all ungranted and unoccupied land at the disposal of Government in the Sundarbans of the 24-Pergunnahs, Jessore, and Backergunge, which has not been declared reserved forest under the Forest Act

Waste land available for grant

2. In respect of the granting of leases for such lands the Commissioner of the Sundarbans shall exercise all the powers of a Collector of Land Revenue under Act XXIII of 1863, provided that before acting on an application for the lease of any land the Commissioner of the Sundarbans shall refer the application to the Conservator of Forests and ascertain that there is no objection in his department to the application being granted

Government may by special order withhold lands from lease

3. The Government reserves to itself the right of withholding any land from being leased by special order made at any time before the lease is finally given by the Sundarban Commissioner, in such cases all expenses deposited by the applicant for demarcation, survey, and advertisement under the following rules shall be refunded to him, together with the reasonable expenses of clearing any lines and erecting any temporary boundaries which he may have incurred with the permission of the Sundarban Commissioner, as provided in rule 10

II —Application and Procedure before Advertisement

Applications what to contain

4 Applications for leases shall be written on paper bearing a court fee stamp as required by law, and shall contain the following particulars —

First —The estimated area of the land applied for in standard bighas of eighty cubits square, with its character and description

Second —The situation of the land accurately ascertained, and described as fully as possible

Third —A rough sketch map of the lands applied for

A form of application marked A is annexed to these rules

Register of applications

5 All applications shall be entered at once in a register, of which the form shall be prescribed by the Board of Revenue

5(*a*) In the portion of the Sundarbans which has been declared "Protected Forest" under the Forest Act, no blocks of waste land which are altogether surrounded by ungranted and unoccupied land shall be leased under these rules No block shall be given on lease which is not adjacent to land which has already been granted for the purpose of cultivation All applications which do not comply with this rule shall be rejected

Lots to be compact

6 Every lot applied for must be compact, including no more than a single tract of land such as might be enclosed in a ring fence If the land touches a navigable river, the river frontage must not exceed one half the depth of the lot, but for special reasons the Board of Revenue may relax this condition

Limitation of area of each lot

7 No greater area of land than 5,000 standard bighas will be included in one lease except under special orders of Government Nor will a smaller area than 200 bighas be leased unless the lot has distinct water boundaries on all sides The sanction of the Board of Revenue shall be necessary to the lease of more than one lot to one applicant, or to the lease of a second lot to an applicant who already holds one The Board may at its discretion allow such further leases to be given on being satisfied that the applicant is in a position to begin clearing and cultivating at once, and that he *bonâ fide* means to do so, provided that each application shall comprise no more than the prescribed maximum area

Applications to be rejected if rules are not complied with

8 On receipt of an application the Sundarban Commissioner shall satisfy himself that it complies with all requirements of these rules, and that the land is such as can properly be leased Should he find that the lands are not available for lease, or that for any reason they ought not to be leased, or that the application does not fulfil the requirements of the rules, he shall reject the application, or in the latter case allow it to be amended. In no case shall any application be admitted without special sanction of the Board of Revenue for any land which any persons are found to be occupying or using

Sundarban Commissioner to determine whether survey is required

9 When no objection is known to exist against the lease being made, the Sundarban Commissioner shall determine whether a survey of the lands is required, or whether the maps and records of previous surveys available in his office are sufficient for the ready identification and demarcation of the boundaries on the ground

Cost of demarcation of boundaries.

10 If no survey is required, and it is only necessary to demarcate the boundaries on the ground, the Sundarban Commissioner shall estimate the cost of such demarcation as well as the cost of clearing the lines and erecting temporary boundary marks, and shall call upon the applicant to deposit the same before a certain day, which shall be fixed with reference to the time at which the demarcation can conveniently be made Provided, however, that it shall be optional with the said Commissioner to allow the applicant himself to clear the jungle and construct such temporary boundary marks as may be considered sufficient for the ready identification of the land, until the

permanent marks prescribed by article XIII of the "Terms of lease" shall be erected If the applicant is allowed to clear the jungle and erect temporary landmarks, he shall enter into an agreement to do so within such reasonable time as shall be fixed by the Sundarban Commissioner

Cost of survey

11 Should the Sundarban Commissioner decide that a survey of the land is necessary, he shall call upon the applicant to deposit, before a day fixed for that purpose, the cost of survey in addition to the cost of demarcation, &c, as provided in the preceding rule The cost of survey shall be calculated at the rate of four annas an acre on the area estimated in the application, or at such higher rate as may for special reasons be fixed in any case The sum payable for survey shall be adjusted at the rate fixed per acre according to the actual area which may be ascertained by survey, a further payment being made by the applicant, or a refund being made to him, as may be necessary for adjustment.

Cost of notices to be deposited

12 In addition to the cost of survey, demarcation, &c, the applicant shall be required to deposit a sum of Rs 16 to cover the cost of issuing the notice prescribed by rule 17

Application to be struck off on failure to deposit

13 Should the applicant fail to deposit any amount required by the foregoing rules before the date fixed for that purpose, or should he fail to clear the lines or to demarcate the boundaries by the date fixed under rule 10, the application shall be struck off the file, an application so struck off may be re admitted, but in that case the application shall be considered to have been made on the date of the application for such re-admission, and not on the date of the original application

Refund of deposit

14 After the deposit of fees, if for any reason the application should be struck off, or the survey abandoned, the applicant shall not be entitled to a refund of the sum deposited, except when lands are withheld from lease under rule 3 Refund may, however, be made at the discretion of the Sundarban Commissioner of any balance remaining in deposit after meeting all expenses incurred on the objects for which the deposit was made

Agency for survey

15 Surveys shall ordinarily be made by Government surveyors, if made by other agency temporarily employed for the purpose, they shall be tested by Government officers

Surveys need not be minute

16 Surveys need not be more minute or detailed than is necessary to ensure approximate ascertainment of area, but the boundaries must be very accurately and clearly defined.

III —Issue of Notice of Lease

Issue of notice

17 When the land has been surveyed and demarcated, and the Sundarban Commissioner is satisfied that it may be leased, he shall issue a notice in the form B annexed to these rules announcing that an application has been made, and calling upon all persons who may have objections to make to appear before a date to be specified, which date shall not be less than three months from the date of the notice as provided in section I, Act XXIII of 1863

Publication of notice

18 The notice shall be published at the office of the Sundarban Commissioner, the office of the Board of Revenue, the office of the Collector of the District, at the Court of the District Judge, at the Sub-divisional Office, at the Moonsif's Court, and at the Police Station within the limits of which the lands are situate. A copy shall also be published in the Government Gazettes in English and in Bengali

Notice to contain certain reservations

19 In framing the notice the Sundarban Commissioner must be careful to state, as precisely as possible, all rights which will be reserved, such as water ways and the strips of land along the banks of rivers and nullahs for towing-paths (*vide* article XI of the annexed terms of lease), which will be held available for the use of Government and the public use

Disposal of claims to the land

20 If, after the issue of the notice and before the lease has been sold, any claim be preferred or objection taken, the Sundarban Commissioner must proceed as directed in Act XXIII of 1863

Action if claim is established

21 If the Sundarban Commissioner shall consider that any claim or objection is established, he shall stay his proceedings for selling the lease as directed by section IV, Act XXIII of 1863, and make a special report to the Board of Revenue

Arrangement may be made

22 If the objection be such as can be got over by an arrangement without proceeding to formal trial under section VI of the Act, the Sundarban Commissioner may, with the sanction of the Board of Revenue, order the arrangement to be made, and in such case, or in case the claim or objection is eventually withdrawn or pronounced invalid, the Sundarban Commissioner may proceed, on the date specified in the notice, to sell the lease of the land

PART IV

Bills of the Bengal Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT

THE following further report of the Select Committee, together with the Bill as re-amended, is, by order of the President, published for general information —

We, the undersigned members of the Council of the Lieutenant-Governor of Bengal to whom the Bill to amend the law relating to the Court of Wards was referred back at the meeting of the Council held on the 8th instant, have the honor to make the following report

Parts I, II, and III, have been rearranged, but there is nothing new in them which is foreign to the intention of the Committee as expressed in the Bill already submitted to the Council

Some amendments have been made to give effect to the change under which the Court of Wards is substituted for the Collector with regard to those properties which have been made over, or are hereafter to be made over, by the Civil Court under Act XXXV and Act XL of 1858 The object of these amendments is to create uniformity of jurisdiction under the Court of Wards in all such cases

Section 5 contains a revised and more full definition of disqualified proprietors, whilst section 7 prescribes when the Court is bound to give over charge of a ward's property

After section 12 we have reproduced the provisions of section 80 of Bengal Act IV of 1870, to enable the Court to sell an estate to which no claimant is prepared to press his legal rights on the expiration of the wardship

We have omitted the clause which provided that no estate should be leased in putni or other permanent under-tenure without the consent of the Lieutenant-Governor

In sections 12, 13, 18, 38, 39, &c, we have provided for the execution of the orders of the Court, and also as regards leases, mortgages, &c, through the manager The intention of the law is as heretofore, that the manager is the person legally responsible for all that is done whilst the estate is entrusted to his charge, but that he is protected so long as he acts in conformity with the orders and instructions of the Court of Wards

We have omitted the section by which the share in a joint undivided estate or tenure under the charge of the Court was not liable to sale for recovery of arrears of revenue or other demands similarly recoverable until after the end of the year in which such arrears accrued, such a provision is unnecessary for the protection of the minor's estate, as a separate account can be opened in the Collector's books on account of the separate share of a minor On the other hand, such a provision is capable of being made very injurious to Government, if the other shareholders choose to withhold the payment of their shares of the revenue with the knowledge that they will be covered by the protection given to the minor's estate, as, unless a separate account is opened, the whole estate or nothing must be sold for arrears of revenue The protection given to an estate which is the sole property of a minor from liability to sale for arrears of revenue is still continued

In sections 29 and 30 provision is made to enable the Collector of the district to make certain enquiries as to the person and property of a person believed to be disqualified through the agency of the Collector of the district in which the person or property are to be found

At the beginning of Part VI we have inserted a section providing that if no manager is appointed, the Collector of the district in which the greater part of the property is situated, or any other Collector whom the Court may appoint, shall be competent to perform the duties of a manager

In section 45 we have provided that if the ward is a female of sound mind and not a minor, the surplus proceeds of the estate, after the liquidation of debts and improvement of the lands or property, shall be paid over to her for her absolute use The same rule is also made to apply in the case of those persons who, having been minors under the charge of the Court, have elected to leave their property under the charge of the Court pending the minority of their co-proprietors

We have struck out, as covered by the general powers of the Court, the section which empowered the Court to compromise claims and refer them to arbitration

We have provided that the prohibition of adoption without the consent of the Lieutenant-Governor is not to apply to major proprietors whose property remains under the charge of the Court with their consent

We have substituted for sections 61 and 62 of the old Bill a revised section making all arrears of rent payable in respect of a ward's estate recoverable by the same process as rents payable to a Collector on account of Government

We have struck out the section which empowered proprietors to sue persons professing to have acted under the authority of the Court for acts done in contravention of the Court of Wards Act or for breach of trust, as the right to sue in such cases exists without any specific enactment

PART II.

CONSTITUTION, JURISDICTION, AND POWERS OF THE COURT OF WARDS

Board of Revenue to be Court of Wards

4 The Board of Revenue shall be the Court of Wards for the territories to which this Act extends

It shall deal with every person and every property of which it may take or retain charge under this Act, or which may be placed under its charge by order of a competent Court, in accordance with the provisions of this Act

Disqualified proprietors

5 Proprietors of landed property shall be held disqualified to manage their own property when they are—

(*a*) females declared by the Court incompetent to manage their own property,

(*b*) persons declared by the Court to be minors,

(*c*) persons adjudged by a competent Civil Court to be of unsound mind, and incapable of managing their affairs,

(*d*) persons adjudged by a competent Civil Court to be otherwise rendered incapable by physical defects or infirmities of managing their own property

Jurisdiction of Court over disqualified proprietors

6 Whenever the sole proprietor of an estate or all the joint proprietors of an estate are disqualified as provided in the last preceding section, the Court shall have power to take charge of all the property of every such proprietor or joint proprietor within its jurisdiction, and of the person of any such proprietor or joint proprietor who is resident within its jurisdiction, and also of the person and property of any minor member of the family of any such proprietor or joint proprietor who has an immediate or reversionary interest in the property of such proprietor or joint proprietor

Nothing contained in the first clause of this section or in any other part of this Act shall be held to affect any of the provisions of Act XXIV of 1858, or the jurisdiction, as respects infants, of any High Court of Judicature

Court when bound to give up charge

7 Whenever the circumstances of any ward become such that the Court could not take charge of him or of his property if he were not under its charge already, the Court shall be bound to release from its charge such person and his property

Discretion of Court as to taking charge

8 The Court may in its discretion, in any case in which it is empowered by this Act to take charge of the person and property of any disqualified proprietor,—

(*a*) take charge of such property without taking charge of such person,

(*b*) refrain from taking charge of any such person or property,

(*c*) at any time withdraw from such charge if taken,

(*d*) at any time resume such charge, after having withdrawn from it

Procedure under Act XL of 1858, and Act XXXV of 1858

9 Whenever a Civil Court thinks it necessary, under section 9 of Act XL of 1858, to make provision for the charge of the person and property of a minor,

whenever a Civil Court recalls any certificate under section 21 of the said Act,

or whenever a person has been adjudged, under Act XXXV of 1858, to be of unsound mind and incapable of managing his affairs,

if the property of such minor or disqualified proprietor consists, in whole or in part, of land or any interest in land, the Civil Court may apply to the Court of Wards to take charge of the person and property of such minor or disqualified proprietor, and it shall be at the discretion of the Court of Wards to take charge of such person or property or to refuse to do so

Nothing contained in sections 12 to 19 (both inclusive) of Act XXXV of 1858 shall be held to apply to persons or properties under the charge of the Court of Wards

Procedure when estate is no longer under Court because some proprietors have ceased to be disqualified

10 Whenever one or more of the joint proprietors of whose properties the Court of Wards has taken charge ceases to be subject to the jurisdiction of the Court of Wards, and the persons and properties of the remaining joint proprietors thereby cease to be subject to the jurisdiction of the Court of Wards, notwithstanding the otherwise continued disqualification of such remaining joint proprietors, the Civil Court which would have jurisdiction under Act XL of 1858 may, on the application of the Court of Wards, direct the Court of Wards to retain or resume charge of the persons and properties of the still disqualified proprietors during the continuance of their disqualification, or, subject to the provisions of section 11, for so long as such Civil Court may order

And in case any of the proprietors who have ceased to be subject to the jurisdiction of the Court of Wards so consent, the Court of Wards may retain or resume the charge of the properties of such proprietors, or any part thereof, so long as the property of any of the disqualified proprietors remains in charge of the Court of Wards

Withdrawal from charge by Court.

11. The Court of Wards may at any time withdraw from the charge of any person and property taken under section 9 or under section 10, and from the charge of any per-

son or property which before the commencement of this Act was placed under the charge of the Collector by a Civil Court under section 12, section 14, or section 21 of Act XL of 1858, or under section 11 of Act XXXV of 1858,

provided that it shall give notice of its intention to withdraw to the Civil Court concerned, and that such notice shall be given not less than two months before the Court of Wards shall so withdraw

Procedure when succession to property disputed

12 Whenever, on the death of any ward, the succession to his property or any part thereof is in dispute, the Court may either direct that such property or part thereof be made over to any person claiming such property, or may retain charge of the same until the right to possession of the claimant has been determined under Bengal Act VII of 1876, or until the dispute has been determined by a competent Civil Court

Power to sell property the succession to which is in dispute

13 If within one year after the death of a ward the succession to whose property or some part thereof is in dispute, no suit be instituted to determine the right to the property so in dispute, the Court may cause the same to be sold by public auction, and the proceeds thereof, after deducting therefrom sums payable to Government, to be invested in promissory notes of the Government of India such notes to be held by the Court in trust for the person who may be entitled thereto

Such sale shall be valid to pass the right, title, and interest in the property so sold, of such deceased ward and of every person claiming by, through, or under such deceased ward or by way of succession, inheritance, remainder, or reversion

General power of Court

14 Subject to the provisions of this Act the Court—

FREDERICK CLARKE,
Asst Secy to the Govt of Bengal,
Legislative Department

THE following report of the Select Committee, together with the Bill as amended by them, is, by order of the President, published for general information —

We, the undersigned members of the Council of the Lieutenant-Governor of Bengal, to whom the Bill to define and limit the powers of Settlement Officers with respect to enhancement of rent was referred, have the honor to make the following report

We have considered a communication from the Hon'ble Syed Ameer Hosain

We have recast the Bill by repealing Act III of 1878 of this Council, and embodying its provisions with the necessary amendments in the Bill

We have defined "Settlement Officer" and "under-tenant"

Instead of adding a fourth ground of enhancement for the rent of a ryot having a right of occupancy, by a proviso to the existing law, we have provided that nothing in section 51, Regulation VIII of 1793, which treats of enhancement of rents of intermediate tenure-holders, or in the rent laws, Act X of 1859 and Bengal Act VIII of 1869, shall affect any settlement proceedings under Regulation VII of 1822 and similar laws, and have then proceeded to re-impose the restrictions on enhancement

We have provided that the rents recorded as demandable by a Settlement Officer shall be in accordance with general rates, to be sanctioned by the revenue authorities for adoption in the settlement, but that the rent of no occupancy ryot shall be enhanced except on one or other of the grounds specified in section 6 of the Bill

Section 6 substantially reproduces section 18, Act VIII of 1869 of this Council, but also aims at removing the difficulty in which the present measure originated, by allowing the Settlement Officer to enhance rents in proportion to the general rise in the value of produce since the last previous settlement of the estate, if such a settlement was ever made

We have introduced a clause empowering the Settlement Officer to defer the ryot's liability to pay the full amount to which his rent is liable to be enhanced, and make the enhancement take effect by periodical increments

We have inserted a section providing a maximum beyond which the rent of an under-tenant shall not be enhanced

We have made no material change in the procedure for the serving of notices of enhancement laid down by Act III of 1878

We have provided that rents recorded as demandable by the Settlement Officer shall be valid, unless it can be proved in a suit that they were not assessed in accordance with the provisions of the Act.

The defendants in such suits being public officers, it is necessary that the ryots should serve a notice of suit two months before institution. We have provided that this notice shall be served within two months of the service of the notice of enhancement Four months is thus the maximum time allowed to the under tenant or ryot for the institution of his suit

We have provided that if notice of enhancement is served within the first six months of the year of the era current in the district, the enhancement may take effect from the beginning of that year

We have secured the under-tenants and ryots against any enhancement above the rents recorded as demandable by the Settlement Officer for ten years, or until the expiration of the settlement

AMENDED BILL

A Bill to define and limit the powers of Settlement Officers

WHEREAS it is expedient to define and limit the powers of Settlement Officers It is enacted as follows — Preamble

This Act extends to all the territories under the administration of the Lieutenant-Governor of Bengal, except the scheduled districts as defined in the Scheduled Districts Act, 1874 Extent

1 It shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General Commencement of Act

2 Bengal Act No III of 1878 (*an Act to define and limit the powers of settlement officers with respect to enhancement of rent*) is hereby repealed Repeal of Bengal Act III of 1878

3 In this Act— Definitions

"Settlement Officer" means the Collector of the district, and includes any officer who may be appointed by the local Government to make any settlement of the land revenue, and any Deputy Collector or Sub-Deputy Collector whom the Collector may authorize to conduct the enquiries and proceedings connected with any such settlement

"Under-tenant" means any holder of a heritable and transferable intermediate tenure between the Government and the ryot other than a zemindar

4 Nothing contained in section 51 of Regulation VIII of 1793, or in Act X of 1859, or in Bengal Act VIII of 1869, shall affect any settlement proceedings under Regulation VII of 1822, or under any other law for the time being in force for the regulation of settlements of land revenue, otherwise than as provided in this Act Settlement proceedings not affected by certain Acts

5 In any such settlement proceedings the rent recorded as demandable from each ryot shall, except as herein otherwise provided, be in accordance with the general rates sanctioned or determined for adoption in such settlement by the revenue authorities from time to time empowered in that behalf by the Lieutenant-Governor Rent to be in accordance with rates sanctioned by the revenue authorities

6 The Settlement Officer may, on some one or other of the following grounds and not otherwise, record a higher rent as demandable from any ryot having a right of occupancy than the rent which was previously paid by him, viz — Grounds of enhancement

(i) That the higher rent so recorded is calculated on rates which are not above the prevailing rates payable by the same class of ryots, for land of a similar description and with similar advantages in the surrounding neighbourhood

(ii) That the enhancement is not greater than is justified by the increase which has taken place in the productive powers of the land otherwise than by the agency, or at the expense, of the ryot since the rent of the ryot was last fixed

(iii) That the value of the produce of the land has been increased otherwise than by the agency, or at the expense, of the ryot, and, if a previous settlement of the lands has at any time been made, that such higher rent does not bear a higher proportion to that which would have been the rent of lands of a similar description and the same area according to the rates of such previous settlement, than the present price of produce bears to the price of similar produce prevailing about the time of such previous settlement, as recorded in the papers of such settlement, or, if not so recorded, as otherwise ascertained, and certified by the Settlement Officer

(iv) That the quantity of land held by the ryot has been proved by measurement to be greater than the quantity for which rent has been previously paid by him

7 When the rent demandable from any ryot is recorded at an amount below that to which the rent of such ryot might have been enhanced on any of the grounds mentioned in the last preceding section, it may be recorded that such ryot shall from time to time be liable to pay increased rent from such dates as may be fixed by the Settlement Officer, until the rent paid by him reaches the amount which the Settlement Officer may determine to be properly payable by him under the last preceding section Payment by progressive increments

8 The rent recorded as demandable from an under-tenant shall in no case be higher than an amount which is ten per cent below the aggre- Rent of under-tenant

gate of the rents recorded as demandable in any year from the subordinate under-tenants and ryots whose holdings fall within his under-tenure

Service of notice of enhancement

9 Whenever a higher rent has been recorded as demandable from any under-tenant or ryot than the rent previously paid by him, the Settlement Officer shall cause a notice to be served on such under-tenant or ryot

Such notice shall specify the rent and the ground or grounds on which the enhancement is made, and shall call upon such under-tenant or ryot to appear before the Settlement Officer within a time to be specified in the notice and sign the *jummabundi*

Provided that it shall not be necessary to make personal service of such notice on each under-tenant or ryot, but that service may be lawfully made through proclamation by beat of drum, in the village in which the lands concerned or any part of them are situated, of a general notice addressed to all whom it may concern, and by affixing such general notice with a copy of the *jummabundi*, or of such extracts therefrom as the Collector may think fit, at the mal cutcherry of the village to which the *jummabundi* relates, or at some other conspicuous place therein

PART VI

Bill of the India Council.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Report of the Select Committee on the Bill to amend the Code of Civil Procedure was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 5th March, 1879 —

REPORT

We, the undersigned Members of the Select Committee to which the Bill to amend the Code of Civil Procedure was referred, have the honour to report that we have considered the Bill and the papers specified in the annexed list

2 In the interpretation-clause, we have expressly declared that an order finally disposing of an application for execution falls within the definition of 'decree' This will remove a doubt which we understand has been felt in two of the High Courts We have also provided that 'signed' shall include stamped The use of a seal capable of producing an impression of the name and title of the person using it is common among Natives of rank

3 To section 13 we have added an explanation declaring in effect, that a decision in a suit for arrears of rent under any local law relating to landlord and tenant, shall not be deemed to be *res judicata* in case of suits relating to the title to the property in respect of which the rent is claimed

4 In section 44, we have provided for joining, with claims by and against a legal representative as such, claims which he was personally entitled to, or liable for jointly with the deceased person whom he represents, *e g*, on a promissory note jointly executed by the deceased and the person who becomes his executor

5 We have altered the last paragraph of section 52, so as to require the examination of the witness to the verification of the plaint only when the Court entertains doubt as to the fact of the signature

6 We have extended section 108 to all cases in which decrees have been set-aside *ex parte*, and provided for cases in which the summons was not duly served, as well as for those in which the defendant was prevented from appearing

7 Section 131 does not as Act VIII of 1859, section 107, did, empower parties to give notice to produce documents generally We have therefore made section 131 apply to the production of all documents in the possession or power of a party, whether they are or are not referred to in the plaint, written statement or affidavit of the latter

8 We have struck out from section 230 the words as to granting subsequent applications for execution, when the Court is satisfied that on the preceding application due diligence had been used to procure complete satisfaction The effect of these words appears to us to discourage leniency and to invite litigation. We have altered the same section, so as to provide (in accordance with the new Limitation Act, schedule II, Art 179, paragraph 6) for a decree

awarding maintenance, which has been held not to be a decree directing "the payment of money or the delivery of property by instalments"

9 We have amended section 245, so as to provide for non-compliance with the requirements not only of sections 235 and 236, but also of sections 236 and 237

10 We have altered the first explanation to section 216, so as to bring within its scope decrees made over to a Court for execution

11 We have amended sections 259 and 260, so as to make it clear that, when an attachment under either section has remained in force for the specified time, if the judgment-debtor has not obeyed the decree and the decree-holder has, within that time, applied for a sale, the property may be sold, but that, if the judgment debtor has obeyed, and the decree-holder has not made such application, the attachment shall cease

12 We have provided, in section 265, that, where a moety of the salary of a public officer or railway-servant is attached, the attachment shall be made by an order requiring the officer whose duty it is to disburse the salary to withhold every month such portion as the Court may direct until the amount of the portions so withheld is equal to the amount of the decree, and we have authorized him to pay into Court every portion so withheld, and declared that such payment shall discharge the Government or the Railway Company We have struck out the last paragraph of the same section

13 We have altered section 291, so as to empower the Court directing an execution-sale, as well as the officer conducting one to adjourn it

14 Where the holder of a decree in execution of which property is sold purchases the property without the Court's permission, we have provided in section 294, that the Court may, if it thinks fit, set-aside the sale and that any deficiency of price which may happen on a re-sale shall be paid by the decree holder

15 We think that mortgages, leases and sales made under section 305 by the judgment-debtor should not become absolute until they are confirmed by the Court, and we have added a provision to this effect

16 We think that, besides the decree-holder and the owner of land sold in execution, any other person interested in the sale should have power to apply to set it aside on the ground of material irregularity, and we have amended section 311 of the Code accordingly

17 Much doubt exists as to when the title to land sold at an execution-sale vests in the purchaser We think it should vest from the date of the certificate, which is granted as soon as the sale becomes absolute, and we have added to section 316 a sentence to this effect

18 We have recast sections 322 and 323 of the Code, so as to make them express clearly what we believe to have been the intention of their author namely, that, where a money-decree in satisfaction of which the Court has ordered a sale of land has been transferred to the Collector, he should ascertain the amount of *all* existing decrees against the judgment debtor and raise the amount necessary to discharge all his judgment debts with interest, by dealing with such land, and such land only, in any of the modes prescribed by section 322

19 We have altered section 331, paragraph two, so as to express the provisions of the corresponding section (229) of Act VIII of 1859, and we have redrawn the latter half of section 332, so as to word the reference to the Specific Relief Act, section 9, whilst maintaining the procedure required by that enactment and the effect of an order passed thereunder

20 We think that the first payment of a judgment-debtor's monthly subsistence-money should be made to the proper officer of the Court, and that the subsequent payments should be made to the officer in charge of the jail, and we have altered section 339 accordingly

21 When an applicant for the benefit of the insolvency-chapter (XX) furnishes sufficient security that he will appear when called upon, we have empowered the Court to release him The Recorder of Rangoon exercises under the Burma Courts Act insolvency-jurisdiction in the towns of Rangoon, Moulmein, Akyab and Bassein We do not think it expedient that any other Courts should exercise such jurisdiction concurrently with him We have therefore expressly excluded all Courts situate in such towns from the operation of chapter XX

22 Where a pauper's suit is dismissed for non-appearance of either party, we have empowered the Court to order him to pay the fees which would have been paid by him if he had not been permitted to sue as a pauper

23 We have amended section 179 of the Code so as to provide for obtaining an order for the appointment of a guardian *ad litem* upon application by the plaintiff, and where there is no other person fit and willing to act as such guardian, we have authorized the Court to appoint any of its officers

24 We have substituted for section 555 a section providing that in all cases the appellant shall begin

25 We have made section 560 of the Code provide for the cases when notice is not served on the respondent as well as for those in which he was prevented from appearing

26 We have amended section 582 of the Code, so as to preclude the doubt whether the Appellate Court is bound (so far as may be) to perform the duties, as well as authorized to exercise the powers of the Court of first instance

27 In section 584, clause (*a*), we have omitted the words "some specified," which have been held by some to limit the 'law' there mentioned to a statutory enactment, and by others to require the appellant to express in formal terms the rule which he alleges to have been contravened

28 We think that appeals should lie from orders under section 57, clause (*a*), returning a plaint on the ground that the suit has been instituted in the wrong Court, and from orders under section 513 refusing an application to set-aside a sale of immoveable property, and

we have amended section 588 accordingly We have also amended the last clause of the same section, so as to give a second appeal from all orders under section 244, as to mesne profits or relating to the execution, discharge or satisfaction of a decree

29 We have extended section 642, so as to exempt from arrest under the Code the parties to any matter pending before a tribunal having, or believing *bonâ fide* that it has, jurisdiction, their pleaders, mukhtárs, revenue-agents and witnesses while going to, attending or returning from, such tribunal This will include not only civil Courts, but criminal Courts, Courts-martial and arbitrators, and accords with the existing law of England

30 Sections 223—229 seem to provide sufficiently for the execution of decrees We have therefore limited section 646 to arrests and attachments made otherwise than in execution, and provided for the release of any person arrested under that section who furnishes security for his appearance before the Court that issued the warrant

31 We have added to section 649 a paragraph providing for the execution of the decrees of Courts which have ceased to exist, as for example, where a Court of Small Causes is abolished by the Local Government under Act XI of 1865, section 3, or where a Munsif invested with Small Cause jurisdiction, having passed a considerable number of decrees, is transferred to another Munsifi, and his successor at the particular Munsifi at which this jurisdiction was exercised has not been invested with similar jurisdiction

32 We have inserted after section 650, a section providing for the service of foreign summonses when issued either by Courts established by the Governor General in Council, or by Courts to which the Governor General in Council has applied this provision

33 We have amended the second schedule, so as to extend to the Small Cause Courts in the Mufassal

sections 223—229, as to execution of decrees,

section 360, enabling the Local Government to invest any Court with insolvency-jurisdiction,

chapter XXXVI, as to Receivers, and

sections 523, 524, as to filing in Court agreements to refer to arbitration, and sections 525, 526, as to filing awards made on reference without the intervention of a Court

34 We have made several corrections of clerical and typographical errors which need not be specified

35 Lastly, we have amended the Registration Act, by inserting a clause providing that a copy of every certificate of sale of land granted under section 316 of the Code shall be sent to the local registering officer, who will file it in his Book No 1 We have also taken the opportunity to amend three trifling errors in this Act, one of which is a misprint And we have amended the Limitation Act, by inserting in its second schedule articles providing respectively for applications under sections 308 and 371 of the Code

36 We recommend that the Bill thus amended be passed The Bill and Statement of Objects and Reasons have been published in English in all the local Gazettes except those for Assam and Ajmer They have been published in the vernacular in all the Gazettes except those for the Central Provinces, British Burma, Assam and Ajmer We do not think that the Bill has been so altered as to require republication

D FITZPATRICK,
Secy to the Govt of India.

The following supplementary Report of a Select Committee, together with the Bill as settled by them, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th March, 1879 —

WE, the undersigned Members of the Select Committee to which the Bill to amend the Code of Civil Procedure was referred, have the honour to submit the following supplementary Report

2 Since our Report of the 5th March was presented, our colleague Mr Stokes has received from Mr Justice Amshe a note on the Bill which has led us to make certain further changes therein

3 It seems to us that the definition of "decree," even when made to include orders finally disposing of applications for execution, is not wide enough It does not, for instance, comprise an order made on settlement of issues overruling pleas of law (such as that the suit is barred by the Limitation Act), and directing a trial of complicated questions of fact or the investigation of complicated accounts, for this does not "decide the suit," as the defendant may have a defence on the facts Again, it does not include a decretal order for an account, for this does not "decide the suit," inasmuch as, on taking the account, it may turn out that nothing is due, in which case the plaintiff's suit would in the end be dismissed Yet a defendant ought not, if he has a good defence, to be put to the possibly enormous expense and inconvenience of an account for (say) twenty years He should clearly have a right of appeal The fact is that there may be more than one decree in a suit and that the various points arising may be decided at different hearings and the results embodied in different "formal orders" We have therefore widened the first sentence of the definition of "decree" as follows "decree means the formal expression of a final adjudication upon any right claimed, or defence set up, in a Court of justice"

4 We have not overlooked the fact that some of the orders under section 244 of the Code, from which we propose to give two appeals by section 588 as now amended, may be held to be decrees within the meaning of this first sentence of the definition, but we deem it safer, in order to prevent all mistake, to give the appeals from these orders in express terms by section 588, and formally to exclude them from the definition of decree We have also defined "order" as meaning the formal expression of any decision of a Court of justice which is not a decree, and we have defined "judgment" as the statement given by the Judge of the grounds of a decree or order

5 There is much evidence to shew that the examination of a witness as to the fact of signature of the verification of the plaint by the person whose name it purports to bear is a useless form We have therefore, instead of amending section 52 of the Code as proposed by the Bill as last settled, repealed the part of that section requiring such examination

6 We think that the Court should fix a period within which the sum required to defray the costs of service of a process must be paid into Court by the party concerned In the absence of such a provision (which was contained in Act XXIII of 1861, section 2), there is no rule by which the Court is to be guided in determining when a party is in default We have therefore amended section 93 of the Code so as to require a period to be fixed for the payment of the Court-fee, and we have made a similar amendment in section 95, as to payment of postage

7 It is strongly urged by Mr Justice Amshe that our proposed change in section 168 of the word "may" to "shall" would assist litigants to obstruct justice by obtaining unnecessary adjournments We have accordingly omitted the section of the Bill by which it was proposed to make that change

8 We have provided in section 289 for fixing up in the Court-house a copy of the proclamation of sale, and we have made a corresponding amendment in section 290

9 The question is constantly arising whether a fresh proclamation is required when a sale is adjourned We have provided in section 291 that, in case of such adjournment for a longer period than seven days, a fresh proclamation shall be made, unless the judgment-debtor consents to waive it

10 In section 220 we have provided for the execution of orders as to costs

11 In our report of the 5th of March we proposed to alter section 311 of the Code so as admit of other persons in an execution-sale besides the decree-holder and the owner applying to set-aside the sale We have, at the suggestion of the High Court at Fort William, struck out this amendment of section 311 of the Code The High Court urges that it would be of little practical benefit and that it might sometimes be misused to delay the completion of proceedings in execution by persons put forward by the judgment-debtor to dispute the regularity of the sale

12 We have repealed the last nineteen words of section 13 of Act XI of 1865 They are, in the opinion of the same High Court, unnecessary and occasionally mischievous

13 The importance of the change now made in the definitions of "decree" and "judgment," make it desirable in our opinion that the Bill should be republished, so as to afford an opportunity for the correction of any oversight into which we may have fallen, but the substance of the amendment has now been so fully discussed that we think that, unless some serious objection is brought to light, there can be no objection to the Bill being passed as it stands, and, looking to the urgency of some of its provisions, we think its passing should not be delayed more than two months

2 The Bill as introduced proposed that the division of the whole area of an island formed opposite several holdings should be made rateably among the owners in proportion to their respective frontages, and was framed so as merely to indicate those holders If, for example, there were three such owners, A, B and C, whose respective frontages were 100 yards, 200 yards and 300 yards, it was intended that A should take one-sixth of the whole area of the island, B one-third and C one-half, and this division was to have been effected either by private arrangement or in default thereof by a suit for partition It has, however, been strongly urged that, to preclude litigation and discrepancy of practice, the Bill should, at least in the case of land forming in rivers, contain rules not only for giving the areas, but for defining the plots, to which the several riparian owners are entitled For this purpose rules have been suggested both by the Board of Revenue of the Lower Provinces and the High Court at Fort William, the former proposing that the alluvion should be divided by right lines perpendicular to the extremities of the frontages, the latter proposing a division by right lines bisecting the angles made by perpendiculars drawn from the extremities of adjacent frontages But it will be seen on examination that, under either of these plans, alluvial lands formed in the bend of a river would sometimes fall to more than one estate, and further provision would then be required for a rateable division of those lands between the owners of the estates concerned The subject is one of no small difficulty, but it seems to us that the following rule, which is said by a distinguished Settlement officer (Mr Ibbetson) to be practically the rule now in force in the Panjab, and which is recommended for adoption by the Government of that Province, solves the problem satisfactorily and completely —

"Where from natural causes an island or other land is formed in or on the bank of a river, either by accumulation of material or by recession of the river, each owner having a frontage on the river is entitled to so much of the land as is included by his frontage, the thread of the stream and lines drawn riverwards from the ends of such frontage to meet the thread of the stream in a direction normal to such thread

[The term "normal," we may observe, is here used instead of "perpendicular," as the thread of the stream may be a curve It is obvious that in such case several normals may possibly be drawn from the same point, and that these normals may be either of different or of the same length The rule, therefore proceeds as follows —]

"Where more than one such normal can be drawn from one and the same end of any frontage and each of such normals is of different length, the shortest of such normals shall be deemed to be the including line, and where more than one such normal can be so drawn, and each of such normals is of the same length, the line bisecting the angle between the two extreme positions of the shortest normal shall be deemed to be the including line"

It will be seen that the above rule applies not only to alluvion deposited on the banks of two contiguous holdings, but also to islands Incidentally, this will have the effect of rendering immaterial the often difficult question whether a new deposit is an island or not

3 The above is the chief substantial alteration which we have made in the Bill We now proceed to specify the minor changes which we deem desirable

4. In the tidal portion of rivers like the Hugli are many islands which are flooded by ordinary tides in the rainy season, but only by extraordinary springs, or not at all, in the dry season These chars are cultivable in the dry season and should be included in the definition of "island" We have therefore added to that definition the words "throughout the year"

5 To fix with more precision the time at which, for the purposes of the Bill, an alluvial island is first formed, we have provided that it must be capable of being employed for cultivation, pasture or other useful purpose, such, for example, as the supply of reeds or brush-wood. The question of fordability will thus be decided after an island newly formed becomes, as the Privy Council puts it, "valuable and usable"

6 Where any formation takes place on a site of which the Government is proved to be the owner, we have declared that the Government is entitled to such formation

7 In the case of land formed on the shore of the sea or of a lake and in that of an island formed in the sea or a lake, we have provided that the distribution in proportion to the frontage of the riparian owners shall be effected by such officer as the Local Government may appoint and in accordance with such rules (consistent with the proposed Act) as the Local Government may from time to time prescribe

8 We think that, to entitle the Crown to alluvial islands, the channel between the island and each bank or shore should not be fordable during the dry season next after the formation

9 In determining the right to abandoned river-beds, we think we should have regard to the thread of the stream in the preceding dry season, and not to what it was immediately before the abandonment—a matter which cannot be always ascertained In other respects, the rule for the division of such beds among the riparian owners will be the same as that which we have provided in the case of alluvial lands

10 We have empowered the Local Government to declare, with reference to any tidal river, where, for the purposes of the proposed Act, the river shall be deemed to end and the sea to begin, and we have provided that no declaration under the Act shall be cancelled or altered, save with the previous sanction of the Governor General in Council

11 In the Panjab the ownership of lands subject to the action of rivers is mainly regulated by local usage We have accordingly retained the section of the Bill as introduced, which provided that such usages should be respected and, in certain cases, presumed to be in force But such provisions do not appear to be required in Madras, Bombay, Oudh or the North-Western Provinces, and though local usage is saved in the Lower Provinces and Assam by the Bengal Regulation XI of 1825, there seems to be only one instance in which there has been any attempt to establish it We have, therefore, confined to the Panjab the section saving usage But there is ground for the belief that even in that Province some of the local usages referred to,—including the usage known as "the deep-stream rule"—besides being objectionable on economic grounds and adverse to imperial interests are more or less unsuited to the time and distasteful to the communities affected by them In these circumstances we have deemed it right, on the recommendation of experienced officers, to provide a procedure whereby such usages may, if thought expedient, be discontinued, and fixed boundaries substituted for varying boundaries in riparian estates

12 As the rights of mortgagees and tenants to alluvial lands are saved by the Transfer of Property Bill, No III, sections 37 and 65, clause (*e*), we have not thought it necessary to provide for such rights

13 The Bill in its present form is not to be taken as expressing our final views as to all the difficult and important subjects with which it deals But we think that the changes which it has undergone are such as to render republication desirable, for the purpose of eliciting criticism from the public and from the judicial and executive officers by whom its provisions will be carried into effect We also think that its further consideration should be stayed until the new Law Commission has reported thereon We therefore recommend that the Bill as now amended be republished with this Report in the *Gazette of India*, and sent to the Local Governments for opinion and for publication in the local Gazettes

14 The Bill and Statement of Objects and Reasons have been published in English in the local Gazettes for Madras, Bengal, the North Western Provinces and Oudh, the Panjab, the Central Provinces and British Burma Publication in English has not been reported from Bombay and Assam Publication in the vernacular has been reported only from Madras, Bengal, the North-Western Provinces and Oudh, the Panjab and the Central Provinces.

3 In this Act—

"island" means land surrounded by water and capable of being employed for cultivation, pasture or other useful purpose It includes such land arising in a river or lake, submerged in the wet season and visible only in the dry season but it excludes land arising in tidal rivers, tidal lakes or the sea, submerged by the flow of ordinary tides throughout the year

"owner" means, in the case of a bank or shore held on raiyatwari tenure, the Government in the case of a bank or shore forming part of land situate in the Presidency of Bombay and wholly or partially exempt from the payment of land revenue or held under a grant or lease fixing the Government demand in respect thereof in perpetuity, the holder of such land, and in the case of a bank or shore held by a village community, or by one or more members of it, such community

"sea" includes bay, inlet, creek and arm of the sea

"frontage" means the right line connecting the corners of each holding where they strike the sea, lake or river

"Thread of the stream" means (*a*) the middle line of the main-stream during the dry season, or, where there are two streams of equal depth and width, the line equidistant during such season from the outermost shores of the two streams, (*b*) the middle line of the river between what are the shores on each side when the water is at its average height, neither swollen by flood, nor shrunk by drought, or (*c*) the middle line of the particular channel in which the formation of ancient river-bed referred to occurs or is situate

and a channel is said to be "fordable" when it does not exceed five feet in depth in the dry season next after the formation referred to and throughout the twenty-four hours

II —Alluvial Land and Islands

Right to land formed on shore of sea or lake

4 Where, from natural causes, land forms gradually on the shore of the sea or of a lake, either by accumulation of material or by recession of the sea or lake, the owners of the shore are severally entitled to the land so formed in proportion to the frontage which they respectively had on the sea or lake immediately before the formation, and the partition of the land so formed shall be made by such officer as the Local Government appoints in this behalf, and in accordance with such rules, consistent with this Act, as the Local Government may from time to time prescribe

Provided that where the land or any portion thereof forms on a site which is proved to belong to the Government or a private owner, the Government or such owner, as the case may be, is entitled to the land or portion so formed

Right to islands where channel is not fordable

5 Where an island is formed, from natural causes, in a river, the sea or a lake, either by accumulation of material or by recession of the sea or lake, if the island is separated from each bank or shore by a channel not fordable at any point, the Government is entitled to such island

Provided that, where the island or any portion thereof is formed on a site which is proved to belong to a private owner, such owner is entitled to the island or portion so formed

Right to other islands in sea or lake

6 If, where an island is formed as aforesaid in the sea or a lake, the channels between it and either shore are fordable at any point, the owners of the nearest shore are severally entitled to the island in proportion to the frontage which they respectively have on the sea or lake, and the partition of the island so formed shall be made by such officer as the Local Government appoints in this behalf and in accordance with such rules, consistent with this Act, as the Local Government may from time to time prescribe

Right to land formed in or on bank of river

7 Where, from natural causes, an island or other land is formed in, or on the bank of, a river, either by accumulation of material or by recession of the river, and the Government is not entitled thereto under section five, each owner having a frontage on the river is entitled to so much of the land as is included by his frontage, the thread of the stream during the dry season next after the formation and lines drawn riverwards from the ends of such frontage to meet the thread of the stream in a direction normal to such thread

Where more than one such normal can be drawn from one and the same end of any frontage and each of such normals is of different length, the shortest of such normals shall be deemed to be the including line, and where more than one such normal can be so drawn and each of such normals is of the same length, the line bisecting the angle between the two extreme positions of the shortest normal shall be deemed to be the including line

Provided that, where the land or any portion thereof is formed on a site which is proved to belong to the Government or a private owner, the Government or such owner, as the case may be, is entitled to the land or portion so formed

Islands formed by division of rivers.

8 If a river freshly divides and surrounds, or, by changing its course, cuts off, lands belonging to the owner of the bank, such owner is entitled to the lands so surrounded or cut off

III—Abandoned River-beds

Right to abandoned river beds.

9 Where a river suddenly abandons the bed which it occupies during the season of flood, each owner having a frontage on such bed is entitled to so much of the bed as is included by his frontage, the thread of the stream during the dry season next before the abandonment and lines drawn towards the bed from the ends of such frontage to meet such thread in a direction normal thereto

Where more than one such normal can be drawn from one and the same end of any frontage, the rules contained in the second paragraph of section seven shall apply

Provided that, when the ancient bed is proved to have belonged immediately before the abandonment to the Government or a private owner, it shall continue to be the property of the Government or of such owner, as the case may be

IV—Miscellaneous

(*g*) prevent any officer duly empowered by the Local Government in this behalf from regulating the direction and flow of such rivers and the preservation and distribution of their waters

Local usage in Panjáb

12 In the territories administered by the Lieutenant-Governor of the Panjab, nothing herein contained shall affect any definite and well-established local usage respecting the right to alluvial land islands or abandoned river-beds, but (except in the cases provided for by the Panjab Land-Revenue Act, 1871, section 16) the burden of proving such usage shall lie on the person alleging it

Provided that the Local Government may from time to time (*a*) cause the bed of any river or part of a river together with the islands and alluvial lands situate therein or adjacent thereto, to be surveyed and mapped, (*b*) appoint an officer to enquire into, determine and record the rights of private persons and the Government, in, to or over the said bed, islands and lands, and (*c*) declare that rights so recorded shall not be affected by any local usage And the provisions of the Panjáb Land Revenue Act, 1871, chapter II, shall apply, so far as may be, to proceedings under this section, and the determination of the said rights shall be made after consideration of the gain and loss (if any) caused by changes in the course of the river for a period of twelve years next before the date of the survey-notification

Right of Crown to alluvial lands &c not hereinbefore provided for

13 All land and islands formed, and all river-beds abandoned, as mentioned respectively in sections four, five and nine, and not vesting under any of the provisions hereinbefore contained, shall vest in the Government

NOTE

Barometric Pressure —The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 18 For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table, "Prof Papers on Indian Engineering, No CXIII" The temperatures at the sea-level are taken from column 3 of the above table

Temperature.—The temperatures in column 3 are reduced from those in column 18 on the preceding page, by adding 1° Fahrenheit for every 450 feet

Wind Resultant —The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations The direction is computed in the usual way by Lambert's formula

Cloud —This column gives the average proportion of clouded sky, a cloudless sky being indicated by *o*, and one completely overcast by 1*o*

The above, being all comparable, afford the data for constructing a meteorological chart for the month, which will show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind To these may be added the rainfall from the previous tables

The mean pressure, temperature, &c, are deduced from observations made at 6h, 10h, 16h, and 22h, the maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground

T H WICKES,

Offg Asst Secy. to the Government of Bengal, P. W Dept

Report of Fluctuation of Traffic on the Eastern Bengal Railway for the four weeks ending 22nd February 1879

Calcutta, the 13th March 1879

From—C F CHADBURN Esq, for Acting Traffic Superintendent,
To—The Agent Eastern Bengal Railway Calcutta

THE total weight of goods carried over this railway during the above period was 4 91,347 maunds which, as compared with last year shews a decrease of 2 97,826 maunds in grain, including rice, jute, piece goods, foreign railway materials, seeds sugar, turmeric and miscellaneous goods

This apparently heavy decrease is attributable to the depression of trade generally, but I anticipate a more satisfactory report for the current month

Decreases

Grain, including rice — Mds 1 51 216

This traffic bears an unfavourable comparison with last year, owing to the absence of the demand which then existed for export to famine districts but the quantity carried is 3,887 maunds, more than passed over the line in January 1879

Jute, drums of — Mds 39,215

This decrease is attributable to the market being over stocked holders being unable to find buyers for what is now on hand

Jute, bales of — Mds 61,124

The last remark also applies to this produce It might be added that the low rates in the home market, and consequent absence of demand for export is affecting this trade

Piece goods — Mds 6,931

This is attributable to the slackness of trade generally

Foreign Railway material — Mds 7,268

At this time last year large quantities of material for the construction of the Northern Bengal State Railway were being despatched as the greater portion has now gone forward the decrease was to be expected

Seeds — Mds 6,024

This decrease is attributable to absence of the demand for export which existed last year

Turmeric — Mds 4 840

Although this shews a decrease as compared with last year the total quantity carried during February exceeds by over 1 000 maunds that carried in January This supports my views in regard to the abnormal demand for grain and edibles for famine stricken districts last year

Miscellaneous — Mds 32,110

This decrease can only be accounted for by the bad state of trade generally as compared with last year, although in this also there is an increase over January's traffic of over 2 000 maunds

Increases

The increases are in gunny bundles 4,521, hides bales 2 742, and bundles of tobacco, 6,156, but are so trifling as compared with the decreases as to call for no special remarks

NOTIFICATION

The 31st March 1879.—The following rules issued by the Board of Revenue, under the provisions of sections 75 and 114 of the Sea Customs Act VIII of 1878, are published for general information, as required by section 204. The landing fee of 8 annas per package fixed in rule 6 has been sanctioned by the Lieutenant-Governor under section 75.

PASSENGERS' BAGGAGE.

Section 75.—1. Baggage is not exempt from duty simply because it is baggage.

2. Baggage is exempt from duty only when it consists of articles free of duty, or of *bonâ fide* personal wearing-apparel and other articles of personal use, the property of the person whose baggage is being passed, or of any members of his family, such as are in actual use at time of importation, or have been actually in use previously. It is within the discretion of the proper officer of Customs to determine, subject to the above rules, whether any goods shall be treated as baggage and exempt from duty, or as goods liable to duty.

3. The following goods are subject to duty, according to the schedule in force for the time being:—

Apparel, including millinery and haberdashery
Arms, ammunition, and military stores
Beads and false pearls
Chinese and Japanese wares
Clocks, watches, and other time keepers
Drugs and medicines

Metal goods, as hardware, ironmongery, cutlery

Piece-goods
Provisions and oilman's stores

Spices
Stationery
Sugar and sugar-candy

Toys and requisites for games

4. In Calcutta baggage officers will examine on board only such free baggage not contained in soldered or nailed-down cases as the passenger offers for examination.

5. All other baggage will be sent to the baggage-shed at the jetties, in the case of vessels lying at the jetties, or to the baggage shed at the Custom House.

6. No formal entry of baggage is required under section 86 of the Act. Owners will have either personally or by agent to identify their own property. The Customs Officer will examine the goods and note in a form of entry the value of articles liable to duty, the rate of duty and amount thereof, together with a landing charge of 8 annas per package, and on receipt of the money will grant a pass.

7. It is optional with the proper officer of Customs to allow the cases of persons about to proceed immediately up-country to be passed without being opened. This discretion will never be exercised except on the personal application of the owner of the baggage, or his or her representative. A detailed statement of contents and value signed by the owner must always accompany the application. A preventive officer should report at once to the Superintendent of the Preventive Service whenever he detains any dutiable articles, in order that an officer may be deputed to convey them to the Custom House.

Exportation of Spirits under Bond for Excise duty.

Section 111.—1. No spirit on which the full duty has not been paid is to be allowed to leave a distillery, whether private, licensed, or public, unless the following marks are legibly painted or cut on each end of the cask containing the spirit, viz. the name of the distillery, the known mark of the proprietor, and the quantity and strength of the spirit contained in the cask (the strength being ascertained by a hydrometer). For instance, the marks on a cask of Dhobah Rum stand thus:—

2. Spirit for exportation by sea may be removed without payment of duty from a licensed distillery to the Custom House, and from the Custom House, on the person so removing them executing the bond required by section 114 of the Act for the payment of full duty in case of failure to export within four months, or to satisfy the Chief Customs Officer that the spirit has been landed at some other port within British India, not being a free port. The bond is taken by the Chief Officer of Customs.

3. A member of some established house of business at the port of exportation must be one of the parties bound, and the parties bound are jointly and severally answerable for any amount which may ultimately fall due under the bond.

4. The Chief Officer of Customs may refuse the security tendered, without assigning any reason, except in the event of an appeal from his decision.

5. The distillery and apparatus is considered as pledged for any amount which may become due under the bond.

6. On a bond being duly executed, and its execution certified by the Chief Officer of Customs, the Collector of Excise Revenue will grant a pass for the spirit bonded, without payment of the duty.

7. On the spirit being brought to the Custom House for exportation the exporter must declare, in writing, by what bond it is protected and produce the pass of the Collector of Excise Revenue and the distillery invoice. The spirit is then gauged for quantity, and proved to ascertain the strength by a Custom House Officer. If the quantity and strength so ascertained be the same as that marked

* Meaning 0 degrees over London proof.

on the casks (the casks being the same which were removed from the distillery), the spirit is allowed to pass for export by sea, and the quantity is written off on the bond If the quantity and strength be not the same as that marked on the casks, duty is levied on the difference, as provided by section 147 of the Act

8 The following rules should be observed for gauging casks lying with the bung-rod, whether the spirit be required for exportation or for local consumption Government officers must, however, bear in mind that the results obtained from simple measurement by the bung-rod are only approximate Other instruments and professional skill are needed to ascertain the exact contents of a cask [*N B*—The bung-rod has four sides, of these two opposite sides are marked in inches and tenths for taking diameters, a third is marked in imperial gallons for taking the "capacity" according to the diagonal line, the fourth relates only to the calculation of superficial circular gallons, and is not ordinarily used]

(1) Take care that the cask is laid perfectly horizontal with the bung exactly at the top

(2) Measure by the side of the rod showing imperial gallons, from the centre of the inside of the bung-stave to the lower chunt (*i e* where the head fits into the staves) at each end of the cask The mean between the measurements so ascertained is the "capacity" of the cask

(3) Measure by the side of the rod marked in inches the diameter from the inside of the bung-stave to the stave directly below it at the bottom This gives the "bung diameter"

(4) Measure by the same side of the rod the depth in inches of liquor in the cask This gives the "wet inches"

(5) Turn to the page of the Ullage tables* which is headed with the ascertained "capacity," look along the top for the column corresponding to the "bung diameter," and under this opposite the "wet inches" (shown in the left hand column) will be found the "ullage" or liquid contents of the cask

* The tables referred to are a reprint from the "Imperial Ullager" and can be had on application to the Board of Revenue

9 When the entire bonded quantity is written off upon the bond, the Chief Officer of Customs should cancel the bond.

10 It is for the exporter to see that the exports made from time to time under a bond are properly written off, or certified on the bond, and he must testify, by his signature to the entries, that the exports are correctly written off

11. If, at the expiration of the period named in the bond and in section 144 of the Act, the entire quantity of spirit covered by the bond has not been accounted for as required in the Act, and written off as provided in the preceding clause, the Chief Officer of Customs will proceed to recover the duty due upon the quantity of spirit which may not have been so accounted for, unless the currency of the bond shall have been renewed.

12 Time-expired bonds may be renewed at the discretion of the Chief Officer of Customs for a further period not exceeding four months from the date of the expiration of the first currency. On the expiration of the second currency, the Chief Officer of Customs will proceed to adjust such time-expired bonds and levy duty on the quantity of spirit unaccounted for

13 A maximum allowance, according to the following scale, is made on account of ullage and leakage on spirit removed under bond from a distillery in the interior for exportation by sea, and on spirit imported from the Madras Presidency into Orissa —

For a distance not exceeding 100 miles	5	per centum
For a distance above 100 miles, but not exceeding 200 miles	7½	ditto
For all distances exceeding 200 miles	10	ditto

14 In the case of spirit exported under bond to another port within British India (not being a free port), in adjusting the bond, an allowance for wastage and leakage during the sea voyage is made, for a voyage of one month, at the rate of two per cent, and for any longer voyage, at three and a half per cent

15 Spirit for use as ships' stores during the voyage may be shipped, free of duty, on vessels clearing to a foreign port Passes for such spirit are, however, detained at the Custom House until the vessel for the use of which it is intended is actually under clearance, when they are made over to the shipper's servants Such shipments must be made under bonds, to be cancelled on production of a certificate from the preventive officer on the ship that no portion of the spirits covered by the bond has been consumed in port The bond is in the form C prescribed by section 114 of the Act, *mutatis mutandis*

NOTIFICATION

The 31st March 1879 —The following rules, under the provisions of sections 9 and 155 of the Sea Customs Act VIII of 1878, having been approved by the Lieutenant-Governor, are published for general information, as required by section 204

3 The Deputy Collector and Assistant Collector of Customs shall be competent, in the temporary absence of the Collector of Customs, to exercise all or any of the powers conferred on that officer Ordinarily the Assistant and the Deputy Collector, and all the other officers referred to in section 1, are subordinate to the Collector of Customs, and, except as hereinafter provided, shall be competent to exercise such of the powers conferred, and to perform such of the duties imposed, upon Officers of Customs by this Act, as the Collector may require of them, and to perform all or any of the duties, whether mentioned in this Act or not, as are ordinarily comprised in the management of a Custom House

9 In order to obviate the loss and damage which is known to be caused to the owners of goods landed from ships and in sections 82, 84, and 85, for which no claim is made within the period prescribed, and which are therefore liable to sale under section 88 of the Act, the Customs Collector may permit the Master of the vessel, or his agents applying to act for him under section 5 of the Act, to take delivery of all such unclaimed goods upon paying all duties and charges which are due upon such unclaimed goods, and also entering into a bond wherein he, or his agents so acting for him, shall undertake to meet all claims which may be preferred in respect of any goods so delivered to the Master of any vessel or his agents as aforesaid

11 Whenever an amendment of the valuation stated in a bill-of-entry is permitted under the last clause of section 32, and excess duty, together with a penalty, is levied in consequence, the whole or a part of such penalty shall, at the discretion of the Chief Officer of Customs, be payable to the officer who detected the under-valuation of the goods

13 Preventive Officers are required to bring to the immediate notice of the Conservator of the Port or of one of his subordinates any infringement of the rules for the prevention and suppression of fires on ships within the port of Calcutta, especially of those regarding the use of lights and fires that they may observe while on duty on board ships in port

14 The following rules are prescribed in connection with the parcel-post system between Ceylon and Calcutta, and between the Straits Settlements and Calcutta —

(*a*) On the arrival of any parcels from a foreign port, the Postmaster shall give notice to the Collector of Customs of such arrival, and shall not take any steps to deliver such parcels until the arrival of an officer deputed to attend by the Collector

(*b*) Immediately on the receipt of notice from the Postmaster, the Collector shall send to the post-office an Appraiser, or other competent officer, to determine the amount of Customs duty payable on the parcels

(*c*) The Customs Officer is, as a general rule, to be guided by the declaration of the senders with regard to the contents of parcels, but should he have reason to doubt the correctness of such declaration, he may order the detention of the parcels, and the Postmaster shall on his requisition detain them, pending receipt of the Collector's orders as regards their examination

(*d*) The Appraiser shall be provided with a book containing parcel post passes in triplicate, as per form annexed Of these passes, the Appraiser shall fill up, sign, and give to the Postmaster, in exchange for the amount of duty, one form, and shall fill up a second, which will be retained in the book as a counterfoil The third form shall be filled up by the Appraiser, but signed by the Postmaster, and delivered to the Appraiser at the post-office entry of the goods On this latter document the duty is to be passed to account, the cashier giving a receipt for the money, and the Import Supervisor certifying that it has been duly entered in the registers The short copy counterfoils are to be signed each day by the accountant as an acknowledgment that the sums realized have been duly paid in from the Appraisers' Department.

4 —Whenever such spirit as aforesaid is imported from other countries than the United Kingdom into any port of the Bengal Presidency, the Collector of Customs at that port shall send a sample of such spirit to the Chemical Examiner for examination and report, at the expense of the importer, and if the Chemical Examiner shall certify that the spirit has been rendered effectually and permanently unfit for human consumption, the Collector of Customs shall admit it at the reduced rate of duty

5 —Whenever imported spirit is to be rendered effectually and permanently unfit for human consumption by Officers of the Customs Department, the ingredient to be used for admixture with the spirit shall be caoutchoucine, and it shall be mixed with the spirit in the proportion of one part and half a volume of the caoutchoucine to 98½ parts of volume of the spirit which shall not be of less strength than 30 per cent over-proof

6 —But when it can be proved to the satisfaction of the Board of Revenue that the presence of caoutchoucine will render the spirit unsuitable for the purpose for which it is required, special sanction may be obtained for the use of wood-naptha instead of caoutchoucine In this case one part of volume of crude wood-naptha shall be mixed with nine parts of volume of spirit having a strength not less than 30 per cent. over-proof

7 —The caoutchoucine or the wood-naptha, however, before its admixture with the spirit, must be tested by the Chemical Examiner to Government, who must certify to the Collector of Customs that it is of the proper strength, fitted, if used in the proportions mentioned in rule 5 or 6, to effectually and permanently render unpalatable and unfit for human consumption the spirit with which it is mixed

8 —Any expense which may be incurred by the Collector of Customs in rendering spirit unfit for human consumption, or in ascertaining that it has been so rendered, must be paid by the importer

9 —The use of spirit methylated or caoutchoucined according to these rules is not permitted in the manufacture or preparation of tinctures, medicated spirits, hypo-nitrous ether, or other pharmaceutical preparations, or in the manufacture or preparation of any other article capable of being used as a beverage, or internally as a medicine, with the exception of sulphuric ether, chloroform, and chloral hydrate

The 24th March 1879 —The following Rules proposed for the lease of Waste Lands in the Sundarbans are published for general information They will take effect from the 1st of May 1879, but will be subject to modification up to that date —

DRAFT RULES FOR THE LEASE OF WASTE LANDS IN THE SUNDARBANS OF THE 24-PERGUNNAHS, JESSORE, AND BACKERGUNGE

I —LANDS AVAILABLE FOR LEASE.

Definition of waste lands

1 The "waste lands" to which these rules apply include all ungranted and unoccupied land at the disposal of Government in the Sundarbans of the 24-Pergunnahs, Jessore, and Backergunge, which has not been declared reserved forest under the Forest Act

Waste land available for grant

2 In respect of the granting of leases for such lands the Commissioner of the Sundarbans shall exercise all the powers of a Collector of Land Revenue under Act XXIII of 1863, provided that before acting on an application for the lease of any land the Commissioner of the Sundarbans shall refer the application to the Conservator of Forests and ascertain that there is no objection in his department to the application being granted

Government may by special order withhold lands from lease

3 The Government reserves to itself the right of withholding any land from being leased by special order made at any time before the lease is finally given by the Sundarban Commissioner, in such cases all expenses deposited by the applicant for demarcation, survey, and advertisement under the following rules shall be refunded to him, together with the reasonable expenses of clearing any lines and erecting any temporary boundaries which he may have incurred with the permission of the Sundarban Commissioner, as provided in rule 10

II —APPLICATION AND PROCEDURE BEFORE ADVERTISEMENT

Applications what to contain

4 Applications for leases shall be written on paper bearing a court fee stamp as required by law, and shall contain the following particulars —

First —The estimated area of the land applied for in standard bighas of eighty cubits square, with its character and description

Second —The situation of the land accurately ascertained, and described as fully as possible

Third —A rough sketch map of the lands applied for

A form of application marked A is annexed to these rules

Register of applications

5 All applications shall be entered at once in a register, of which the form shall be prescribed by the Board of Revenue

5(*a*) In the portion of the Sundarbans which has been declared "Protected Forest" under the Forest Act, no blocks of waste land which are altogether surrounded by ungranted and unoccupied land shall be leased under these rules No block shall be given on lease which is not adjacent to land which has already been granted for the purpose of cultivation All applications which do not comply with this rule shall be rejected

Lots to be compact

6 Every lot applied for must be compact, including no more than a single tract of land such as might be enclosed in a ring fence If the land touches a navigable river, the river frontage must not exceed one half the depth of the lot, but for special reasons the Board of Revenue may relax this condition

Limitation of area of each lot

7 No greater area of land than 5,000 standard bighas will be included in one lease except under special orders of Government Nor will a smaller area than 200 bighas be leased unless the lot has distinct water boundaries on all sides The sanction of the Board of Revenue shall be necessary to the lease of more than one lot to one applicant, or to the lease of a second lot to an applicant who already holds one The Board may at its discretion allow such further leases to be given on being satisfied that the applicant is in a position to begin clearing and cultivating at once, and that he *bond fide* means to do so, provided that each application shall comprise no more than the prescribed maximum area

Applications to be rejected if rules are not complied with

8 On receipt of an application the Sundarban Commissioner shall satisfy himself that it complies with all requirements of these rules, and that the land is such as can properly be leased Should he find that the lands are not available for lease, or that for any reason they ought not to be leased, or that the application does not fulfil the requirements of the rules, he shall reject the application, or in the latter case allow it to be amended In no case shall any application be admitted without special sanction of the Board of Revenue for any land which any persons are found to be occupying or using

Sundarban Commissioner to determine whether survey is required

9 When no objection is known to exist against the lease being made, the Sundarban Commissioner shall determine whether a survey of the lands is required, or whether the maps and records of previous surveys available in his office are sufficient for the ready identification and demarcation of the boundaries on the ground

Cost of demarcation of boundaries

10 If no survey is required, and it is only necessary to demarcate the boundaries on the ground, the Sundarban Commissioner shall estimate the cost of such demarcation as well as the cost of clearing the lines and erecting temporary boundary marks, and shall call upon the applicant to deposit the same before a certain day, which shall be fixed with reference to the time at which the demarcation can conveniently be made Provided, however, that it shall be optional with the said Commissioner to allow the applicant himself to clear the jungle and construct such temporary boundary marks as may be considered sufficient for the ready identification of the land, until the

permanent marks prescribed by article XIII of the "Terms of lease" shall be erected If the applicant is allowed to clear the jungle and erect temporary landmarks, he shall enter into an agreement to do so within such reasonable time as shall be fixed by the Sundarban Commissioner

Cost of survey

11. Should the Sundarban Commissioner decide that a survey of the land is necessary, he shall call upon the applicant to deposit, before a day fixed for that purpose, the cost of survey in addition to the cost of demarcation, &c, as provided in the preceding rule The cost of survey shall be calculated at the rate of four annas an acre on the area estimated in the application, or at such higher rate as may for special reasons be fixed in any case The sum payable for survey shall be adjusted at the rate fixed per acre according to the actual area which may be ascertained by survey, a further payment being made by the applicant, or a refund being made to him, as may be necessary for adjustment

Cost of notices to be deposited

12 In addition to the cost of survey, demarcation, &c, the applicant shall be required to deposit a sum of Rs 16 to cover the cost of issuing the notice prescribed by rule 17

Application to be struck off on failure to deposit

13 Should the applicant fail to deposit any amount required by the foregoing rules before the date fixed for that purpose, or should he fail to clear the lines or to demarcate the boundaries by the date fixed under rule 10, the application shall be struck off the file, an application so struck off may be re-admitted, but in that case the application shall be considered to have been made on the date of the application for such re-admission, and not on the date of the original application

Refund of deposit

14 After the deposit of fees, if for any reason the application should be struck off, or the survey abandoned, the applicant shall not be entitled to a refund of the sum deposited, except when lands are withheld from lease under rule 3 Refund may, however, be made at the discretion of the Sundarban Commissioner of any balance remaining in deposit after meeting all expenses incurred on the objects for which the deposit was made

Agency of surveys

15 Surveys shall ordinarily be made by Government surveyors, if made by other agency employed for the purpose, they shall be tested by Government officers

Surveys not to be more minute than necessary

16 Surveys need not be more minute or detailed than is necessary to ensure approximate ascertainment of area but the boundaries must be very accurately and clearly defined

III —Issue of Notice of Lease

Issue of notice

17 When the land has been surveyed and demarcated, and the Sundarban Commissioner is satisfied that it may be leased, he shall issue a notice in the form B annexed to these rules announcing that an application has been made, and calling upon all persons who may have objections to make to appear before a date to be specified, which date shall not be less than three months from the date of the notice as provided in section I, Act XXIII of 1863.

Publication of notice

18 The notice shall be published at the office of the Sundarban Commissioner, the office of the Board of Revenue, the office of the Collector of the District, at the Court of the District Judge, at the Sub-divisional Office, at the Moonsif's Court, and at the Police Station within the limits of which the lands are situate A copy shall also be published in the Government Gazettes in English and in Bengali

Notice to contain certain reservations

19 In framing the notice the Sundarban Commissioner must be careful to state, as precisely as possible, all rights which will be reserved, such as water ways and the strips of land along the banks of rivers and nullahs for towing-paths (*vide* article XI of the annexed terms of lease), which will be held available for the use of Government and the public use

Disposal of claims to the land

20 If, after the issue of the notice and before the lease has been sold, any claim be preferred or objection taken, the Sundarban Commissioner must proceed as directed in Act XXIII of 1863

Action if claim is established

21 If the Sundarban Commissioner shall consider that any claim or objection is established, he shall stay his proceedings for selling the lease as directed by section IV, Act XXIII of 1863, and make a special report to the Board of Revenue

Arrangement may be made

22 If the objection be such as can be got over by an arrangement without proceeding to formal trial under section VI of the Act, the Sundarban Commissioner may, with the sanction of the Board of Revenue, order the arrangement to be made, and in such case, or in case the claim or objection is eventually withdrawn or pronounced invalid, the Sundarban Commissioner may proceed, on the date specified in the notice, to sell the lease of the land

IV —Sale in case of more than one Application

Sale to applicant

22(*a*) If there is but one applicant for the land, it shall be sold to him at the upset price of one rupee an acre

When more than one application is received for the same land

23 Should there be more than one application for the same lands before the survey or demarcation fees have been deposited, and should the second application comprise the whole of the lands contained in the first, the Sundarban Commissioner shall put the lease up to auction on the day named in the notice, and shall sell it to the highest bidder, but no person shall be allowed to bid who has not made such application, and no bid shall be accepted which is not *bond fide* on behalf of such person If the second application comprise a portion only of the land contained in the first, it shall be rejected

DISTRICT ROAD FUND

NOTIFICATION

No 74

The 24th March 1879.

UNDER section 89 of Act X (B C) of 1871, the following annual accounts and reports of the road-cess committees of Cuttack, Pooree, and Balasore, of works done and in progress during the past cess year 1877-78, together with the remarks thereon of the Commissioner, Orissa Division, are published for general information

A CADELL, *Major-Genl*, R E ,

Secretary to the Government of Bengal, in the Public Works Department

---

No 312, dated Cuttack, the 8th December 1878

From—H S BEADON, ESQ , Collector of Cuttack,
To—The Commissioner of the Orissa Division

I HAVE the honor to forward the annual report of the road-cess department for the year ending the 30th September 1878

2 Under the provisions of section 88, the accounts for the year have been submitted to the audit of a sub-committee specially appointed for the purpose, and have been considered by the district committee and passed on the sub-committee's report That report, it will be noticed, comments upon two matters connected with the management of the accounts, which were discussed, in my absence in camp, at the full committee meeting held on the 2nd instant

3 The first suggestion was based on a misconception, which the District Engineer or I could have removed had either of us been present The present system is by far the most economical and most effective yet devised, and as shown in the late District Engineer's report, and in a further report which I have received from the present District Engineer, for road maintenance repairs a small permanent establishment is the very best that can be employed. The fact that a length of road of some 40 miles has during the year been kept in excellent repair for Rs 3,01½, is sufficient answer in itself against the supposition of waste The sirdars are only coolies who get one rupee more for ruling the others and making them work. One mohurir for 20 miles of road is the least we can hope to work with

4 On the second point, concerning Behary Mohanty sub-overseer's additional pay of Rs 10, it has been ascertained that the irregularity has continued for some years, viz from the time when Mr Serres' predecessor, Mr Beck, was District Engineer, and before I joined the district The committee has decided that it should be included in the permanent list

5. The balance on the 1st October 1877 was, after deducting the amount at credit of deposits, Rs. 7,311 The receipts from all sources during the year being Rs 52,364, there was a total sum available for expenditure of Rs. 59,674.

6 The expenditure on all accounts has been Rs. 45,890, leaving a balance at the close of the year of Rs 13,784 This is for this district a large balance, and it is due to the fact that several original works that the district committee contemplated taking in hand at one time or another through the year fell through for want of sanction, want of estimates, and other causes beyond its control

7 As examples I may take the proposed Ersomah road (paragraph 15 of District Engineer's report) The estimate for this road was submitted to the Executive Engineer in April, but owing to change of officers and press of work no report had been received up to the close of the year Some land will also require to be taken up under the Act if it should be eventually decided to construct the road, but the present alignment, which follows the old track, is exceedingly bad, and further survey and estimates will be necessary

8 The construction of bridges and enlarging the slope of the Chandbally road north east of Pattamundie, as recommended by the Superintending Engineer, Mr Barnfather, and noted in paragraph 9 of the District Engineer's report, were to have been estimated for and undertaken during the year, but action was postponed in the hope that Government would admit this road as a work of provincial necessity Delay occurred in consequence of this reference, and even if it had not, that portion of the road now requires to be freshly aligned in consequence of the river having made for itself a new bed at Gurgoorish This alone would have prevented the work being undertaken during the year

9 Towards the latter end of the year, when it became apparent that a larger balance would be left than had been anticipated, the committee proposed to extend the metalled portions of the Chandbally and Taldanda roads, on which the traffic is excessive, but here again the work was brought to a standstill by the Superintending Engineer, who, in passing the estimates, expressed the opinion that it was better to sand-metal the clay portions and to mud-metal the sandy parts than to go to the expense of putting on laterite metal In consequence of this opinion, and a letter from the Commissioner desiring the committee to give the Superintending Engineer's views due consideration, these works were abandoned

10 The Konkhia to Jajpore road (No 4) was also left untouched for the same reason, that when the estimates were sent for approval the Superintending Engineer pointed out that the road was one in which great difficulties presented themselves In the short distance of nine miles it crosses four large rivers, and runs directly at right angles to the spill all the way He therefore considered that it would be waste of money to attempt to raise the way or to bridge it, and he feared that the bridge it was proposed to renew would be certain, sooner or later, to go the same road as the former structure He therefore strongly advised the road cess committee to wait until the Government may sanction the distributary of range No 2 of the high level canal before giving a more substantial character to the construction of the road and bridge The construction of this distributary will protect the whole country

11 You will observe that the expenditure has been incurred under the following heads —

		Rs
(1) Collection of revenue .	.	5,275
(2) Repairs . .		16,989
(3) Original works ..	..	16,734
(4) Engineering establishment		10,715
(5) Tools and plant ...		177
Total	...	45,890

12. Of collection of revenue the following points present themselves for consideration — The total expenditure, except on account of process fees for service of notices, was Rs 3,969, adding that expenditure, but deducting Rs 755 shown on the revenue side as obtained by fees, the net expenditure on account of collection was Rs 4,520 If contingent expenditure be wholly eliminated, as I contend it should be, in calculating the percentage of cost of collecting establishment, we have Rs 3,140 as a net expenditure upon establishment, against a demand of Rs. 56,342 and actual collection of Rs 52,364, or 5 9 per cent upon actual collections and 5 5 on demand If, on the other hand Rs 4,520 be taken as the cost of collection, the percentage is raised to 8 6 and 8 1 respectively Considering the enormous number of small tabling holdings in this district, the result is not unsatisfactory

13 *Repairs* —With reference to your letter No. 50CG, dated the 29th May last, I have pleasure in reporting that there is no difficulty experienced in the realization of the cess The obnoxious house cess has been remitted by Government, and the people have accepted this as a boon The benefits of the Act are certainly appreciated Distant parts of the district, hitherto neglected, are now opened up by village roads, and consideration of local wants is more readily obtained Mr Scares' report and the details given in statement No 6, Part II, fully describe the works under this head Of the amount which, after refunds, stood sanctioned for expenditure, viz Rs 18,905, Rs 16,989 were expended This result is satisfactory, as showing that the Engineer and his establishments have been attending to the first requisite of the law I will endeavour to deal below with each work under this head

The roads required are as follows —

No. 1, *Taldanda road* —Allotted, Rs. 3,018, spent, Rs 3,018. This road consists of two portions—metalled six miles, unmetalled 36 The metal repairs were chiefly carried out on the second and third miles, and are fairly done The earthwork repairs

consisted in filling gaps caused by flood, levelling the ruts, removing sand, sand-metalling clay, and planting creepers upon the sand drifts, which threaten in places to cover the road. Out of the total sum spent, Rs 517-7-0 were taken up in the maintenance and repair of the bungalows, and this excess of Rs 17-7-0 over the estimate is due to the fact that the chowkidar's pay for 13 months fell into the year under report owing to the prepayments allowed on account of the Doorga Poojah holidays

No 2, *Taldanda loop road*—Allotted Rs 100, spent Rs 100 A useful road near the race-course and in good order

No 3, *Fulnakra to Madhab road*—Allotted Rs 680, spent Rs 42 This road lies for the greater part on the outskirts of the Cuttack and Pooree districts, but its utility is chiefly for the Pooree district It was formerly repaired by the Cuttack district committee, and after three years the Pooree committee was billed Rs 1,132-5 0 for its share When the bill was received the Pooree committee pleaded temporary poverty, and stated that it would mind its own share in future The road is made of lengths in either district, and it was so eminently unsatisfactory that alternate portions should be repaired by the engineers of two different districts, that it was proposed to the Pooree committee that the Cuttack committee should give up the road altogether as a district road, on the understanding that if the Pooree committee would take it up, this committee would resign all claims to the amount of Rs 1,132-5 0, which were still unadjusted, and which that committee then owed another proposal was that the Pooree committee or this committee should have the sole management of the road, the cost being defrayed in the same proportions as before On the Pooree committee's accepting the first proposal, it was decided that the charge of the whole road be made over to the Pooree district, and the claims upon that committee for Rs 1,132 5 0, due to this district for work performed be withdrawn Hence the road has been transferred to that district It appeared to me that the matter should be referred for sanction but as the Chairman of the Pooree committee considered it was not necessary, the matter rested there. It was duly recorded in the proceedings and copy sent to your office

No 4, *Koakhia to Jajpore road*—Allotted Rs 865, spent Rs 559 Repairs at breaches by sloping the roads and making a diversion at the 9th mile, where the bridge was carried away some years ago This road is treated more fully under "Original works" in the District Engineer's report It is a very important road, but any expenditure upon it beyond the most trivial surface repairs would, as shown above by the Superintending Engineer, be simple waste of money The district committee could well afford to pay Government Rs 5,000 towards an embankment on the left bank of the Buri nullah to protect this road in common with the country, till that is done, works great or small will be labour lost

No 5, *Chandbally road*—Allotted Rs 7,239, spent Rs 7,030 This road has been kept in repair by a regular staff of coolies between Cuttack and Pattamundie, in length 48 miles For this an establishment of 37 coolies, 9 sirdars, and two mohurirs, have been entertained, and this with huts, &c, cost Rs 3 0 1 The results over this length of the road have been most satisfactory The late District Engineer, Mr Serres, records "I have known the Chandbally road for five years, and have never seen it in such good order from Cuttack to Pattamundie as when I last saw it," that is, at the close of the year The saving on establishment was devoted to repairing the metal portions of the road with great advantage The causeways were repaired to a great extent and cheaply The District Engineer having purchased bricks from the old clamps of Messrs Stoney and Co (formerly irrigation works contractors) at 18 per cent below estimate, this enabled him for the money to execute more work Beyond Pattamundie repairs were carried out in the ordinary way at an actual cost of Rs 2,544, ruts and breaches being filled in or sloped earthwork, turfing and sand-metalling being adopted The distance is 16 miles and the results poor, and in strong contrast to the condition of the 40 miles of the road on which the permanent establishment is kept up We can hope to do nothing with this road beyond Aul at present in the way of repairs It is an original work, and will be discussed under that head

No 6, *Falirpara and Machgong road*—Allotted Rs 1,482, spent Rs 1,482 This road was before last rains in very good order, but it has been terribly cut up Like other roads of this district, it suffers much from the surplus irrigation water, and is constantly cut by the ryots to suit their own convenience of receiving or getting rid of water Sand metalling was attempted, but not sufficiently for any permanent success Beyond Jugguteingpore the road is absolutely impassable in the rains, as I know when on my cold-weather tour a few weeks ago I essayed to go to Balikooda and was turned back Until the irrigation department brings its surplus water under control and declares certain channels drainage channels under Act III of 1876, some of our roads must be cut up and rendered impassable each rainy season

No 7, *The Mahanga road*—Crosses the drainage between the Pattamundie and Kendrapara canals Formerly a road here would be breached occasionally in a flood It is now subject to steady excess of water It is hoped that the drainage is to be taken in hand by the irrigation department Rs 115 were estimated for the repairs of the road, and were spent The road, however, is only a fair weather road

No. 8, *Kendr para loop road*—Allotted Rs 60, spent Rs. 60 This trifling expenditure referred to the bridge over the Gopia nullah The road has now been transferred to the Municipality under orders of Government, No 1958, dated 21st May 1878

No 9 (*formerly Nos* 9, 16 *and* 29) *Jajpore and Kendrapara road*—Allotted Rs 1,020, spent Rs. 915 Three bridges were repaired, slopes made at the breaches, and the road smoothed

This is another road which crosses the entire drainage of the country It is a useful road and cannot be abandoned, but it is liable every year to floods from the Byturnee, Burra Khursoonh and Brahminee between Jajpore and Indpore, and from Indpore to Kendrapara it crosses the drainage from the irrigation operations of the Pattamundie and Kendrapara canals It is hopeless to expect to keep this road in order during the rains, and the best that can be done is to make it traversable by carts during six months of the year, fully assured that the repairs of one year will be entirely annihilated before the next cold season comes round

No 15, *Burwan to Indpore road*—Allotted Rs 530, spent Rs 446 This road is always badly breached year by year by the Khursoonh The District Engineer proposed large expenditure on the road, but the committee, viewing the waste of money that had occurred in trying to close the breaches (efforts which regularly resulted in a worse state of affairs than had existed previously), abandoned the attempt of doing more than preserve it as a fair-weather road. Repairs of the year have been carried out with this object

No 17, *Indpore to Pattamundie road*—Allotted Rs 550, spent Rs 533 The late District Engineer has not furnished any report as to the state of this road, and I have not yet had time to inspect it Since writing the above I have received an unfavourable report on the state of this road, and a very favourable report on the Indpore and Kendrapara portion of No 9, noted above

No 18, *Juggutsingpore to Jajpore road*—Allotted Rs 180, spent Rs 180 This road would be a most useful road in the rains if it could be kept in repair, but this will be absolutely impossible without large expenditure It crosses the drainage of the country from the end of the Machgong canal to the point where the Katgurh formerly sent a branch to meet the Mahanuddy In those days it had to contend against the natural drainage of the small area of country and the occasional breach of the Kaguri eastern embankment This latter evil has been removed (as noted in paragraph 18 of the District Engineer's report), but only to our increased trouble, for distributaries Nos 8 and 9 of the Machgong canal, and No 10, which in reality is the canal itself on a smaller section, send down the whole of their water all over the country The excess water stands over the country until the end of December, owing partly to the causes named and the irrigation and fishing bunds raised by the people themselves The ryots holding low lands above, or westward of the road cut the road exactly as it pleases them, and it is consequently continually destroyed The Buri nullah has to be crossed nearly midway, and on the northern side of the gap there is a considerable cart traffic I have no doubt this would be the case throughout if the road were properly bridged The present District Engineer has been requested to take the road into immediate consideration

No 19, *Juggutsingpore to Sojung, and from Sirlo to Rughoonathpore*—Allotted Rs 160, spent Rs 127 Two unconnected pieces of road in a fairly straight line running from Juggutsingpore across the combined drainage of the Machgong and Taldinda canals to the principal outlying village of the thana It would cost much to complete it It is in a terrible state for seven months of the year, and can only be considered a fair-weather track The merit of keeping it up is chiefly the preservation of the right of way, in the hope that funds may be available for the construction of a better road with sufficient waterway at a future date

No 41, *Jobra and Chowlianguny road*—Allotted Rs 400, spent Rs 398 The road is in good order It was formerly within the municipality, but has now been excluded. Part of it may possibly merge into the proposed provincial pilgrim road

No 44, *Golarahat road*—Corrected allotment Rs 234, spent Rs 233 A bridge was built on this road and some petty repairs executed The road crosses the canal drainage, and for five months of the year is in a terribly bad state It must be repaired each cold weather

No 46—This road was made over to the committee under the orders of Government No 558, dated the 19th September 1877 It is part of the main road to Sonepore and Sumbulpore, and should, as well as the Chanduilly road be classed as a provincial road It is valuable to the town Cuttack trade, and of great value to the tributary estates and Sumbulpore It is of no value to the Cuttack district, except the small portion called Domepara, which could be served by village roads Provision had to be made for it from other sources, and Rs 1,137 were expended on it It has been lately inspected by the present District Engineer, whose report shows that this large expenditure has gone very little way towards making the road a good one It had been steadily neglected for years, and is now impassable for cart traffic As you are about to tour over it, you will be able to express your views regarding it from personal knowledge

ORIGINAL WORKS

14 *Village Roads*—Foremost in original works, from the magnitude of the grant and the importance Government attaches to the necessity of creating and fostering local interest in the management of road administration are the village roads

In the annual resolution upon the operations under the Road Cess Act during 1876-77, which reached me with your memorandum No 253C(r, dated the 24th October last, *i e* after the close of the year under report I find Cuttack is mentioned in paragraph 31 as conspicuous for its inadequate grant for village roads It was shown that in 1875-76 Rs 594 were laid out on village roads, and in 1876-77 Rs 1,509 only, out of a total estimated expenditure of Rs. 1,700 During 1877-78 it was originally proposed to expend Rs 10,000 upon these roads, but in consequence of instructions from your predecessor the grant was reduced to Rs. 8,150,

and of this Rs 7,446 have been actually paid, Rs 144 having been transferred to another head. Of this sum, allotments were made thana by thana, but the management of the allotments for Dhurumsalla, Jajpore and Aul thanas rested with the branch committee of the Jajpore sub division, and for the Kendrapara and Pattamundie thanas, with the committee of the Kendrapara sub-division This made the three subdivisional allotments as follows —

	Rs.
Head-quarters (comprising four thanas)	3,500
Jajpore ditto three ditto	2,000
Kendrapara ditto two ditto	1,750
Total	8,150

Of the disposal of the subdivisional grants I can write with exceeding pleasure Mr Farrer, the Chairman of the branch committee at Jajpore, has taken the greatest interest in the judicious management of his grant He has made eleven village roads, all tending to open up the country and to be of the greatest utility to all interested, and has exhausted the grant, except Rs. 8 The full details will be found if required in his report, copy of which I forward for your perusal, but it would make this report too long if I were to recapitulate regarding each village road It will be noticed that Mr Farrer finds the members of his branch committee, and the native gentry generally, most willing to be of assistance, but at present they require much direction A native gentleman can superintend the building of a pucca house of the ordinary stamp, and would probably do so with economy, but he is moving on strange lines when he undertakes to make a road The good old Bengali proverb, that we learn to shave by cutting other people's faces, is as true of the road-making Oriya gentlemen as it is of the successful candidates for the Indian Civil Service, but the native landholders are undoubtedly useful for the work, and by interesting them, and giving money for roads they require, there is little occasion to acquire land under the Act

Babu Annoda Prasad Ghose spent the whole of his grant, with the exception of Rs 223 There was, however good reason for the non-expenditure of this sum A road connecting Golara hât with the Kendrapara road was found to cross a piece of cultivated ground Letters had to be written to all the proprietors and their consent obtained to the grant of this land for the purpose By the time this liberal concession had been obtained the crops for the year had been grown, and it was thought desirable to consult private interests so far as to postpone the occupation of the land until the present crop is off the ground But though this small sum lapsed, there are far more hopeful signs to be recorded In one case the villagers agreed to supplement the grant with Rs 50, and in another case Babus Juger Nath Bromobar and Ram Gobind Jagdeb subscribed Rs 750 and Rs 300 respectively for the construction of substantial wooden bridges and masonry culverts I have no doubt that liberality to the branch committee will be a most paying policy People, when they see that money is forthcoming and energy present to start and preserve combination in carrying out works of public utility, will readily join in the common object Timidity is at present our greatest obstacle The Deputy Magistrate's description of the resuscitation of the old Mahratta road from Tomlalo Sasan to Gugoonh shows what extremely useful work a sub committee can do I now come to the head-quarters sub-division, and as regards this I have been dependent on the District Engineer, the members of the committee, and zemindars The plan pursued has been, at the commencement of the year, to invite suggestions as to roads required, the agency by which the repairs or constructions can be carried out, the amount required, and the local contribution (if any) tendered Upon the replies to this circular the money was allotted An accompanying statement shows the amounts expended, giving a total for head-quarters of Rs 3,007 It will, however, be noted that of this sum Rs 500 was given to Executive Engineer, Mahanuddy Division, for the clearance of a tow-path from Taldanda to Bhutmundi and Paradeep, a distance of ten miles It was a large sum of money to grant from village road funds, justified only by the professional hands to which its expenditure was entrusted and the number of villages it passes It serves very considerably the public convenience, and I had no other prospect of spending the village road allotment within Tirtole thana during the year

15 *Tree-planting* —Mr Serres' report, paragraph 20, deals with the subject of expenditure on account of tree-planting The grant for the year was Rs 1,500, but Rs 34 was expended in addition The young trees within reach of the head-quarters are getting on very well, and some are being planted out At Jajpore, too, some plantation has been carried out The measures taken this year are chiefly in making good the losses in lines previously established, and in preserving and fencing all The tree planting should be pushed on wherever there are permanent avenues entertained for repairs of the road, and the young trees should be placed specially under their charge

16 For other original works Rs 24,712 have from first to last been allotted, and of this Rs 7,752 only have been expended many causes have been combined to produce this inferior outturn Some I have mentioned above, but the most important has been the uncertainty as to the result, whether the committee could retain Mr Serres' services or not While working conscientiously at all repair work and the original works, such as village roads, tree-planting, and the committee's office at Cuttack, it was not to be expected that Mr Serres would enter heartily into new schemes, which he would in all probability be unable to mature,

and which, unless matured, would be almost useless to my successor Knowing moreover, that if forced to dispense with Mr Serres' services, the committee would be obliged to secure an Engineer of higher qualifications I was disposed to press for new schemes, knowing that the money would be available in the coming year

17 The District Engineer has, however, not been idle Paragraph 3 of his report will show that a thorough survey and estimates for reconstructing the broken bridge on the Kooakhia and Jajpore road has been prepared during the year This work will probably have to stand over for many years, for until the Byturnee and Kursooa are thoroughly embanked, it would be a waste of money to repair the bridge, but Mr Serres' proposal will receive the consideration of the committee

18 The following works have been proposed for the ensuing year, but I do not think all of them can be taken up, as I shall show against each —

(1) Diverting and making the last nine miles of the Cuttack and Chandbally road This road is very much for the district It should really be a provincial road, but as Government has decided that it is unable to assume the responsibility of its construction and maintenance the district committee should most certainly take it energetically in hand Any alteration of route which Government may in future establish by means of canals or levées will have no more effect on the traffic of this road than the under-road railway have had in London on the traffic of the streets above them The weekly steamer that plies to Chandbally at present, and the boats that may come and go on the canal, can in no degree be substituted for this road It passes through the most densely populated part of the district, and the road and canals will reaction each other in creating and increasing traffic It should be borne in mind that in the course of the next 17 years all the expenditure which would ordinarily occur in the course of the next 40 years should, if possible, be laid out, for by it the price of produce will be enhanced, cultivation extended, and the Government revenue enormously increased But this road must doubtless follow the left bank of the Kursooa, instead of, as at present aligned, passing through the loop on the right bank

(2) Contribution to the Orissa creeks

(3) Construction of masonry culverts on the Taldanda road

(4) Ordinary repairs and construction of the village roads

(5) Ordinary maintenance and repairs of district roads, including bridges and causeways

(6) The Patpore bungalow

(7) The bridges on the Jajpore and Juggutsingpore road

19 The road cess office has been completed sufficiently for occupation during the year, and has proved a great convenience to all parties The work has been carried out, I understand, satisfactorily, but I have called for report from the present Engineer

20 Rs 2,300 were made over to the Executive Engineer, Brahminee and Byturnee division, for the opening of khals in the line of the tidal canal from Calcutta to Pooree

21 The other works, viz culverts on the Chandbally road, a bridge on the 39th mile of same road, and two bridges on the Jajpore and Kendrapara road, are all detailed in the accounts accompanying, and full information is to be found in paragraphs 2, 6, 7, and 8 of Mr Serres' report

22 Statements accompanying show the attendance of the members of the committee There is little to be added here to the remarks that I have recorded previously I find the greatest assistance in consulting the non-official as well as official members, and they are all ready to express their opinion freely when asked Attendance at the sub-divisional or branch committees is a more irksome duty than at head-quarters, for the non official members are not residents of the sub divisional town The return, however, shows that great improvement has taken place this year over the preceding Mr Lister too, notes that though slow to attend meetings, the non official members take interest in their work and give him considerable aid

The Executive Engineers (there are two since the general branch of the Department Public Works was entrusted to the Irrigation Department) have attended as follows —

	The number the Executive Engineers could have attended	The number Executive Engineers did attend
Mr Beatty—up to the 30th April 1878	4	1
,, MacMinn—since the above date	3	3
,, Campbell, ,, Rhind, } ditto ditto	3	1

Due notice was given on every occasion

The committee desire to express their thanks to Mr Serres, the late District Engineer, for his good services during the past two years and a half, and their great regret that they are obliged to part with him They also desire to express their approval of his activity and zeal.

In conclusion I have the honor to report that as head clerk of the road cess office, Baboo Gunesh Persad Singh has worked hard and well, and has brought into good order again the office, which had suffered during his temporary deputation in the license-tax department

H S BEADON, *Chairman, Cuttack Road Cess Committee*

Copy of para 2 of the Cuttack Collector's No 335, of the 10th January 1879

PARA 2.—I have already remarked on the work of the District Engineer and of the head clerk in the latter part of paragraph 22 of my report I now have the honor to report that both working and collecting establishments have given satisfaction

No 14, dated Jajpore, the 14th October 1878

From—H FARRER, Esq, Covenated Deputy Collector of Jajpore,
To—The Collector of Cuttack

I HAVE the honor to submit a report on the working of the Jajpore branch road-cess committee during the year 1877-78 now just expired

As a separate concern, I may first note Rs 120 sanctioned by your committee for planting and maintaining trees on the district road near Jajpore town The whole of this sum has been expended The purchase of two mail carts cost Rs 84 The rest was expended on the construction of gratings, &c I have already made known what I think of the results hereby obtained in my No 12, dated 3rd instant I therefore beg the favour of your referring to that letter

2 The amount originally sanctioned by your committee for the construction and repair of village roads in this sub-division was Rs 2,000 On the 17th of April last however, you favoured this branch committee with a cheque for a further sum of Rs 100, to be spent for improvements in Sasunda, or in some place north of the high-level canal Thus altogether Rs 2,900 was placed at our disposal This sum was finally allotted as follows —

	Rs	A	P		Rs	A	P
Imamnagar	300	0	0	Bajpur road	90	0	0
Korai	715	6	7	Mangalpur	100	0	0
Rambag to Palda	300	0	0	Markandapore	170	0	0
Rambag	100	0	0	Sasunda ...	135	0	0
Champamarai and Sreeeburpore road ..	287	2	5	Amarapore .	121	6	9
				Subinda .	550	0	0
				Total ..	2,900	0	0

3 I will first refer to the roads the expenditure on which I myself, as Chairman of the Branch Committee, personally superintended The road I have called the Imamnagar road is perhaps as important a road as any in the whole district It connects Imamnagar locks on the high-level canal with the trunk road, about half a mile below Dharmasala As many as 25 or 30 carts a day pass over it even at this season of the year, which is a much greater number than you will find on the trunk road itself It is also a route along which firewood is brought from jungles, and several hundred foot-passengers travel it daily It is almost three miles long There was a sort of a road before, but scarcely passable for carts It is not yet all that could be desired, but there is no doubt that much improvement has been effected. The Sub-Inspector of Dharmasala superintended the work

4 The Konan road is five miles long This is another limb of the trunk road, which it joins at Manipore, in pergunnah Shergarah The greater portion of the road traverses a high ridge of land hence the small expense at which it has been constructed It is a very useful road, but must be extended up to Pachekote Carts will then be able to bring timber and other produce from Keonjhur and other Hill States

5 Rs 500 was allotted by the committee for clearing a route from Mantera to the Sukindagur The distance is about 12 miles, and there was thick jungle for more than two-thirds of the whole length Jungle has been cleared the whole way, and for a breadth of ten feet on the centre of the clearing the roots have been taken out. Of course where there were such difficulties in the way, so small a sum spread over so large a space has only left a mere scratch on the surface of the ground There is, however, now some sort of a road for carts where before there was no road at all It is unnecessary for me to say that a road there was much needed The Sub Deputy Collector, Moonshee Dildar Baksh, has given me much assistance in carrying out this work The Sukinda tehsildar has also done some service

6 The Balighan road is the road connecting Jajpore town with Balighan Ghât Great damage was done to this road by the floods of 1877 The damage has been repaired, and the road is now in a most excellent condition It would be a work of very great advantage to both districts if the Collector of Balasore could be induced to repair his road from the Balighan Ghât to Chatabar, as this would be another link between Jajpore town and the trunk road

7 Mahuregaon road connects the port of Mahuregaon with the Chandbally road at Barda It is somewhat less than a mile long This will be a very useful connection as soon as the Chandbaly road can be travelled

8 Awascepore is a village in pergunnah Kalamatea, large and populous The new road connects it with the Binjharpore Indpore district road The distance is short, but the route is perilous, as I now find it is subject to most destructive floods from the river Brahmanee The allotment was made at the request of all the villagers

9 The above is a brief description of the roads kept in *khas* management The roads under private supervision were—

(*a*) The road from Rambag to Palda The distance is about two miles, but one quarter mile has not been completed The road goes through low-lying paddy-fields the whole way, but it is of course very desirable to connect such a large and important village as Palda with the town Chowdhury Sahadeb Mahapater had the management of this

(*b*) The Rambag road required a good deal of repair Baboo Dayaneedhee Panda received Rs 100 for the purpose of improving it It is in a better state than it was, but the Honorary Magistrate of Rambag is still far from satisfied with it

(*c*) The Chumpamara and Sreedharpore road is designed to connect the village of Champamara with a chain of important villages lying in the angle between the Binjharpore and Rambag roads It crosses a low tract of country, and joins the Rambag road near Rambag The distance is considerable, as may be seen on the map, and nothing more than a mere foot-path has been constructed It would not be advisable to construct anything better here, as the country is subject to heavy floods. Baboo Shoebo Prasad Das has superviséd this work

(*d*) Markundpore road, } Pergunnah Teesanees
(*e*) Sasunda road, }

These roads have been under the management of Narahare Dobye. They are both of them links connecting the Binjharpore district road with important villages The Sasunda road is about a quarter of a mile long, and is entirely new The Markundpore road existed before in an unfinished state The Sasunda road will be chiefly used as a village path, but the Markundpore road is designed to be a cart road, as well as useful to all foot-passengers On the latter road one bridge has been constructed this year, and Rs 99-12 spent on earthwork

10 In all the work done by native gentlemen I find a great disregard of the elementary truth that the shortest distance between two points is a straight line I also find that they let out the work on contract, and are very much at the mercy of the contractor This is very unfortunate, as all these petty contractors have remarkably oblique conception of honesty. Of course they are very glad indeed to get the road always, but would much prefer to have it constructed for them, as they are seldom competent to direct the work. They certainly are very zealous, and if the District Engineer, when on tour, could manage to visit and give

them instructions occasionally, their zeal would be tempered with much more discretion I should also be very glad indeed if the District Engineer would, whenever in the neighbourhood, inspect any work going on under my management When the road is at a considerable distance from my head quarters, I have of course very few opportunities of inspecting it, and in this way things often go very far wrong

11 There have been three road-cess meetings during the year, at which the attendance was 8 7 and 7 and 7 respectively Other meetings were fixed, but a quorum could not be got to attend The difficulty to get together a quorum does not arise from the absence of interest in the work, but very often from *bona fide* inability to attend on that particular day I have therefore found it convenient to do business very often with one or two members at a time By inviting each member to make suggestions whenever it is convenient for him to do so I obtain from each individual all that he knows of the requirements of the sub-division The circumstances of a branch road cess committee like this are somewhat different from the circumstances of the district committee Your members are mostly residents of the town Many of the most important members of this committee reside at a considerable distance I am therefore very unwilling to have it said that the members here take no interest in the work, because they do not attend the committee meetings

12 On the 7th August last I received a cheque from you for Rs 20 as an advance for the payment of boat and manjhee hire for the Madhua nullah, on the Kooakhia road Out of which sum Rs 9-14 was expended on boat hire and pay of manjhees, and the balance refunded to the treasury on the 27th ultimo

No 18, dated Kendrapara, the 25th October 1878

From—BABOO ANNADA PRASAD GHOSE, Deputy Collector, Kendrapara,
To—The Collector of Cuttack

I HAVE the honor to submit the annual report of the local works executed during the cess year ending on the 30th September last, together with the prescribed statements A and B

2 A sum of Rs 1,750 was placed at the disposal of the branch committee for the construction and repair of village roads, of which Rs 223-1 3 had to be refunded on the last day of the year, being the unexpended balance of the sanctioned amount Rs 200 out of the amount refunded represent the estimated cost of a road which was proposed to be taken from Chandole to Gobrahat across country, there being no outlet from the latter place to the trunk road during the rainy season except *via* Kendrapara, a long detour, and at times attended with much inconvenience I inspected the site of the proposed road during my last cold-weather tour, and wrote to the Rajah of Aul and some other proprietors for a bit of cultivated land through which the road was to pass, to avoid future complications The land is about half an acre in all and all the parties concerned, I am glad to say, have voluntarily given up their respective portions free of cost By the time, however, that the last reply was received, the ground was under crop, and it was thought inadvisable to commence the work then, as it would have involved payment of compensation to a number of ryots for loss of crop for which the branch committee had not sufficient funds This circumstance explains why the amount of Rs 200 had to be refunded, and not that the branch committee could not expend Rs 1,750 during the year

3 It will be seen from statement A that on some of the roads, *viz* Nos 8 15, 16 and 17, the expenditure was much greater than the amount entered by the branch committee With respect to No 8, the original grant was Rs 200, the villagers having agreed to supplement it by Rs 50 on account of accidental conflagration having destroyed the whole village, the people could not make good their promise, and the committee managed to meet the excess from the amount set apart for contingencies With reference to roads Nos 15, 16, and 17, the excess expenditure of Rs 1,050 has been contributed by Baboos Juggernath Bromarbur and Ramgobind Jugdeb in the proportion as shown on the margin These roads pass through their estates, and are calculated to benefit not only their own tenantry, but the public at large The thanks of the road-cess committee are due to them

	Rs
Baboo Juggernath	750
„ Ramgobind	300

4 All the works executed by the branch committee during the past year are new ones By far the most important is No 15, which strikes off from the Chandbally road from near the Gogoosh bungalow and, passing nearly in a northerly direction, connects it with Tumbalo Sasun and Chundunpore, two important villages in pergunnah Chowdkulat Tumbalo is midway between Indpore and Pattamundie on the Pattamundie canal, and people from Chowdkulat and places beyond the Brahminee, who had occasion to come to Kendrapara during the rainy season, had to do so either *viâ* Pattamundie or Indpore The construction of this work has really been a boon to the people Properly speaking, the road is not a new one, for it existed during the time of the Mahrattas, and had nearly disappeared for want of repairs and by gradual encroachment of the ryots holding land along its sides Portions of it, however, still existed, and no difficulty was met in tracing it A good substantial wooden bridge of four spans of eight feet each has been put up on the *jore* adjacent to the bungalow I had at first intended to allow a

waterway of 16 feet, but with the advice of the late Mr Campbell I doubled it, reckoning upon the assistance of the two gentlemen named above, and with their liberal aid I succeeded in accomplishing the work Roads Nos 8, 9, 17, and 18, are also important ones, being feeders to the main trunk road No 14 is a great local improvement Between the Pattamundie bungalow and police station there was a great gap, which was almost impassable during the rainy season The gap has been closed and a pucca culvert made for the drainage of the spill waters of the Chota Brahminee during the freshes The whole of the road passing by the thana and the post office has been repaired under the superintendence of the naib of Pattamundie, a member of the branch committee

5 I cannot help bringing to your notice in this place the trouble I had last year to get accounts and returns from some of the parties entrusted with the execution of the works allotted to them Being entirely a labour of love, I was unable to bring any pressure to bear on them Some of them left the works for months together on their private business, and I had to send in some blank returns, although work had been going on under karpardars, who would on no account submit any return in the absence of his master Difficulty was also experienced in supervising some works which, in the absence of any respectable people to undertake them, had to be let out on contract The municipal overseer had to be deputed several times last year to measure up the earthwork done by a contractor and prepare the accounts All these difficulties would be obviated if one of the road-cess sub-overseers were posted here He will look after the district roads and assist the branch committee occasionally I request that this subject may have your consideration, so that the branch committee may not experience the difficulties complained of during the current year

6 Statement B speaks for itself I am sorry to have to confess that, with the exception of one or two members, none of the others took that degree of interest in the work which it is the desire of Government that they should, and it is to this circumstance that there was no quorum in one of the two meetings held during the year From the very nature of things the members of a branch road-cess committee must come from different parts of the sub division, and members, being far off from head quarters, consider it an irksome duty to attend committee meetings, though few and far between The irregularity of attendance is attributable partly to this cause also I hope the results of this year would be more satisfactory

CUTTACK ROAD CESS OFFICE, *the 8th December* 1878. H S BRADON, *Chairman*.

Copy of District Engineer's Report No 32, *dated 20th November* 1878.

1 I AM sorry to have to report that of the large allotments in last year's budget for original works only four estimates were submitted and passed, and allotments were made from reserve for the completion of three other works.

2 The first was an estimate for Rs 250 for a culvert at the 3rd mile of the Chandbally road. This estimate was sanctioned the year before last. Rs 1,610 were allotted for culverts on this road this year, but as the discharges required were not ascertainable, the estimates could not be framed. The work executed cost Rs 238 15-9.

3 The second estimate passed was for diverting the Mathura nullah channel from where it passed under the timber bridge on pass at the 9th mile of the Kookuna and Jajpore road to the breach and brick bridge in the same mile. The estimate of the work was Rs 825 and the total cost Rs 772-5-8. The budget allotment for this work was Rs 6,821. This included the closing of the breaches and reconstructing the bridge of several spans sufficient waterway for the spill water from the river. The work executed is only a small part of the scheme, and it will be observed that the pay of the draughtsman and the cost of surveying, &c, amount to almost half of the estimate.

The draughtsman was employed in copying the irrigation plans of the Byturnee river from Aquapuldu, or from where the "Buda" river bifurcates, to Jajpore and on to Kuttikutta and Chandbally, from Aquapudda to Tajpore to show the direction of the river and the points where the water spills over the country, and from Jajpore on to Kuttikutta for the Jajpore and Chandbally road. Besides this he has copied plans of all other works done last year, and proposed to be done but not yet sanctioned. His pay should have been charged under the head of each separate estimate, but I found that it was not likely that all the estimates could be sanctioned, and so charge his pay to the estimate on which he expended most of his time. When I recommended that a large allotment should be made for the reconstruction of the broken bridges, &c, on the 9th mile of Kookuna and Jajpore road, I had very vague ideas as to what was necessary, as no plans, &c, were to be had, and I had only been over the country once (nothing can be seen by simply going over the road).

I have now surveyed the road, had all the water channels that led to the breaches and broken bridges surveyed, cross sections taken of the land above and below the breaches (to calculate the discharge), and a copy of the irrigation survey of the river bank made The plotting of this work is not complete I see but three courses open in treating this scheme

The first and most expensive one is to reconstruct the bridges adding new arches to the three existing arches (pulling down the old arch which is cracked) until the required waterway has been obtained

The second and cheaper way is to make a large double causeway sloping from the broken bridge into the breach, so keeping the large breach open and rising to the top of the two-arched bridge down into the opposite breach and up to the road I am not certain that the second breach could not be closed I have only calculated the discharge approximately, so place no dependence on it

The third, and by far the best, course is to embank the river and so protect the road and the country, then I am certain that the existing part of the bridge will be found quite sufficient to pass the drainage of the country, and the breaches might be closed after making an abutment and wing walls to the arch left exposed The Irrigation Department propose making an embankment along the right bank of the Byturnee to protect their distributaries If the embankment be produced down the left bank of the Buda it will not protect the country, but this portion of the road The road-cess committee might subscribe some portion of the cost of embanking these rivers, and it would pay them to do this rather than to go in for a heavy expenditure in making either a bridge or causeway The Superintending Engineer is quite right in his remarks, on passing the estimate, that the road was a very difficult one to deal with, as it crosses the drainage of the country at right angles Consequently the spill water of the rivers passes either over or under it, and not only this, but it crosses the river Khursuah, the river Buda, and the Keah nullah in the short distance of ten miles The Doodia nullah is crossed by the 19th arched bridge I am sorry to say that the road is not the worst laid out road in the district, but it is one on which most expenditure has been incurred The road is a most important one, as the pilgrim traffic on it is enormous A better alignment perhaps might have been from Hautsye bridge, where the trunk road crosses the high level canal, or from the left bank of the Khursuah opposite Khunditur, along the left bank of the Khursuah a short distance and then branching off and keeping along the high land to the point where the Koakhia road now crosses the river Buda, so abandoning five miles of the road and the 19th arched bridge across the Doodia nullah This would save the cost of maintaining all the seven causeways and a number of culverts which are more or less out of repair The disadvantage of this route is that it strikes the trunk road about six miles further from Cuttack, and you would still have the Khursuah to cross, but by a much better ferry The last five miles should be enclosed by the embankment above mentioned

4 The third estimate sanctioned was for a pucca bungalow at Patpore, on the 17th mile of the Soneport road The estimate is Rs 1,316, and this amount was to have been expended out of the allotment of Rs 1,660 made for a pucca bungalow at Ostiah, on the 64th mile of the Chandbally road An estimate was framed and submitted for the above amount, but the committee decided that it was a large sum to expend on a building required only now and then by an officer on duty The District Superintendent of Police said that he thought that a building costing about Rs 300 was quite sufficient for the purpose, and that he would undertake to build a bungalow with sufficient accommodation for that amount The committee availed themselves of the offer and said that the balance might be made use of in constructing a bungalow on some other road hence the estimate, which was sanctioned so late in the season and year that no work could be undertaken

5 The road cess and municipal office, for the completion of which a grant of Rs 2,229 was made in the budget, was not completed within the road-cess year The contractor having failed to fulfil his contract, the work had to be completed departmentally There was not much work remaining to be done, and what there was has been completed since, though the completion report has not yet been submitted Of the allotment for 1876-77 of Rs 2,000 only Rs 1,346-12 was spent, leaving a balance of Rs 653-4, and for the year 1877-78 Rs 2,229 was allotted This sum would not complete the work, so the balance from 1876-77 was asked for to be transferred, making a total sum of Rs 2,882-4, of which was spent this year Rs 2,782-3-2, leaving an unexpended balance of Rs 100-0-10 for the completion of this work I have written to the Collector and Chairman stating that this sum will probably not suffice, and that the estimate might be exceeded by Rs 100 or so This is on account of the contractor having made double doors and windows when only single doors were estimated This extra work was done on the contractor's own responsibility, and he might be ordered to remove the extra work, but as I thought I might be able to cover the extra cost out of contingencies, I suggested that they might be allowed to remain Now that the work is complete I do not think that the estimate will be exceeded by the sum mentioned

Of the three works for the completion of which allotments were made from Reserve

6 The first is the 59th mile timber bridge on the Chandbally road The estimate and plans of the bridge were passed during the year 1876-77, and as the work was not completed during that year an allotment for the unexpended balance was applied for and was transferred from reserve (Rs 742-8-3) The bridge was completed for Rs 619-8-8 The total estimate was Rs 1,485, and the total cost Rs 1,292-0-5 The bridge is a timber bridge on piles, and replaces the rotten timber and palmyra bridge on the 39th mile of the Chandbally road.

7 The second is the timber bridge on the 10th mile of the Jajpore and Kendrapara road, on the portion between Bunjarpore and Indpore This bridge spans the Samiah nullah. The estimate for this bridge was passed in 1877-78, and during that year only Rs 733-4 of the sum was expended, as a lot of bad work was rejected and had to be re-done An allotment for the balance, viz Rs 476-12, was applied for, the total estimate of the work was Rs 1,210, and the total cost Rs 1,208 Though the bridge has been built on the worst laid-out road in the district, and though there are no carts in this part of it, I think the sum has been well laid out, as the bridge is a great boon to the cultivators of this vast water-logged area Foot-passengers, oxen with agricultural implements, and pack-bullocks, pass all the year round The traffic during the rains is only local at present, but hopes are entertained of opening up this part of the district when the country is more protected by the rivers being controlled

8 The third allotment was for the completion of the timber bridge on piles on the 25th mile of the Jajpore and Kendrapara road, that portion between Indpore and Kendrapara The bridge is across a large breach in this road, five miles from Indpore, the spill water of the Gobri river and the drainage of the country pass under the bridge The estimate was submitted and passed in 1876-77 Only Rs 700 of the amount was expended on account of bad work not being passed, the balance was asked to be allotted from reserve Of this sum, viz Rs 502, Rs 225-6-11 was spent in completion of the work The total estimate was Rs 1,202, and the total amount expended on the work was Rs 9[illegible]5-6-11 The saving shown in the 39th mile bridge on the Chandbally road and the 25th mile bridge on the Jajpore and Kendrapara road is accounted for by the contractor having failed to complete his work It was finished departmentally, and a bulk of the contingencies was so saved Besides this, a lot of round timber was saved in the retaining piles

9 Rs 1,151 were allotted in the budget for 1877-78 for increasing the slopes of the road from 2 to 1 to 3 to 1, from the 58th mile to the 65¼th mile of the Chandbally road,

Rs 5,217 were allotted for four new timber bridges with masonry abutments for the 58th, 59th, and 60th miles of the Chandbally road,

Rs 1,8[illegible]1 were allotted for constructing masonry abutments to three timber bridges on the 40th, 43rd, 64¼th miles of the Chandbally road

The above sums were not expended, as the estimates had not been submitted The works all referred to the Chandbally road The committee, at their meeting on the 15th of March 1878, decided on petitioning Government to take over the road, and, pending a reply to this letter, the bulk of the original work estimates were suspended, although the data were collected

10 The first two allotments above mentioned are for the worst portion of the Chandbally road, and were suggested by the Superintending Engineer, Mr Barnfather, in his report on that part of the road before the great break in the Gurgoria nullah had occurred The Gurgoria nullah, as you are aware, is a channel running through the narrow bank of land formed by the loop of the Khursuah river The road from Aul to Ganja was unfortunately taken across this channel, and along the land surrounded by the river A glance at the map will show that the river during floods must bank up at this point and overflow the country, and no embankment could be expected to stand across such a channel, whose fall in about a thousand feet is about 2 feet The first embankment having breached, a heavier embankment was thrown up This withstood the floods of one season, though the road through to loop was greatly damaged The year I took over the charge of the road it was decided that nothing should be done to it That season during the rains the floods carried the embankment entirely away, so that no trace of it was left, and the channel had increased from about 25 feet to about 100 feet I then stated the futility of attempting to embank this channel and said that the river would adopt this as its channel, and that the original would silt up This is what is now occurring, and not only this, but the height of the river during floods is greatly diminished, and the country above the Gurgoria nullah, which used to be submerged during every flood, is now comparatively free of water, but the country below is suffering, and will continue to do so until the river deepens its channel, which it will do in a year or so The country above the Gurgoria is by far the most fertile, and the damage done is comparatively *nil* As I have above stated, the opening up of this channel has reduced the height of the floods above Aul to a considerable extent The country on the left bank (which is unprotected by embankment), which used to be submerged during almost every flood, has now never more than a foot or so of water over it during the highest flood

11. I have carefully examined the country, and have come to the conclusion that the part of the road that branches off from the Pattamundie to the Aul road, at the 50th mile from Cuttack and runs past Aul to the south and on through the loop of the Khursuah river to Ganja, should be abandoned, and that a new piece of road should be constructed from opposite the end of the Pattamundie and Aul road, viz opposite the 57th mile crossing, just above where the Khursuah branches and keeps along the left bank of the left branch to Ganja, and skirting Ganja, to the north through Ganja Hat and on to the 62nd mile This route crosses numerous watercourses and two important channels, one of which is mentioned in the classified list (No 37) These channels are navigable during floods between the Byrunee and the Khursuah, and one of these is navigable for some distance during high tides the greater part of the year. The channel between Marigaon and Ganja is embanked across in several places to retain the water for fishing, &c.

I have made a preliminary survey of this line, and think it will cost more than the Rs 5,000 allotted for reconstructing the original road, but it will save the extra ferry, and will shorten the road to be maintained by a mile

12 The allotment of Rs 1,851 for constructing masonry abutments to three timber bridges on piles I find that the 43rd and the 64½th mile bridges will require reconstruction entirely New bridges will have to be estimated for, as the existing bridges are unstable. The platform of the 40th mile bridge was removed during 1876-77, the retaining planks and the abutment piles are ant-eaten, but I think that they are strong enough to last another year or so I am exceedingly sorry to say that I have not obtained the discharges through these bridges, which will be required before the estimates can be made for their reconstruction

13 I have to mention four allotments for original works which had to lapse on account of the estimates not having been passed, the work not being able to be executed, and the last not being required The first is an allotment of Rs 750 for a timber bridge with masonry abutments across the Buda nullah, on the fifth mile of the Jugutsingpore and Jajpore road I applied for double this sum, but in passing the budget estimate the committee stated that this was much too great a sum to be expended on an unimportant road, and that as the Katjuri river had been embanked across at Singirpore, the waterway of the bridge might be reduced, and so passed Rs 750 and told me to do my best with that amount I submitted a plan and estimate in April last for a bridge of the same height and span and greater waterway than the then existing bridge (by reducing the number of piles) This estimate is yet with the Executive Engineer, Mahanuddy division

14 As the old bridge was in a dangerous state, I put the construction of the new work in hand, stipulating with the contractor that payment should only be made when plans and estimates were sanctioned Knowing that the height of the bridge would not be altered, though, should more waterway be decided upon, the bridge could be lengthened, I have omitted the returning planks and piles, and have only put up temporary hand-rails of bamboos This work has been executed, but payment has not been made on it as yet

15 The next allotment is of Rs 1,000 for the Ersema road This road is from the 36th mile of the Taldanda road to Ersema, the centre of a vast rice-growing tract of country I have adopted the existing cart tracks, keeping as much as possible on the "Purrah", or waste land, so as to save taking up land for the road Excepting the last mile and a half of the road, I have kept on the surface of the country, merely demarcating the road by look spits The last mile and a half I have raised on an average about three feet This is on account of the road running through paddy-fields, and would be under water for the greater part of the year The estimates amount to Rs 6,000 The next allotment is of Rs 130 for constructing a halting place at the end of the Chandbally road The estimate and plan for this was submitted and passed, but the work could not be carried out, as the land was not taken up in the first instance, and there was too much water over the country, in the second, the work should be put in hands just after the paddy cutting, as the earth is then moist enough to cut During the dry weather it is too hard, and during the rains too wet The last allotment was of Rs 51 for constructing landing stages at the ghâts or ferries As the Government had taken over the ferries from the Road Cess Department, the repairs to the landing stages and slopes are no longer under the Road Cess Department

16 Of the village roads I have submitted estimates for Rs 2,196, and have executed work amounting to Rs 2,170-2-8 of these in Cuttack thana —
